BASE REVENUES

Base revenues, as shown on page 12 of the monthly financial statements, include more than the name suggests. This line item includes: customer sales, recognition of revenue due to stabilization fund(s) transfers, bad debt, and monies received from public service taxes and franchise fees collected.

If you are looking just for our sales collected from customer charges and usage fees, you want to review the base rate revenues line item on page 27 of our monthly financial statements. This is our budget page and under nonfuel related revenues you can review base rate revenues, conservation charge revenues, environmental charge revenues, natural gas revenue pass through and other revenues collected from customers to get a clearer picture of our sales. Page 27 also identifies KWH sold both territorial and off system.

Generally, for the Electric System, the prominent driver of sales is degree days. Usually, a higher number of degree days results in increased energy usage. Overall, FY2024 has still been warmer than FY23 this has resulted increased sales.

DEGRI	EE DAYS COA	APARISON

OPERATING EXPENSES

Operating Expenses refer to the ongoing costs necessary to run a business. As displayed on page 12 of the monthly financial statements, JEA's electric system's operating expenses include: fuel expenses, purchased power expenses, O&M expenses, depreciation expenses, utility and franchise tax expenses, and the net recognition of deferred costs and revenues.

When comparing our June year-to-date operating expenses for FY24 to FY23, we see a decrease in fuel expenses and purchased power expenses. Additional fuel cost information, to include fuel costs, consumption statistics, and cost per MWh can be found on page 24 of our monthly financial statements. Additional purchase power cost information can be found on page 25 of our monthly financial statements.

O&M Expenses are the Operating Expenses within our control. Across both systems, all other operating expenses are sales dependent. For example, a decrease in sales does result in a decrease in tax expenses. Our O&M expenditures are within our control and we can adjust our spend rate to align with our operating revenue trends. We will take a closer look at our O&M budget on the next slide.

ELECTRIC SYSTEM O&M BUDGET

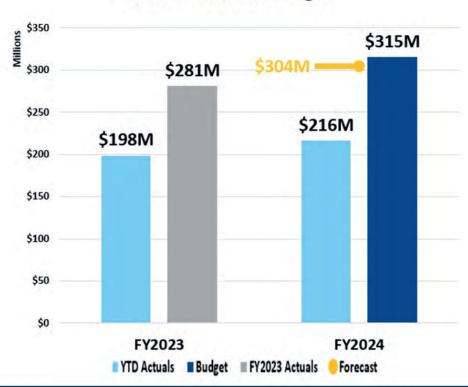

YTD O&M is 95% of the FY24 budget

Forecasting FY24 O&M spend to be \$304.4M, which is \$10.8M less than the annual budget of \$315.2M. Projected spend is 96.6% of the annual budget.

Looking at various forecast methodologies, FY24 O&M spend could range from \$298M to \$306M.

Background Information & Analysis:	 JEA is the Plan Sponsor of the JEA 401(a) Defined Contribution Plan, which is a tax-qualified defined contribution plan. Employees who are "appointed status" are eligible to participate in the Plan. Currently, the Plan permits, but does not require, eligible employees to make a pick-up contribution election to defer a percentage of their wages to the Plan on a pretax basis. As required by the Internal Revenue Code, a pick-up contribution election is a one-time, irrevocable election. Pick-up contribution elections are no longer administratively feasible due to current

plan of the employer.
This presents a compliance issue for employees who are initially hired into a non-appointed position and then subsequently promoted into or rehired into an appointed position – they would be required to make an election when first hired into an appointed position and position are the use they are not aligible to participate in

IRS application of tax-qualification law. Specifically, the IRS has taken the position that the one-time irrevocable election to make a pick-up contribution must be made when the employee first becomes eligible to participate in any retirement

- into an non-appointed position, even though they are not eligible to participate in the Plan at that time, and may never be eligible to participate in the Plan.
- All employees are immediately eligible on the first day of their employment to participate in the City of Jacksonville's General Employees Defined Contribution Plan (GEDC), which is another retirement plan of the employer because JEA is a participating employer in the GEDC.
- Additionally, because a pick-up contribution can only be made one time and is irrevocable, there is low utilization of it by the eligible employees.

BOARD RESOLUTION: 2024-40

August 27, 2024

A RESOLUTION APPROVING PLAN AMENDMENT AND RESTATEMENT OF THE JEA 401(a) DEFINED CONTRIBUTION RETIREMENT PLAN TO REMOVE EMPLOYEE PRE-TAX DEFERRALS FOR NEW PARTICIPANTS EFFECTIVE OCTOBER 1, 2024; AUTHORIZING THE INTERIM MANAGING DIRECTOR/ CHIEF EXECUTIVE OFFICER TO EXECUTE ON BEHALF OF THE BOARD; PROVIDING FOR THE CORRECTION OF ERRORS; AND PROVIDING FOR AN EFFECTIVE DATE

RECITALS

WHEREAS, JEA, as the sponsoring employer, previously adopted the JEA 401(a) Defined Contribution Retirement Plan ("Plan"), which Plan was subsequently amended and restated effective May 1, 2022, was thereafter amended via an Interim Amendment effective retroactive to January 1, 2016, January 1, 2020, and January 1, 2022 (as applicable to each provision in the Interim Amendment), was thereafter again amended via an Interim Amendment effective retroactive to March 27, 2020, and is currently in effect; and

WHEREAS, JEA employees who are classified in JEA's human resource records as being "appointed status" are eligible to participate in the Plan; and

WHEREAS, the Plan currently allows, but does not require, eligible employees to make a one-time, irrevocable election to defer a portion of their Plan compensation on a pre-tax basis to the Plan, which contribution type is referred to as a "Pick-Up Contribution"; and

WHEREAS, to comply with current guidance from the Internal Revenue Service ("IRS") concerning taxqualification requirements, an employee's one-time, irrevocable election to make a Pick-Up Contribution must be made on or before the employee is first eligible to participate in any plan of the employer ("Pick-Up Contribution Election"); and

WHEREAS, given the complexity of administering the Pick-Up Contribution Election process and the low utilization of the Pick-Up Contribution feature by eligible employees, the Pick-Up Contribution feature is no longer a desirable plan design feature; and

WHEREAS, it has been proposed that JEA amend the Plan to remove the Pick-Up Contribution feature effective as of October 1, 2024 for eligible employees who have not made a Pick-Up Contribution Election before October 1, 2024 (including but not limited to an employee who is hired or promoted to appointed status on or after October 1, 2024), while continuing Pick-Up Contributions for eligible employees who made a Pick-Up Contribution Election before October 1, 2024; and

WHEREAS, Empower Retirement, LLC, the Plan's recordkeeper and Plan document provider, supplied the amendment and restatement of the Plan's Adoption Agreement and related Plan documentation which sets forth the amended terms with respect to Pick-Up Contributions and which makes no other substantive changes to the Plan. The amendment and restatement of the Plan's Adoption Agreement and related Plan documentation is attached hereto as **Exhibit 1**; and

WHEREAS, JEA has reviewed all documentation and is fully advised of the premises;

76308128;3

NOW, THEREFORE, BE IT RESOLVED by the JEA Board of Directors that:

- 1. The recitals stated above are hereby incorporated into and made part of this Resolution, and such recitals shall serve as findings of fact.
- 2. The Board hereby approves and adopts the amendment and restatement of the Plan's Adoption Agreement, which is attached hereto as **Exhibit 1**.
- 3. The Board authorizes the Interim Managing Director / Chief Executive Officer to execute the amendment and restatement of the Plan's Adoption Agreement in substantially the same form and format as attached hereto as **Exhibit 1**.
- 4. To the extent that there are any typographical, administrative, and/or scrivener's errors contained herein that do not change the tone, tenor, or purpose of this Resolution, then such errors may be corrected with no further action required by the JEA Board.

- (b) JEA shall prepare and submit its budget for the ensuing year to the city on or before July 1 of each year, setting forth its estimated gross revenues and other available funds, and estimated requirements for operations and maintenance expenses, capital outlay, debt service, and depreciation and reserve account. The council and the mayor shall approve or disapprove such budget in the manner provided in Article 14 for budgets of independent agencies.
- (c) As consideration for the unique relationship between the City of Jacksonville and JEA, as a tax-exempt entity within the consolidated government, and in recognition of the shared attributes with the consolidated City of Jacksonville in connection with its electric, water, and sewer distribution systems, there shall be assessed upon JEA in each fiscal year, for the uses and purposes of the city, from the revenues of the electric system and the water and sewer system operated by JEA available after the payment of all costs and expenses incurred by JEA in connection with the operation of such electric system and water and sewer system (including, without limitation, all costs of operation and maintenance, debt service on all obligations issued by JEA in connection with such electric system and water and sewer system and required reserves therefore and the annual deposit to the depreciation and reserve account required pursuant to Section 21.07(g)), an amount as provided herein. Effective October 1, 2016, consistent with the provisions of this Section 21.07(c), JEA shall pay the city combined assessment for the electric system and the water and sewer system. The combined assessment for the electric system and the water and sewer system. The combined assessment for the electric system and the water and sewer system shall equal, but not exceed the greater of (A) the sum of (i) the amount calculated by multiplying 7.468 mills by the gross kilowatt-hours delivered by JEA to retail users of electricity in JEA's service area and to wholesale customers under firm contracts having

an original term of more than one year (other than sales of energy to Florida Power and Light Company from JEA's St. Johns River Power Park System, exception ending December 31, 2017) during the twelve-month period ending on April 30 of the fiscal year immediately preceding the fiscal year for which such assessment is applicable plus (ii) the amount calculated by multiplying 389.20 mills by the number of K-Gals (1=1000 gallons) potable water and sewer service, excluding reclaimed water service, provided to consumers during the twelve-month period ending on April 30 of the fiscal year immediately preceding the fiscal year for which such assessment is applicable, or (B) a minimum calculated amount which increases by 1% per year from fiscal year 2016-2017 through fiscal year 2022-2023 using the fiscal year 2015-16 combined assessment of \$114,187,538 as the base year. The amounts applicable to clause (B) above are: for fiscal year 2016-2017 - \$115,329,413; for fiscal year 2017-2018 - \$116,482,708; for fiscal year 2018-2019 - \$117,647,535; for fiscal year 2019-2020 - \$118,824,010; for fiscal year 2020-2021 - \$120,012,250; for fiscal year 2021-2022 - \$121,212,373; and for fiscal year 2022-2023 - \$122,424,496.

- (d) The assessment calculations for the electric system and the water and sewer system shall be in effect until September 30, 2023. The council may reconsider the assessment calculations after October 1, 2022 and changes, if any, shall become effective October 1, 2023. The council may change the assessment calculations by ordinance within the provisions of this Section 21.07. Should the council not reconsider the assessment calculations, the assessments shall be calculated using the existing formulas specified in Section 21.07(c), including a minimum calculated amount in clause (B) therein, which increases by one percent per year for each fiscal year computed as provided in Section 21.07(c). In addition to the annual assessment as calculated in Section 21.07(c), JEA pursuant to the terms of an Interagency Agreement (as amended) with the City, agreed to provide total nitrogen water quality credit to the City to assist the City in meeting its Basin Management Action Plan load reduction goal (BMAP Credit). If JEA cannot provide the BMAP Credit pursuant to the terms of the Interagency Agreement dated March 22, 2016 (as amended), council and JEA shall work cooperatively to address the BMAP Credit shortfall or council may reconsider the assessment calculations.
- (e) The council shall have the power to appropriate annually a portion of the available revenues of each utility system (other than the electric, water and sewer systems) operated by JEA for the uses and purposes of the city. This appropriation shall be based on a formula to be agreed upon by JEA and the council. Any covenants or pledges to lenders associated with such proposed additional utility system which impair council's ability to appropriate revenues from that additional utility system, other than a pledge of gross revenues to bondholders, shall be included in the JEA resolution required in s. 21.04(v) or any future resolution allowing for financing of activities associated with that additional utility system.
- (f) JEA shall pay over to the city (i) the amounts assessed upon JEA pursuant to Section 21.07(c) and (ii) such portions of the funds actually appropriated by the council pursuant to Section 21.07(e) at such time as the council may request, but not in advance of collection. Although the calculation for (i) the amounts assessed upon JEA pursuant to Section 21.07(c) and (ii) the annual transfer of available revenue from JEA to the city pursuant to Section 21.07(e) is based upon formulas that are applied specifically to the respective utility systems operated by JEA, JEA, in its sole discretion, may utilize any of its revenues regardless of source to satisfy its total annual obligation to the city mandated by said Sections 21.07(c) and (e).
- (g) JEA shall be required to set aside each year in a depreciation and reserve account established for each utility system it operates, an amount equal to not less than 10 percent of its annual net revenues for the previous year attributable to each such system. For such purpose, "annual net revenue" shall mean annual gross revenues derived by JEA from the operation of such system reduced by expenses for operation and maintenance allocable to such system and debt service allocable to such system. Funds set aside in each such depreciation and reserve account shall be used exclusively for enlargements, extensions, improvements and replacements of capital assets of the utility system for which such account was established or to pay or provide for the payment of JEA's bonds, notes or revenue

- certificates relating specifically to such system; provided, however, that if JEA by resolution determines that it is in the best interests of JEA to use all or any portion of the funds set aside in the depreciation and reserve account established with respect to a particular utility system for the purposes of another utility system, then such funds may be so applied.
- (h) JEA shall not be required to utilize the personnel, motor pool, purchasing, communication or information systems services of the city. By mutual agreement of JEA and the city such services may be provided from one party to the other but only on a cost-accounted basis. JEA shall be required to use the legal services of the city on a cost-accounted basis except in those cases when the chief legal officer of the city determines that the city legal staff cannot or should not provide legal services in the required legal area. JEA shall appropriate the funds necessary to meet the obligations for outside legal services as determined by the general counsel of the city. The general counsel shall consult with JEA before he or she selects outside counsel.
- (i) Unless otherwise determined by JEA, all revenues and service charges receivable by JEA as payment for the sale of utilities services shall be collected and received by the tax collector. The tax collector shall deposit to the account of or otherwise turn over to JEA such funds at such times and in such manner as JEA may from time to time designate by resolution. JEA may provide for the collection of such revenues and service charges directly by JEA, provided that the council auditor shall be notified in writing of any proposed change from the current collection process utilizing the Tax Collector and that such change shall not take place until the next fiscal year after such notice is given.
- (i) Reserved.
- (k) JEA is authorized to pay over to other local governmental units outside the city annually a portion of available revenues derived from operations in such local governmental units' territories, for the uses and purposes of such local governmental units, an amount not to exceed that which would be calculated using the procedures in Sections 21.07(c)and (e), but only to the extent that JEA is able to, and does, include in the rates imposed only upon the customers in such local governmental units' territories the total amounts in respect of such payments.
- (1) In addition to all other sums paid by JEA to the City of Jacksonville, JEA shall pay to the City of Jacksonville a franchise fee in an amount equal to three percent (3%) of the revenues of the electric system and the water and sewer system as set forth in Section 21.07(c) herein. The franchise fee will commence for revenues derived effective April 1, 2008 and shall be paid monthly with the first payment payable on June 1, 2008. The franchise fee shall be limited to (1) revenues derived within Duval County not including Urban Service Districts 2-5, and (2) per customer, total water and sewer rate revenues, and (3) up to a per customer maximum of \$2,400,000 per fiscal year of electric rate revenues. The franchise fee shall be calculated each month by multiplying three percent (3%) by the sum of JEA's base rate electric revenues, fuel rate revenues, water rate revenues and sewer rate revenues for that month excluding unbilled revenues and uncollectible accounts. The franchise fee shall be calculated on revenues derived from the sale of gross kilowatt-hours and number of cubic feet of potable water and cubic feet of sewer service as set forth in Section 21.07(c). Notwithstanding the foregoing, no franchise fee shall be paid on franchise fees, state utility taxes, fuel related interchange sales, sales for resale, City of Jacksonville accounts, JEA accounts, investment income and other revenues. JEA shall be authorized to pass-through the amount of the franchise fees set forth herein and associated charges resulting from the stated three percent (3%) franchise fee calculation on rate revenues notwithstanding the \$2,400,000 limit set forth herein to the customers of JEA, in accordance with the customers' proportionate share of rate revenues as calculated above. This franchise fee is in consideration of the administrative costs incurred by the City to coordinate functions and services with JEA, for the exclusive right to serve electric, water and sewer customers, for use by JEA of the public rights-of-way used by it in connection with its electric distribution system and its water and sewer distribution and collection system, and in further consideration of the unique relationship of JEA and

the City, in which JEA is a wholly owned public utility, and such other good and valuable consideration that has been agreed to between JEA and the City of Jacksonville. The gross franchise fee and the amount of the pass-through set forth herein may be increased by ordinance, initiated by the Mayor and approved by two-thirds supermajority of the City Council, but the franchise fee shall not exceed six percent (6%) of the gross utility revenues as calculated above. The JEA and the City shall enter into a Franchise Fee Agreement for the administration of the Franchise Fee.

(m) When JEA is in receipt of a request for information from the council auditor pursuant to the authority of the council auditor under Section 5.10 of the charter, it shall, within two business days of receipt of the request, 1) acknowledge receipt of the request by electronic mail to the council auditor, and 2) submit to the council auditor an estimated timeframe for which the information requested will be available to the council auditor for review. If the information requested by the council auditor is not within the purview of JEA or JEA is unsure of the request or unfamiliar with the information that is requested, it should provide such explanation in its response to the council auditor.

- (5) Annual survey. JEA shall annually conduct a survey of actual, interested and prospective bidders, respondents, and vendors to obtain feedback on JEA's procurement process. All contracts and related documents entered into by JEA shall contain a provision clearly stating that such vendor or contractor shall comply with the provisions of F.S. Additionally, JEA shall include a provision in any contract entered into pursuant to this Article that such vendor or contractor shall comply with all applicable federal, state and local laws, rules and regulations as the same exist or as may be amended from time to time.

If any contract or agreement shall be made in violation of the provisions of this Section the same shall be null and void and no action shall be maintained thereon against JEA.
- (d) No limitation. Unless otherwise provided herein, nothing in this Section shall be construed to limit the power of JEA to construct, repair, or improve the utilities systems or any part thereof, or any addition, betterment or extension thereto.
