

## SUPPLEMENT TO SECTION 428.I.I.1

### GRAVITY WASTEWATER

#### PART 1 – GENERAL

##### 1.01 SUBMITTALS

- A. With the submittal of its bid, the CONTRACTOR shall provide utility pipeline projects that it has successfully self-performed within the past 10 years of a similar scope to that proposed by this JEA project.
  - 1. To be considered a project of similar scope, the referenced project shall be a gravity pipe installation with a minimum diameter of 18-inches; an excavation depth of at least 15-feet.
  - 2. A maximum of two (2) projects shall be provided to meet the total length requirement of 1,000 linear feet.
- B. With the submittal of its bid, the CONTRACTOR shall provide a utility pipeline project that consisted of the installation of 100 linear feet of 48-inch or greater diameter steel casing on grade by the jack and bore method it has successfully self-performed within the past 10 years.
- C. The CONTRACTOR shall provide the project name, owner project number, owner name, owner address, current contact information for the owner and its project manager, and project engineer with address and current contract information for the ENGINEER.
