ADDENDUM NUMBER: ONE (1)

TITLE: 1410797446 (RFQ) JEA Substation Transformer Oil Sampling

QUOTE DUE DATE: December 22, 2022

TIME OF RECEIPT: 11:59 PM EST

**THIS ADDENDUM IS FOR THE PURPOSE OF MAKING THE FOLLOWING CHANGES OR CLARIFICATIONS:**

1. **Question:** We noticed that the solicitation appears to be strictly for performing the physical act of drawing the samples, and does not include sending to a lab and testing the samples. Is this correct?

**Answer:** Yes, this RFQ is simply for oil sampling.

2. **Question:** Is the testing of the oil for these samples under a separate RFQ? Can you provide more information on how that is currently handled, and when it is up for public bid again, like the sampling?

**Answer:** At this time, we have standardized on Doble Engineering Company's Lab services and will not be going out to bid for the analysis of our oil.

3. **Question:** On the bid response form, there are only two pricing lines for the spring rotation and the fall rotation even though this is a 3-year contract. Are we to assume the prices bid for these rotations is only for the upcoming year 2023 or are these prices supposed to be for all 3 years?

**Answer:** Please provide price for One (1) year for Spring Sampling and for One (1) year for Fall Sampling. The awarded amount for the contract will be calculated based on Three (3) Years of performing this service.

**ACKNOWLEDGE RECEIPT OF THIS ADDENDUM ON THE PROPOSAL FORM.**
