

Foreword:

This help guide is provided to suppliers with instructions on how to access and submit bids on JEA's cloud based sourcing platform (Zycus)

This guide will walk the supplier through the following topics:

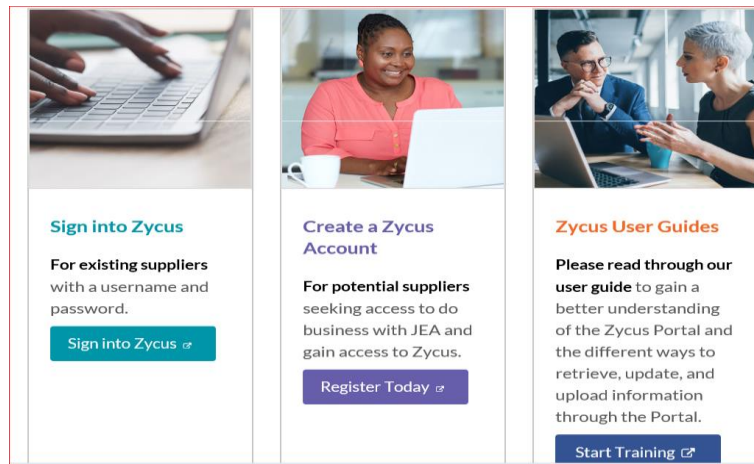

- Supplier Onboarding (gaining access to platform)
- Bid Participation (download documentation and completion bid forms)
- Bid Submission (uploading and completing the submission process)

Supplier Onboarding:

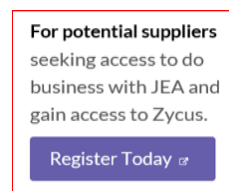

Accessing the initial Zycus login and access screen from JEA.com.

Navigate to JEA.com and look for keyword “Zycus” or use the link below.

https://www.jea.com/About/Procurement/Zycus_Portal/

New Users will need to register to login. Registration will require Company name, Contact and Email Address.

Path for Supplier to log into the Zycus Platform.

- 1.) Go to the Zycus home page, try the supplier current company email address to see if there is an existing user account (If there is the below error will appear). Go to Step 2. (Note: JEA performed a large data dump of accounts, so your email may be in the system). If you do receive a password reset email address, proceed to reset password, receive activation and the supplier login process is complete.

- 2.) When completing a new user registration and adding company information, if the user receives the following notification (below) when a company email address is entered. The specific email address may not be in Zycus’s system, however, it is possible your company is in the system. If the user would like to add another contact email to the current Company supplier set up, **the user will need to request to add contact information and email address to the existing supplier name in Zycus & Oracle.** For directions on how to do this, proceed to step 3.

Appendix C – Zycus Supplier Instructions

- 3.) To add a new email address and contact to an existing supplier (i.e. you already do business with JEA) or to verify if the existing company is in Oracle (JEA’s Purchasing, invoicing and payment system) send an email to isupplier@jea.com. JEA will verify if the company is set up in the ERP system (Oracle), if the existing company is in Oracle, the iSupplier team will request contact update information to add a contact to Oracle. JEA as a part of the supplier maintenance process will push the information to Zycus, at which point, the supplier will be able to have their password reset. **If iSupplier notes, your company is not in JEA’s Oracle system, you’ll then proceed to just create a Zycus ID as a potential supplier:**
