THIS ADDENDUM IS FOR THE PURPOSE OF MAKING THE FOLLOWING CHANGES OR CLARIFICATIONS:

1. **Question:** For 123 - Option N (Comp Truck # 7154), addendum 3 contains photos of custom bins that appear to be made out of aluminum and welded together. Our question is do these bins ("bolt bins" if what we call them) need to be the exact same size and material as the photos with the tape measurer, or can they be close and perhaps made out of a rigid plastic material?

Answer: These are custom made shelves specifically made to fit the needs of the end user. Yes, they need to be built exactly as shown in the images.
