WSB For additional information contact: Marline McDonald This award request is for construction, engineering, and inspection services of water/wastewater capital projects listed in the capital improvement plan. The selected Consultants may be tasked with supplementing JEA staff or fully managing construction oversight on assigned water/wastewater projects. Responsibilities may include contractor coordination, inspection, contract administration, change order and payment review, and warranty enforcement. Specific scopes and fees will be negotiated per project based on JEA's needs. Eight Responses were received when the solicitation opened, and one Response was disqualified due to the Consultant not meeting the Minimum Qualifications. The top three ranked firms were selected to enter into negotiations, based to the expected volume of work. Hourly rates were negotiated and deemed reasonable compared to current market conditions.

For additional information contact: Jason Beltr This award request is to execute the final one-year renewal of the Medium and High Voltage Circuit Breaker Replacement Program contract, along with a \$978,126.94 increase to cover anticipated FY26 expenditures. There have been no price increases beyond those permitted under the contract's allowable CPI adjustments. The scope of work for this program involves replacing various substation class circuit breakers within JEA's transmission system. The process includes multiple tasks for each circuit breaker replacement. Initially, the JEA Program Manager will provide the contractor with construction drawings and documents and coordinate outage and construction schedules. The contractor will then survey the site, remove the existing circuit breakers, and transport them to JEA's Westside Service Center. They will also install new poured in place foundations, new circuit breakers, jumpers, grounding, and conduits, as well as pull and terminate control and power cables (excluding energized relay panels). Additional tasks include electrical panel modifications, laying aggregate fill, landscaping, and applying herbicides. The contractor is also responsible for completing cleanup, addressing punch list items, and providing as built drawings.

Last awarded: 07/10/2025 For additional information, contact: Darriel Brown This contract increase is being submitted to the Awards Committee for approval to provide additional funding and a one-year renewal to Polydyne for supply and delivery of bulk liquid emulsion polymer used for thickening and drying wastewater biosolids at various JEA facilities. This increase will fund the 1-Yr. contract renewal period, 02/2026 to 02/2027. Polymer unit pricing remains unchanged.												
5	Contract Increase	1411322446 Wastewater Odor Control Chemicals	Zammataro	USP Technologies	O&M	\$243,661.42	\$243,661.42	\$10,077,000.00	\$11,320,661.42	01/09/2025 - \$1,000,000.00	Three (3) Years w/Two (2) 1-Yr. Renewals Start: 09/21/2023 End: 09/20/2026 Two (2) Renewals Remaining	N
Last awarded: 09/21/2023 For additional information contact: Darriel Brown The scope of work under this contract includes providing the necessary chemicals, equipment and services for odor, corrosion, and scale control in the collection system and in-plant processes. Hydrogen Peroxide is the primary odor control chemical used under this contract. On 01/09/2025, the contract was amended to include two additional chemicals (Ferric Sulfate and SulfLox) and to implement a 3% unit price increase for the peroxide. The current increase reflects the anticipated spend for the remainder of the contract term, driven by increased usage of Hydrogen Peroxide and a planned trial for struvite control utilizing the newly added chemicals.

Schultes of Florida - \$4,685,000.00 For additional information, contact: Marline McDonald This award request is for construction services required for the construction and completion of Production Well No. 1 and Production Well No. 2 at the JEA Wildlight Water Treatment Plant site in Nassau County. The scope includes drilling both wells into the Floridan Aquifer, performing well development and testing, clearing and grubbing the well sites, stabilizing and maintaining the existing access road, and installing a temporary gate to secure the site during construction. Compared to the other bidders, Complete Services' pricing is lower across the major work items, including general conditions, site preparation, well construction, and mobilization/demobilization. Their pricing is consistent with prior work performed for JEA, where they have historically been very competitive and aligned with our internal estimates. This work was competitively bid, and JEA has determined that Complete Services Well Drilling is the lowest responsive and responsible bidder. The bid amount is approximately 4% below the business unit estimate and is deemed reasonable. DISCUSSION/ACTION: Ted Phillips requested more information regarding the significant disparity in the bid prices. Brian Phillips from W/WW explained Complete Services, the low bidder, has successfully completed work with JEA in the past and he is comfortable with the low price. The other two bidders, located in Georgia, lack prior experience with JEA. Board approved on: 11/18/2025 For additional information, contact: Dan Kruck The Haskell Company was awarded a contract for design-build services for the new H2.0 1.0 MGD water purification demonstration facility on January 23, 2020. The company's scope of work includes the design and construction of a greenfield water purification facility utilizing membrane treatment. The treated water will meet applicable water quality standards, including primary and secondary drinking water standards and potable reuse regulations, and will address the removal of currently unregulated compounds. A key component of the project is the visitor experience and education center, which will be accessible for tours by JEA employees, elected officials, community leaders, middle and high school students, regulatory agency staff, and engineers and plant operators from other utilities. This request adds \$600,000.00 to cover the forecasted costs to pave the access road, construct the stormwater system, and complete associated access driveway improvements as requested by JEA.

Consent Agenda

The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for **Formal Purchases** as defined by **Section 3-101 of the JEA Procurement Code**. 		Originally Awarded: 07/14/2022 For more information contact: Ella Bedwell This contract increase request is being submitted to the Awards Committee for approval because additional work has been identified and funding is needed to complete the project. The original scope of work covers construction services to upgrade the lift station at Harts Road, including replacing the motor control center, transfer switch, programmable logic controller, controls and communication equipment. The contract increase scope of work includes work to remove and re-install a stainless steel junction box, as well as additional labor and material required for plumbing and HVAC modifications necessary to complete the project and ensure reliable system installation and restoration consistent with JEA standards. This contract increase is needed to be brought to the Awards Committee for approval due to the previous contract amendments meeting the 10% administrative limit allowed under JEA's Procurement Code. Unit rates remain unchanged, and the quote has been reviewed by JEA project staff and deemed reasonable compared to past projects.										
3	Invitation for Bid (IFB)	1412056646 IFB FY26 Light Duty Vehicles, Medium Duty Vehicles, and Vans	Phillips	Duval Ford Garber Ford Inc	Capital	\$6,453,764.50	\$5,429,569.58 \$194,297.65	N/A	\$5,623,867.23	N/A	One-Time Purchase in FY26 & FY27 Start Date: 11/24/2026 End Date: 09/30/2027	N
		Advertised: 09/30/2025 Optional Pre-Response Meeting: 10/10/2025, Four (4) Attendees Responses Opened: 11/04/2025 Four (4) Responses Received: Beck Chrysler Dodge Jeep - \$5,676,386.00 (Bid on 59 vehicles) - Response Withdrawn Duval Ford - \$5,555,986.44 (Bid on 61 vehicles) Garber Ford Inc - \$5,788,377.10 (Bid on 62 vehicles) Ring Power - \$4,766,602.00 (Bid on 32 vehicles) For additional information contact: Halley Stewart This award request is for the purchase of sixty-two (62) Light Duty Vehicles, Medium Duty Vehicles, and Vans with various up-fits and configurations for fleet replacements and expansion for JEA Water and Electric business units. To promote competition, suppliers were not required to bid on all vehicles. The pricing for each vehicle type was compared individually and awarded to the lowest bidder by vehicle type. We compared the costs of the same vehicles purchased in FY25, which resulted in savings of \$48,641.75 between FY25 and FY26 unit pricing. By multiplying the unit price savings by the FY26 quantities for each of the 31 items included in both bids, the total savings amounted to \$221,232.54. New bidders, Ring Power and Beck Chrysler Dodge Jeep, did not participate in FY25. Beck Chrysler Dodge Jeep initially submitted a response but later identified errors in their bid and requested to withdraw it. Plus, interest from two additional companies that ultimately did not bid helped generate more competitive pricing for FY26. All vehicles Duval Ford bid on in both FY25 and FY26 were priced lower in this bid. This request is for the award of contracts to the lowest bidders: Duval Ford in the amount of \$5,429,569.58 for fifty-nine (59) vehicles and Garber Ford Inc in the amount of \$194,297.65 for three (3) vehicles. The total award amount of \$5,623,867.23 is \$829,897.27 (12.9%) less than the \$6,453,764.50 budget estimate and has been deemed reasonable.

Rates approved by GFT.

Bill, if you put the final table together and send it to us to review, we can get them to Procurement and target awards on 4-Dec.

I recommend we split the contract as follows:

Via \$7M
Keville \$7M
GFT \$7M

We'll need to make sure the contract basis spreadsheet totals \$21M.

Thoughts?

Type of Award Request: INVITATION TO NEGOTIATE (ITN)

Request #: N/A

Requestor Name: Short, Michael L. - Manager, Project Design

Requestor Phone: (904) 665-7048

Project Title: Medium and High Voltage Circuit Breaker Replacement Program

Project Number: 788-125, 788-134, 788-01

Project Location: JEA

Funds: Capital

Budget Estimate: \$7,750,000.00

Scope of Work:

The purpose of this Invitation to Negotiate (the "ITN") is to evaluate and select a contractor that can provide circuit breaker, replacement services (the "Work") for JEA.

The Scope of Work for this program is to replace various substation class circuit breakers in JEA's transmission system with new circuit breakers. The following tasks will be typical for each circuit breaker:

- JEA Program Manager issues construction drawings and supporting documents to the Contractor and will coordinate outage and construction timeframes.
- The Contractor surveys and benchmarks the site as needed, removes and transports existing circuit breakers to JEA's Westside Service Center, transports, offloads circuit breakers, installs poured-in-place foundations, installs new circuit breakers, jumpers, grounding, conduits, pulls and terminates the control and power cables, except at energized relay panels and other incidental tasks including electrical panel modifications, laying additional aggregate fill (rock), grassing, landscaping, and applying herbicides, completes cleanup, punch list items, and as-built drawings.

This project will positively affect the following JEA Measures of Value:

- Customer Value: substation upgrades, provide right-sized system improvements which minimize cost to the customer, while maintaining service levels, increasing overall value of the utility to the customer.
- Community Impact Value: Improved operational reliability and flexibility of the substation and grid improves the level of service.
- Environmental Value: Substation efficiency decreases overall grid and system losses making the most efficient use of power generated, lessening the utilities impact on the environment.
- Financial Value: Correctly planned and timed upgrades to substations, make the best use of capital resources, while keeping the grid at operating within design limitations, which provides a better return on investment and creates financial value.

JEA IFB/RFP/State/City/GSA#: 135-19

Background/Recommendation:

Advertised 08/29/19. Ten (10) companies attended the optional pre-response meeting held on 09/17/2019. At Response opening on 10/01/2019, JEA received six (6) Responses. Three (3) Respondents, Reliable Substation Services, Hooper Corporation and Sayers Construction were shortlisted and invited to submit Best and Final Offers (BAFOs). JEA evaluated the companies on price only and Reliable Substation Services is deemed the lowest responsive and responsible respondent. A copy of the Response Form and Workbook are attached as backup.

Unit Prices are fixed for the term of the contract. Time and Equipment (T&E) rates are fixed for the first three years with CPI price adjustment (All Urban Consumers, CUUR0000SA0) in years four and five. This contract is a first of its kind and therefore, there is no pricing comparison for unit price rates. The T&E rates are consistent with other JEA T&E electrical contractor services.

135-19 - Request approval to award a contract to Reliable Substation Services for Medium and High Voltage Circuit Breaker Replacement Program for a not-to-exceed amount of \$7,766,506.00, subject to the availability of lawfully appropriated funds.

WHEREAS, JEA issued Solicitation Number 124-19, Request for Proposals for Progressive Design-Build (PDB) Services for the Water Purification Demonstration Facility Project (the RFP); and

WHEREAS, in a publicly noticed meeting, on January 23, 2020, the JEA Awards Committee awarded a contract under the RFP to The Haskell Company (Haskell); and

WHEREAS, on February 11, 2020, JEA and Haskell (the parties) entered into JEA Contract No. 187427 (the Original Contract) for the Water Purification Demonstration Facility Project, attached hereto and incorporated herein, with a maximum indebtedness of eight hundred thousand dollars (\$800,00.00) for preliminary design services; and

WHEREAS, on June 3, 2020, the parties agreed to suspend all Work under the Original Agreement until further notice; and

WHEREAS, on October 25, 2021, the parties executed Amendment #1 to the Original Contract, attached hereto and incorporated herein, to resume the Work, to make revisions to the contractual terms, and increasing the maximum indebtedness by five million two hundred twenty-three thousand three hundred fifty-seven dollars (\$5,223,357.00) to complete 100% of the design services, for a new total maximum indebtedness of six million twenty-three thousand three hundred fifty-seven dollars (6,023,357.00); and

WHEREAS, on November 17, 2022, the parties executed Amendment #2 to the Original Contract, attached hereto and incorporated herein, establishing a Guaranteed Maximum Price for the Early Equipment Package scope of work in the amount of five million one hundred five thousand six hundred forty-six dollars (\$5,105,646.00) for a new total maximum indebtedness of eleven million one hundred twenty-nine thousand and three dollars (\$11,129,003.00); and

WHEREAS, on March 2, 2023, the parties executed Amendment #3 to the Original Contract, attached hereto and incorporated herein, reducing Liquidated Damages from \$5,000.00 per day to \$3,000.00 per day; and

WHEREAS, on August 17, 2023, the parties executed Amendment #4 to the Original Contract, attached hereto and incorporated herein, establishing a Lump Sum Price for the Water Purification Demonstration Facility project in the amount of fifty-eight million eight hundred seventy thousand nine hundred nine-seven dollars (\$58,870,997.00) for a new total maximum indebtedness of seventy million dollars (\$70,00,00.00); and

WHEREAS, on March 21, 2024, the parties executed Amendment #5 to the Original Contract, attached hereto and incorporated herein, for additional site work and replenishment well construction,

increasing the maximum indebtedness by eight million eight hundred sixty-seven thousand one hundred fifty-seven dollars and thirty-seven cents (\$8,867,157.37) for a new total maximum indebtedness of seventy-eight million eight hundred sixty-seven thousand one hundred fifty-seven dollars and thirty-seven cents (\$78,867,157.37); and

WHEREAS, on August 27, 2024, the parties executed Amendment #6 to the Original Contract, attached hereto and incorporated herein, for the Degasification & Remineralization Proposal, it is necessary to increase the overall maximum indebtedness of the Original Contract, as amended, in the amount of four million six hundred thirty-nine thousand six hundred fifteen dollars (\$4,639,615.00) for a new total maximum indebtedness of eighty-three million five hundred six thousand seven hundred seventy-two dollars and thirty-seven cents (\$83,506,772.37); and

WHEREAS, on May 16, 2025, the parties executed Amendment #7 to the Original Contract, attached hereto and incorporated herein, to remove \$738,224.00 from the cost of the work section and re-classify it as an Owner's Allowance, without a change in the contract NTE, and to update the Liquidated Damages clause; and

WHEREAS, JEA has estimated that a contract increase will be required prior to project completion to provide for paving, stormwater system, and associated access driveway improvements; and

WHEREAS, at its October 31, 2025 meeting, the JEA Capital Projects Committee recommended that the Board authorize a contract increase of six hundred thousand dollars for the purpose of completing the recommended improvements; and

WHEREAS, the Board of Directors has determined that it is in the best interests of JEA to authorize a contract increase of up to six hundred thousand dollars (\$600,000), for a new total maximum indebtedness of up to eighty-four million one hundred six thousand seven hundred seventy-two dollars and thirty-seven cents (\$84,106,772.37).

NOW THEREFORE, BE IT RESOLVED by the JEA Board of Directors that:

1. The above recitals are incorporated by reference into the body of this resolution and are incorporated as findings of fact.
2. The Board of Directors hereby authorizes the Chief Executive Officer, or her designee, to execute an amendment to the Original Contract, as amended, on behalf of JEA, providing for a contract increase not to exceed six hundred thousand dollars (\$600,000) and establishing a new total maximum indebtedness thereunder not to exceed eighty-four million one hundred six thousand seven hundred seventy-two dollars and thirty-seven cents (\$84,106,772.37).
3. To the extent there are typographical, clerical, or administrative errors that do not affect the tone, tenor, or context of this resolution, such errors may be corrected without further authorization from the Board of Directors.
4. This Resolution shall be effective immediately upon passage.

Dated this 18th day of November 2025.
