Certifying agent's name: \_\_\_\_\_ Telephone: \_\_\_\_\_

Copy of NAHB certificate attached

\* There is only one rebate of \$200 for full green certification, no matter how many certifications the home receives.

**Incentive Calculations:**

1. Determine if the home is ENERGY STAR™ certified and/or Builders Challenge certified. Choose one rebate calculation path.
  - a. **ENERGY STAR™** homes with a HERS Index of 78 to 85 receive a \$255 rebate (until Jan. 1, 2010)
  - b. **ENERGY STAR™** homes receive a base rebate of \$300. Add \$20 for each HERS Index point below 77. [ $\$300 + (\$20 \times (77 - \text{Hers Index}))$ ]
  - c. **Builders Challenge** homes receive a base rebate of \$440. Add \$40 for each HERS Index point below 70. [ $\$440 + (\$40 \times (70 - \text{Hers Index}))$ ]
2. Is the home certified as an FGBC, LEED-H and/or NAHB green Home? If yes add \$200 (maximum)
3. Is the home Florida Water Star<sup>SM</sup> Certified? If yes, add \$100

**Example:** An ENERGY STAR™ certified home with a HERS Index of 75 would receive a rebate of:

$$[\$300 + (\$20 \times (77-75))] = [\$300 + (\$20 \times 2)] = \mathbf{\$340}$$

**Example:** A Builders Challenge home with an E-Scale of 67 and certified as FGBC, LEED-H and Florida Water Star<sup>SM</sup> would receive a rebate of:

$$[\$440 + (\$40 \times (70-67))] = [\$440 + (\$40 \times 3)] = \$560 + \$200(\text{green certifications}) + \$100(\text{Florida Water Star}^{\text{SM}}) = \mathbf{\$860}$$

■ **There is a maximum rebate of \$1500 per home. All rebates are available to homes within JEA's electric service territory. Only the Florida Water Star<sup>SM</sup> rebate is available to homes which are outside JEA's electric service territory but are in JEA's water service territory.**

**For questions about the rebate e-mail [conservation@jea.com](mailto:conservation@jea.com) or call 904-665-6590**

**Make incentive check payable to:**

Name \_\_\_\_\_ Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

When submitting more than one home, only one Builder Incentive Request Form is necessary. Attach a list of homes including the address and the HERS index or E-Scale of each (if homes have been rated individually). Please be sure all appropriate certification documents are attached for each home.

**Submit Builder Incentive Request Form and required documents to:**

Northeast Florida Builders Association
