Consent Agenda												
The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for Formal Purchases as defined by Section 3-101 of the JEA Procurement Code . Please refer to JEA's Procurement Code, if you wish to protest any of these items.												
Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Funding Source	Business Unit Estimate	Award Amount	Original Award Amount	New Not-to-Exceed	Amendments	Term (Projected) Start Date - End Date	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)

2	Invitation for Bid (IFB)	1412051446 - Nocatee North Reclaim Water Storage Tank	Zammataro	Petticoat-Schmitt Civil Contractors, Inc.	Capital	\$7,830,180.00	\$6,093,550.00	N/A	\$6,093,550.00	N/A	Project Completion Start: 02/02/2026 End: 01/13/2028	Yes Servcorp (SCX) Formerly, RZ Services - (Mechanical Materials) 5% = \$256,335.00
<p>Advised: 09/26/2025 Mandatory Pre-Bid: 10/07/2025 (Seven primes attended) Opened: 10/07/2025 Three (3) Bids Received 1. Petticoat-Schmitt \$6,093,000.00 2. Ferreira \$6,245,550.00 3. Sawcross \$6,788,750.00 For additional information contact: Marline McDonald</p> <p>This award request is for a new contract to Petticoat-Schmitt for the Nocatee Reclaim Water Storage Tank. The scope includes construction of a new 3.55-million-gallon (MG) prestressed concrete ground storage tank (GST); primary electrical system upgrades to accommodate the new GST and associated controls; new yard piping, including demolition and abandonment of existing piping; demolition and removal of the existing 1.0 MG steel GST; abandonment of the existing pond and construction of a new pond; all required civil and site work; installation of specified landscaping features; and restoration of all disturbed areas to pre-construction conditions or better.</p> <p>This work was competitively bid, and JEA has determined that Petticoat-Schmitt is the lowest responsive and responsible bidder. The bid is 22% below the business unit estimate and is deemed reasonable.</p>												
3	Request for Proposal (RFP)	1412045446 Water/Wastewater General Construction Services	Zammataro	ET Design-Build Sawcross, Inc. Petticoat-Schmitt Civil Contractors, Inc. Garney Companies, Inc. Dugan & Meyers Industrial LLC	Capital	N/A	N/A	N/A	N/A	N/A	Three (3) Years w/Two (2) 1-Yr. Renewals Begin: 01/30/2026 End: 01/29/2029	JSEB participation will be assigned at each Task Order.
<p>Advised: 09/09/2025 Mandatory Pre-Response: 9/16/2025 (12 primes attended) Opened: 10/14/2025 Public Evaluation: 11/20/2025 Seven (7) Responses Received</p> <p>Rank Points Firm 1 275.12 ET Design-Build 2 275.00 Sawcross 3 272.98 Petticoat-Schmitt 4 264.61 Garney 5 256.20 Dugan & Meyers 6 236.94 Ferreira 7 193.09 SGS</p> <p>For additional information contact: Darriel Brown</p> <p>This award request is for multiple continuing services contracts for Water/Wastewater General Construction Services. The scope of work includes construction services for various Capital and O&M projects at JEA's water and wastewater facilities under multi-year continuing service contracts. The contractors were selected from an approved bidders list for the project types WP1-Pump Station Installation, Construction, Maintenance and Repair and WP2-Water and Sewer Plant Systems Installation, Construction, Maintenance and Repair, for work occurring across multiple JEA locations not already covered by existing contracts.</p> <p>Seven responses were received for this RFP. JEA evaluated the responses based on unit rates and company water/wastewater experience. The Evaluation Team decided to award contracts to the top five companies based on anticipated project needs. A Master Service Agreement (MSA) will be executed with each company, and purchase orders will be issued for individual projects as task orders. The MSAs will govern the transaction terms, with maximum indebtedness specified in the task orders.</p> <p>In accordance with the Procurement Code, any task order with a maximum indebtedness exceeding \$500,000.00 will be submitted to the Awards Committee for approval.</p>												
4	Reverse Auction	1412069852 Reverse Auction-New Dell and Logitech Equipment Purchase	Sellers	CDW-Government, LLC	Capital and O&M	\$1,800,000.00	\$1,415,131.60	N/A	\$1,415,131.60	N/A	One (1) Year w/Two (2)- 1 Yr. Renewals Start Date:01/01/2026 End Date:12/31/2026	N
<p>Advised:11/07/2025 Optional Pre-Response Meeting:11/14/2025 Bid Due Date: 11/20/2025 Four (4) Responses received Reverse Auction:11/21/2025 Three (3) Suppliers participated CDW-Government, LLC-\$1,415,131.60 Moving on IT-\$1,512,000.00 Tech Advance Computers, Inc- Withdrew bid For Additional Information Contact: Angel Love</p> <p>This request is for the purchase of Dell and Logitech equipment including Dell computers (laptops, desktops, monitors, tablets), docks, Dell Auto/Air USB C adapters, keyboard and mouse combinations, webcams, and Garmin GPS receiver modules. All of these products are JEA Technology standards.</p> <p>On November 21, 2025, the Technology Services Procurement Team conducted a reverse auction with three participating suppliers. During the live auction, 29 lead changing low bid offer entries were submitted, with Tech Advanced Computers, Inc. initially providing the lowest bid. However, after the auction concluded, Tech Advanced Computers, Inc. was unable to secure their expected pricing from Dell, Inc. and subsequently withdrew its bid. As a result, JEA awarded the contract to the next lowest bidder, CDW Government, LLC. The price difference between CDW and Tech Advanced Computers was \$2,131.60, and overall, JEA achieved savings of \$125,130.15 through using the reverse auction process, based on the original quote initially submitted during business unit budget planning of \$1,540,261.75 and previous pricing information.</p> <p>CDW is offering an 18-61% discount off list price on Dell equipment and support items on the response workbook.</p>												

	Collaborative Procurement Sourcewell Contract 101221-VAC	Contract 101221-VAC: Five Ton Jet Vacuum Loader 16 CYD Trucks	Phillips	Vac-Con Inc	Capital	\$1,310,765.90	\$1,310,765.90	N/A	\$1,310,765.90			
5	<p>Collaborative Procurement Agency: Sourcewell, a State of Minnesota local government unit and service cooperative Contract #101221-VAC with VAC-CON INC Contract Term: Start Date 11/24/2021, through 11/29/2026</p> <p>For additional information contact: Eugene Brown</p> <p>This award request is for the purchase of two (2) Five-Ton Jet Vacuum Loader 16 CYD Trucks from Vac-Con Inc. for a total of \$1,310,765.90. These units are critical replacements for the JEA Fleet. One existing unit suffered a tank implosion, and a second failed inspection with a high risk of similar failure. To ensure delivery within the FY26 budget and mitigate operational delays, JEA is utilizing the Sourcewell collaborative procurement contract in accordance with Section 3-115 of the Procurement Code.</p> <p>While the unit price of \$655,382.95 represents a 16.7% increase over the last purchase price in FY23 (\$560,398), this remains below the 22% market inflation observed from December 2022 to present. The cost increase is driven by chassis surcharges, custom fabrication labor, and an 8.7% annual market growth in vacuum trucks. To offset these factors, JEA negotiated a \$77,762.61 dealer discount per unit, combined with Sourcewell member savings of \$41,184.20 per unit, resulting in a total cost avoidance of \$237,893.62 for the pair.</p>									N/A	One-Time Purchase in FY26 Start Date: 12/15/2025 End Date: 09/30/2026	N
6	Contract Increase	1411799247 CCNA General Engineering Services for Electric Distribution	Erixton	Pickett & Associates, Inc Chen Moore and Associates Inc	Capital	\$588,455.00	\$588,455.00 No Change	\$450,000.00 \$300,000.00	\$1,038,455.00 No Change	N/A	Three (3) Years w/Two (2) - 1 Yr. 1	Invitation for Bid (IFB)	1411989846 Mandarin WRF - Switchgear Control Upgrade	Zammataro	Eau Gallie Electric, Inc.	\$3,390,000.00	\$1,600,500.00	N/A	\$3,390,000.00	N/A	Project Completion Start: 01/05/2026 End: 06/30/2027	N/A	Motion by: Second by: Committee Decision:
	<p>Advertised: 07/05/2025 Mandatory Pre-Bid: 07/14/2025 (four primes attended) Opened: 10/07/2025 (7 due date extensions) One (1) bid received: Eau Gallie Electric \$3,390,000.00</p> <p>For additional information contact: David King</p> <p>This request for award is for a new contract to Eau Gallie Electric for the Mandarin WRF Switchgear Control Upgrade Project. The scope involves replacing obsolete 1990s-era switchgear components to ensure plant reliability and serve as a critical prerequisite for an active generator project. The bid amount (\$3,390,000.00) exceeds the May 2023 estimate (\$1,600,500.00) due to significant material inflation (copper prices +45-60%, equipment +30%) and the high-risk premium required for working in a "live" facility. The contractor must account for complex outage sequencing and design liability that was not fully captured in the original estimate.</p> <p>The solicitation process was exhaustive, involving seven bid due date extensions and eight addenda to address technical inquiries. However, the complexity of integrating new UL-certified controls with existing infrastructure caused three potential bidders to withdraw, citing the difficulty of the work. Eau Gallie Electric was the sole bidder to remain engaged. We recommend awarding to this single bidder as the market has been fully tested, and further delays would negatively impact the critical path of the dependent generator project.</p> <p>DISCUSSION/ACTION: DISCUSSION/ACTION PARTICIPANTS:</p>

<p>Advised: 07/09/2025 Mandatory Pre-Response: 07/18/2025 (Eleven Primes attended) Opened: 08/19/2025 8 Responses Received Public Evaluation Meeting on: 09/25/2025 Final Rankings: 1. VIA Consulting Services 2. GFT Infrastructure 3. Keville Enterprises 4. KCI Technologies 5. Meskel & Associates 6. Arcadis 7. WSB For additional information contact: Marline McDonald</p> <p>This award request is for construction, engineering, and inspection services of water/wastewater capital projects listed in the capital improvement plan. The selected Consultants may be tasked with supplementing JEA staff or fully managing construction oversight on assigned water/wastewater projects. Responsibilities may include contractor coordination, inspection, contract administration, change order and payment review, and warranty enforcement. Specific scopes and fees will be negotiated per project based on JEA's needs.</p> <p>Eight Responses were received when the solicitation opened, and one Response was disqualified due to the Consultant not meeting the Minimum Qualifications. The top three ranked firms were selected to enter into negotiations, based to the expected volume of work. Hourly rates were negotiated and deemed reasonable compared to current market conditions.</p>												
3	Contract Renewal/ Contract Increase	135-19 Medium and High Voltage Circuit Breaker Replacement Program	Erixton	RELIABLE SUBSTATION SERVICES INC.	Capital	\$978,126.94	\$978,126.94	\$7,766,506.00	\$8,744,632.94	0	Five (5) Years w/ Two (2) 1-Yr Renewals Start Date: 11/26/2019 End Date: 11/25/2026	N
<p>For additional information contact: Jason Beltr</p> <p>This award request is to execute the final one-year renewal of the Medium and High Voltage Circuit Breaker Replacement Program contract, along with a \$978,126.94 increase to cover anticipated FY26 expenditures. There have been no price increases beyond those permitted under the contract's allowable CPI adjustments.</p> <p>The scope of work for this program involves replacing various substation class circuit breakers within JEA's transmission system. The process includes multiple tasks for each circuit breaker replacement. Initially, the JEA Program Manager will provide the contractor with construction drawings and documents and coordinate outage and construction schedules. The contractor will then survey the site, remove the existing circuit breakers, and transport them to JEA's Westside Service Center. They will also install new poured in place foundations, new circuit breakers, jumpers, grounding, and conduits, as well as pull and terminate control and power cables (excluding energized relay panels). Additional tasks include electrical panel modifications, laying aggregate fill, landscaping, and applying herbicides. The contractor is also responsible for completing cleanup, addressing punch list items, and providing as built drawings.</p>												
4	Contract Increase and Renewal	1410933246 Continuing Services for Bulk Liquid Emulsion Polymer Supply and Delivery	Zammataro	Polydyne, Inc.	O&M	\$3,284,008.97	\$3,190,164.05	\$7,584,720.00	\$13,914,825.89	02/4/2025 - \$758,472.00 07/10/2025 - \$1,406,500.58 09/30/2025 - \$974,969.26	Three (3) Years w/Three (3) 1-Yr. Renewals Start: 02/09/2023 End : 02/08/2027 Two (2) Renewals Remaining	N
<p>Last awarded: 07/10/2025 For additional information, contact: Darriel Brown</p> <p>This contract increase is being submitted to the Awards Committee for approval to provide additional funding and a one-year renewal to Polydyne for supply and delivery of bulk liquid emulsion polymer used for thickening and drying wastewater biosolids at various JEA facilities.</p> <p>This increase will fund the 1-Yr. contract renewal period, 02/2026 to 02/2027. Polymer unit pricing remains unchanged.</p>												
5	Contract Increase	1411322446 Wastewater Odor Control Chemicals	Zammataro	USP Technologies	O&M	\$243,661.42	\$243,661.42	\$10,077,000.00	\$11,320,661.42	01/09/2025 - \$1,000,000.00	Three (3) Years w/Two (2) 1-Yr. Renewals Start: 09/21/2023 End: 09/20/2026 Two (2) Renewals Remaining	N
<p>Last awarded: 09/21/2023 For additional information contact: Darriel Brown</p> <p>The scope of work under this contract includes providing the necessary chemicals, equipment and services for odor, corrosion, and scale control in the collection system and in-plant processes.</p> <p>Hydrogen Peroxide is the primary odor control chemical used under this contract. On 01/09/2025, the contract was amended to include two additional chemicals (Ferric Sulfate and SulfLox) and to implement a 3% unit price increase for the peroxide. The current increase reflects the anticipated spend for the remainder of the contract term, driven by increased usage of Hydrogen Peroxide and a planned trial for struvite control utilizing the newly added chemicals.</p>

Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Award Amount	Business Unit Estimate	Original Award Amount	New Not-to-Exceed	Amendments	Term	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)	Action
1	Invitation for Bid (IFB)	1412043050 Wildlight WTP-Well Drilling No.1 and No.2	Zammataro	Complete Services Well Drilling Inc	\$1,513,390.00	\$1,581,440.00	N/A	\$1,513,390.00	N/A	Project Completion Start: 01/15/2026 End: 11/29/2026	Y Complete Services Well Drilling, Inc is a JSEB firm	<p>Motion by: Ricky Erixton</p> <p>Second by: Jody Brooks</p> <p>Committee Decision: Approved</p>
<p>Advised: 09/19/2025 1st Mandatory Pre-Bid: 09/30/2025 (Four Primes attended) 2nd Mandatory Pre-Bid: 10/08/2025 (Three Primes attended) Opened: 11/12/2025</p> <p>Three bids received: 1. Complete Services Well Drilling - \$1,513,390.00 2. Woodrow Sapp Well Drilling - \$2,606,532.15 3. A.C. Schultes of Florida - \$4,685,000.00</p> <p>For additional information, contact: Marline McDonald</p> <p>This award request is for construction services required for the construction and completion of Production Well No. 1 and Production Well No. 2 at the JEA Wildlight Water Treatment Plant site in Nassau County. The scope includes drilling both wells into the Floridan Aquifer, performing well development and testing, clearing and grubbing the well sites, stabilizing and maintaining the existing access road, and installing a temporary gate to secure the site during construction.</p> <p>Compared to the other bidders, Complete Services' pricing is lower across the major work items, including general conditions, site preparation, well construction, and mobilization/demobilization. Their pricing is consistent with prior work performed for JEA, where they have historically been very competitive and aligned with our internal estimates.</p> <p>This work was competitively bid, and JEA has determined that Complete Services Well Drilling is the lowest responsive and responsible bidder. The bid amount is approximately 4% below the business unit estimate and is deemed reasonable.</p> <p>DISCUSSION/ACTION: Ted Phillips requested more information regarding the significant disparity in the bid prices. Brian Phillips from W/WW explained Complete Services, the low bidder, has successfully completed work with JEA in the past and he is comfortable with the low price. The other two bidders, located in Georgia, lack prior experience with JEA.</p> <p>DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Brian Phillips, Dan Kruck, Jody Brooks</p>

1	Informational	124-19 Progressive Design-Build Services for the 1.0 MGD Water Purification Facility	Zammataro	The Haskell Company	\$600,000.00	N/A	\$800,000.00	\$84,106,772.37	<p>10/25/2021 - \$5,223,357.00 11/17/2023 - \$5,105,646.00 03/02/2023 - \$0.00 08/17/2023 - \$58,870,997.00 03/21/2024 - \$8,867,157.37 08/27/2024 - \$4,639,615.00 05/16/2025 - \$0.00</p>	Project Completion Start: 02/11/2020 End: 06/30/2026	N	N
<p>Board approved on: 11/18/2025 For additional information, contact: Dan Kruck</p> <p>The Haskell Company was awarded a contract for design-build services for the new H2.0 1.0 MGD water purification demonstration facility on January 23, 2020. The company's scope of work includes the design and construction of a greenfield water purification facility utilizing membrane treatment. The treated water will meet applicable water quality standards, including primary and secondary drinking water standards and potable reuse regulations, and will address the removal of currently unregulated compounds. A key component of the project is the visitor experience and education center, which will be accessible for tours by JEA employees, elected officials, community leaders, middle and high school students, regulatory agency staff, and engineers and plant operators from other utilities.</p> <p>This request adds \$600,000.00 to cover the forecasted costs to pave the access road, construct the stormwater system, and complete associated access driveway improvements as requested by JEA. □</p>

RE: Engineering Services for the Durbin Distribution Feeders

Dear Michael:

The Pickett team is pleased to offer professional services for the proposed Durbin distribution expansion in St Johns County. If you have any questions or need any additional information, please call me at 904.382.9514.

Sincerely,

A handwritten signature in black ink that reads "J. Russell Coby". The signature is written in a cursive, flowing style.

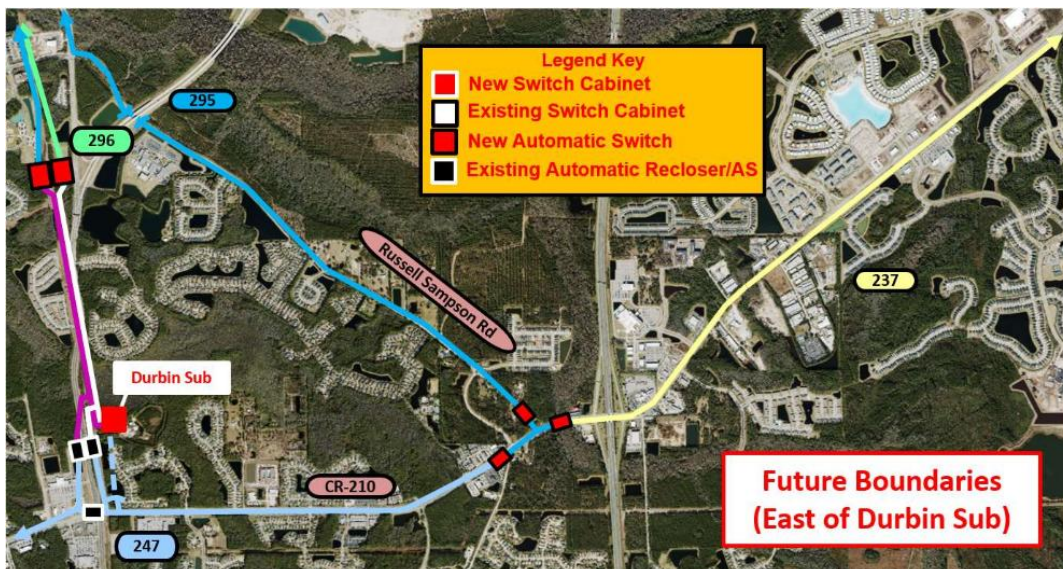

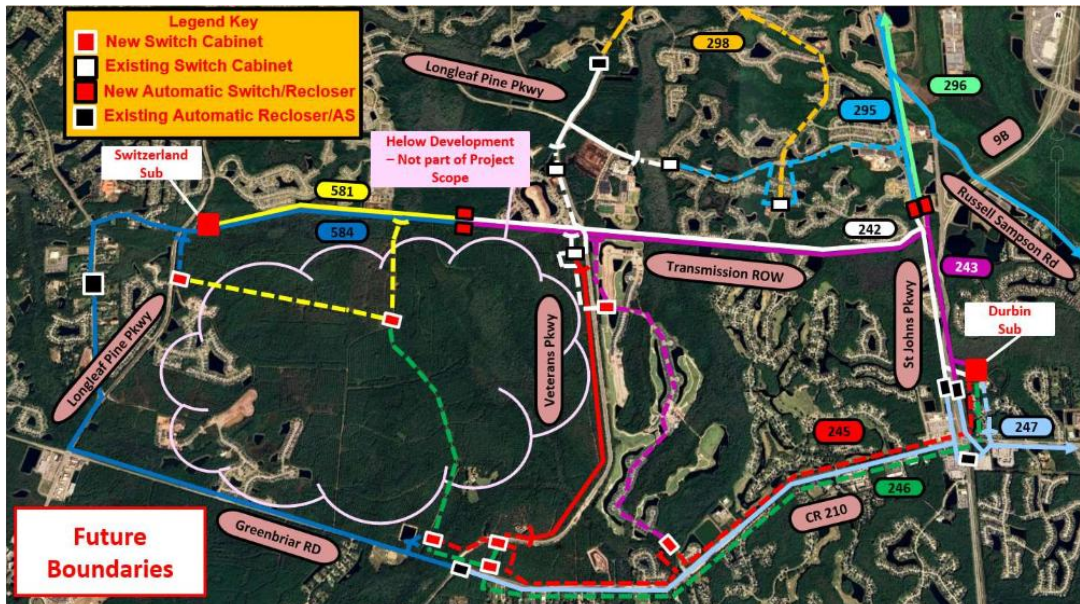

Russell Coby, P.E.
Project Manager
(904) 382-9514
rcoby@pickettusa.com
www.pickettusa.com

1.0 SCOPE OF WORK

JEA intends to expand their distribution footprint to counteract the rapidly increasing expansion of industrial, commercial and residential electrical load. The project includes installing approximately 11.43 miles of 3-1000AL with 4/0Cu N underground cable (27 miles of conduit) with 6 switch cabinets and manholes has needed as well as 5 miles of overhead 3-636 AL with 4/0AL N conductor. Pickett will perform surveying and engineering for the expansion.

Site Map

1.1 Engineering

Our team will provide a complete construction package for the project. Engineering will include:

- A. Underground Cable Design – Design per JEA Underground Distribution Construction Standards. Create separate IFB drawings and bill of material (BOM) for each area of connected cable systems.
- B. Overhead Distribution Design – Design per JEA Overhead Distribution Construction Standards. Create separate IFB drawings and bill of material (BOM) for each area of connected overhead systems.
- C. Manhole Exploratory Excavates – Develop exploratory drawings for manholes once they are spotted.
- D. Manhole and Duct Bank Design – Design per JEA Underground Distribution Construction Standards. Create separate IFB drawings and bill of material (BOM) for each area of connected cable systems.
- E. Preliminary Switch and Circuit Maps – Develop Preliminary Switch and Circuit Maps used to exhibit proposed circuit routing.
- F. Construction Bid Specification – Work with the JEA project manager to modify the Construction Bid Specification template to reflect the unique conditions of this project.
- G. Deliverables -
 - 1. Milestones:
 - 30% - 06/01/2026 – Plan view and Manhole Exploratory Excavates Drawings
 - 90% - 10/30/2026 – All design drawings, BOM, Switch & Circuit maps & bid specifications
 - 100% - 01/01/2027 – Final construction package
 - 2. Complete IFB & IFC drawings in MicroStation V8 format
 - 3. PDFs of construction print (11 x 17 and 24 x 36) including a combined PDF of the full drawing set.
 - 4. Bill of material (BOM) in Excel
 - 5. Electronic file and PDF of all surveys (MicroStation V8 or AutoCAD)
 - 6. Electronic file and PDF of preliminary switch and circuit maps (MicroStation V8 or AutoCAD)
 - 7. All completed permits

1.2 Construction Support

- A. Provide engineering assistance during the construction of the project on an as-requested basis, attend pre-construction meetings with construction crews and resolve any field issues in a timely manner. We have included up to 130 hours to support construction activities.

1.3 Permitting

- A. Permitting – Determine the necessary permits and create the drawings needed to submit to the agency. (i.e. FDEP, USACE, FDOT, County, etc.). Pickett will compile all information necessary for each application and work with each agency to obtain permits. It is assumed that JEA will formally submit permit applications to each agency.

1.4 Environmental Services

Pickett will partner with Verdantas LLC to provide environmental services to support investigations and permitting for the project. The services associated with this project include:

- A. Ecological Assessment Survey:** conducting wetland delineation, general listed species surveys, reporting, as well as preparation and submittal of permit applications to the appropriate agencies.
- B. Permitting Support:** Verdantas will prepare and submit permit applications for Environmental Resource Permits (ERP) through the Florida Department of Environmental Protection (FDEP) and Section 404 Permits through the United States Army Corps of Engineers (USACE). The permitting support will include UMAM impact assessments and mitigation plans and strategies for each application. Based on desktop investigations of proposed facilities, it is presumed a General Permit will suffice for the scope. If it is determined an Individual Permit is required, a change order to capture additional environmental scope may be required.
- C. Coordination:** The overall effort will include communication and participation in necessary project team and agency meetings, as well as data collection efforts, report and application preparation, review, and submittal. Verdantas will work with Pickett and the other members of the project team to prepare responses to agency Requests for Additional Information (RAIs). The major steps necessary in this permitting process have been outlined below.
- D. Tree Survey and mitigation** – St. Johns County Development code indicates that any utilities within existing easements and rights of ways will be exempt from tree mitigation. We have not included tree surveys and associated mitigation within this scope of work. Upon line routing and micro-siting, our team will prepare a detailed proposal to support any survey and/or mitigation.

1.5 Survey

- A. Preliminary Base Map** – preliminary map of parcel boundaries, rights of way, and improvements based on publicly available information. These maps will be utilized for engineering purposes and field verified where necessary. This survey will not be utilized for real estate acquisition or any legal tasks.
- B. Supplemental Survey** – Where formal survey is required for real estate acquisition, specific permits or tasks with outside stakeholders, Pickett will develop formal base-map survey which can be signed and sealed.
- C. Real Estate Maps** – Our team will create exhibits to support real estate acquisition illustrating the proposed easement locations on each parcel.
- D. Sketch and Descriptions** – where real estate acquisition is needed, Pickett will create formal sketch and descriptions to support.

1.6 Subsurface Utility Engineering

- A. Quality Level D** – Desktop mapping will be performed by Pickett utilizing publicly available data.
- B. Quality Level C** – Pickett will identify and locate surface features in the field which are visible indicators of subsurface utilities.

- C. Quality Level B** – Pickett will partner with local survey partner McKim & Creed to perform SUE QLD Designations and association mapping.
- D. Quality Level A** – Perform soft digs where necessary to identify potential conflicts and routing challenges with other utilities.

2.0 FEE PROPOSAL

2.1 Terms and Conditions

Pickett proposes to perform this work under the terms and conditions of the current contract based on a lump sum and time and expense, not to exceed basis as outlined below.

Task	Rate	Qty	Unit	Subtotal
Engineering	T&E	2077	Hrs	\$ 314,855
Preliminary Engineering	T&E	500	Hrs	\$ 75,842

MINIMUM QUALIFICATIONS:

Bidder shall have the following Minimum Qualifications to be considered eligible to submit a Bid in response to this Solicitation.

JEA may reject Responses from Respondents not meeting all of the following Minimum Qualifications:

- I. Only those companies approved to be on JEA's Responsible Bidders List (RBL) EG1 Electrical Secondary Service Installation, as of the Response Due Date,

or,

The Respondent must have successfully self-performed 2 equivalent similar projects in the 4 years preceding the Response Due Date.

Any Respondent whose contract with JEA was terminated for default within the last two years shall have its Response rejected.

It is the responsibility of the Bidder to ensure and certify that it meets the Minimum Qualifications stated above. A Bidder not meeting all of the following criteria will have their Response rejected.

1411989846 Appendix B - Bid Form
Mandarin WRF - Switchgear Control Upgrade

1. Reference Name: Rafael Samaniego - Polk County

Reference Phone Number: 863-344-2303

Reference E-Mail Address: RafaelSamaniego@polk-county.net

Contract Duration/Amount: 210 Days \$ 973,350

Description of Project: The Polk County Central Jail Auxiliary Generator Replacement is a FEMA project that replaced the existing generator with a 1750kW generator and upgraded the electrical infrastructure. The project involved demolition of a large I-Beam, existing canopy and generator foundation. A new pad foundation was poured to support the generator and new 6000 gallon fuel tank.

Other upgrades included new switchgear, motor controllers, grounding and surge suppression systems, as well as instrumentation and control wiring. Modifications were made to the security fencing and additional concertina wire was required. The project was completed seamlessly within the secure facility, with no disruption to daily operations. Finished on time and under budget, these upgrades enhance the jail's emergency readiness, ensuring continuous power supply in critical situations.
