

JEA Backflow Checkup Supplemental Information

☐

Your Backflow Preventer Passed the test. Results of this testing will be submitted to JEA on your behalf, and your backflow preventer is in compliance. You will hear from JEA when it is time to test again, in approximately two years.

☐

We were unable to test your backflow preventer because we didn't see it or it is in the back yard. If you have a backflow preventer please give us a call so that we may test it for you. If you do not have a backflow preventer you will need to have one installed.

☐

Your Backflow Preventer Failed the test, and you are required to repair or replace it. The reason(s) for the failed test:

Check Valve #1 Failing

Check Valve #2 Failing

Relief Valve Failing

Shut off Valve(s) are stuck

Other: _____

NOTE: We are a JEA approved contractor. Though we value you as a customer, you are not obligated to contract with our company for any of the repairs that are required. As a convenience, JEA maintains a list of backflow vendors online, at: jea.com/backflow.
