

Welcome to the

Awards Meeting

December 18, 2025, 10:00 AM EST

You have been joined to the meeting with your **audio muted** by default.

At the designated public comment time we will provide opportunity for you to unmute to speak.

During the meeting, public comments received via e-mail regarding any matter on the agenda for consideration will be read out. Per the Public Notice Agenda posted on JEA.com, public comments by e-mail must be received no later than 9:00 a.m. on the day of the meeting to be read during the public comment portion of the meeting.

Please contact **Aileen Cruz** by telephone at **(904) 776-1911** or by email at **cruza@jea.com** if you experience any technical difficulties during the meeting.

JEA Awards Agenda December 18, 2025 225 North Pearl St., Jacksonville, FL 32202 - Board Room 1st Floor Teams Meeting Info												
Consent Agenda												
The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for Formal Purchases as defined by Section 3-101 of the JEA Procurement Code . Please refer to JEA's Procurement Code, if you wish to protest any of these items.

1	Minutes	Minutes from 12/11/2025 Meeting	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
2	Request for Proposal (RFP)	1412020847 Program Management Services for the Well Field Rehabilitation and Improvement Program	Zammataro	Jacobs Project Management Co.	Capital	\$13,000,000.00	\$12,959,055.24	N/A	\$12,959,055.24	N/A	Five (5) Years w/Two (2) - 1 Yr. Renewals Start Date: 2/01/2026 End Date: 02/01/2031	Y Complete Services Well Drilling, Inc - (Well Rehabilitation and Construction) - 50% - \$6,479,527.62 CSI Geo, Inc - (Soft Digs Utility Location) - 1% - \$129,590.55
	Advertised: 08/26/2025 Mandatory Pre-Bid: 09/09/2025 (Three primes attended) Opened: 10/07/2025 One (1) Proposal Received 1. Jacobs Project Management Co. For additional information contact: Marline McDonald This award request is for a new contract to Jacobs Project Management Co. for Program Management Services for the Wellfield Rehabilitation and Improvement Program. The scope of work includes providing integrated management services, including program management, planning, permitting, design, and construction services for select projects identified in JEA's Wellfield Rehabilitation and Improvement Program. These services will also be available on an as-needed basis. The project delivery method will be Program Management at Risk. JEA received one proposal. Jacobs, as the current provider under the Progressive Design-Build Services for Production Wells contract, has specialized knowledge of JEA's wellfield systems and is widely viewed by its competitors as the incumbent. Given limited market competition and this perception, JEA determined that extending the solicitation period was unlikely to attract additional qualified proposers. Accordingly, JEA proceeded to open and evaluate Jacobs' proposal and enter into negotiations. It is anticipated that approximately 50% of the work will be performed by Complete Services Well Drilling, a JSEB well drilling firm, during the construction portion of the work. The hourly rates proposed for this contract are consistent with prior contracts and deemed reasonable.											
3	Contract Increase	108-18 Engineering Services for the Arlington East WRF Upgrades Project	Zammataro	Hazen and Sawyer	Capital	\$7,500,000.00	\$7,172,377.00	\$813,750.00	\$24,784,064.00	08/28/2020 - \$78,560.00 03/04/2021 - \$7,137,148.00 06/07/2021 - \$135,318.00 03/28/2022 - (\$426,313.00) 02/09/2023 - \$224,300.00 11/30/2023 - \$7,060,822.00 12/05/2023 - Scope only 06/27/2024 - \$100,688.00 08/12/2024 - \$98,750.00 09/04/2025 - \$2,388,664.00	Project Completion Start Date: 04/25/2019 End Date: 09/30/2029	Y Four Waters Engineering (SDC) - \$245,845.00
	Last Awarded: 09/04/2025 For additional information contact: Dan Kruck This contract increase request is to provide post-design services for the Arlington East WRF High Level Disinfection (HLD) project. This amendment adds the planned post-design services for this project, including construction administration, one full-time resident project representative, specialty inspections, processing requests for information, receiving and reviewing submittals, attending project meetings, preparing final record drawings, developing O&M manuals, and providing operator training. The scope of work for this amendment also includes additional design services to modify the effluent equipment and piping infrastructure, which is expected to save JEA approximately \$7 million in construction costs. Project staff reviewed this amendment request and confirmed that the proposed hourly rates are consistent with the existing contract. The amendment was deemed reasonable when compared to current and past projects.											
4	Invitation for Bid (IFB)	1411940246 (IFB) Georgia St. Substation Pipe-Type Cable Pothead Replacement	Erixton	Ferreira UTEC LLC	Capital	\$1,852,272.73	\$1,929,135.25	N/A	\$1,929,135.25	N/A	Project Completion Start Date: 01/01/2026 End Date: 04/30/2027	N
	Advertised: 11/05/2025 Mandatory Pre-Bid: 11/14/2025 Opened: 12/09/2025 Two (2) Bids Received 1. Ferreira UTEC LLC - \$1,929,135.25 2. W.A. Chester, LLC - \$2,199,975.00 For additional information contact: Jason Behr This Solicitation seeks a contractor to provide labor, equipment, materials, and supervision for the construction and commissioning of twelve 115kV HPFF pipe-type cable terminations at Georgia Substation, Jacksonville, Florida. The contractor will handle the purchase, inspection, unloading, and installation of materials, including G&W ATA 139N-HS terminations. The project involves installing the HPFF cable system, consisting of steel pipes containing three copper cables, at four 69kV circuit termination locations within the substation. Responsibilities also include ensuring proper termination installation, preventing cable slippage, and site cleanup, including disposal of debris from this and a prior termination project. The limited competition for this project is due to its highly specialized nature. Bidders were required to be listed on our approved suppliers list for Responsible Bidder's List Category EG8, which covers Underground Transmission Construction for 69kV and above HPFF Pipe-Type Cable. Currently, only two suppliers are approved under this category, and both submitted bids. The budget estimate aligns with the lowest bid received, which has been determined to be reasonable											
5	Contract Increase	1411058846 Maintenance, Repair and Overhaul (MRO) Material Blankets	Vu	Grainger Co. Inc.	O&M	\$1,742,999.88	\$1,742,999.88	\$1,545,946.58	\$3,443,541.11	07/02/2025 - \$154,594.65	Five (5) Years w/One (1) - 1 Yr. Renewal Start: 05/15/2023 End: 05/14/2028	N
	Last Awarded: 7/27/2025 For additional information contact: David King This contract increase request is being submitted to the Awards Committee for approval because the Maintenance, Repair, and Operations (MRO) contract with Grainger has been utilized more than anticipated. The contract provides non-inventoried consumable materials for various JEA Water/Wastewater facilities. Additional JEA locations, including the H2.0 and Greenland facilities, as well as the Nassau and Southwest plant expansion projects, have begun using this contract as they are brought online.											
6	Contract Increase	1411815446 ITN Miscellaneous Wire and Cable for JEA Stock F&25 - FY28	Phillips	American Wire Group Gresco Supply, Inc. Stuart C. Irby Company Southwire Company Wesco Distribution, Inc.	Inventory	\$1,999,872.00	\$1,999,872.00 (\$1,815,360.00) \$0.00 \$0.00 \$0.00	\$44,107.20 \$9,971,250.08 \$467,957.20 \$29,662,429.35 \$755,158.07	\$2,043,979.20 \$8,155,890.08 \$467,957.20 \$29,662,429.35 \$755,158.07	N/A	Three (3) Years w/ Two (2) 1-Yr. Renewals Start Date: 01/23/2025 End Date: 01/22/2028	N
	For additional information contact: Lynn Rix This contract increase request supports JEA's wire and cable procurement needs. We are transitioning one item—CAIUS002—from the Gresco Supply, Inc. contract to the American Wire Group (AWG) contract. As part of this change, we are reallocating funding: reducing the allocation for Gresco and increasing the funding for AWG. Additionally, we are requesting new funding of \$184,512.00 for AWG. Gresco's contract permits monthly unit price adjustments based on Platts and copper market indices. However, Gresco submitted a price increase that exceeded the November worksheet limits, citing frequent fluctuations in Prysmian pricing. In response, we initiated a Market Cost Evaluation in accordance with the contract terms. The evaluation revealed that AWG's pricing offers a contract savings of \$190,464. For the immediate purchase of 120,000 feet, procuring through AWG will result in a direct savings of \$15,360.											

Consent Agenda Action												
Committee Members in Attendance	Names	Juli Crawford, Ricky Erixton and Jody Brooks										
Motion by:	Jody Brooks											
Second By:	Ricky Erixton											
Committee Decision	Approved											
Regular Agenda												
Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Award Amount	Business Unit Estimate	Original Award Amount	New Not-to-Exceed	Amendments	Term	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)	Action
1	Single Source	SEL ICON MUX Equipment Purchase	Baker	Schweitzer Engineering Laboratories, Inc.	\$6,144,983.38	\$8,096,000.00	N/A	\$6,144,983.38	N/A	Project Completion Start Date:12/20/2025 End Date:12/19/2029	N	Motion by: Ricky Erixton Second by: Jody Brooks Committee Decision: Approved
	For Additional Information Contact: Angel Love											
	This single source award request is for Schweitzer Engineering Laboratories (SEL) OEM parts and equipment purchase in the amount of \$6,144,983.38. This purchase will be to replace all Bulk Electric System (BES) Multiplexer (MUX) Devices with Schweitzer Engineering Laboratories Integrated Communications Optical Network Multiplexers (SEL ICON MUX) devices over a four-year period. The current RFL Electronics MUX (EXMUX) system has been experiencing persistent communication issues, particularly with SEL 411 and 421 Relays. These problems include high asymmetry and latency, which have resulted in multiple relay mis operations over the past several years. Such failures pose significant risks to grid reliability, customer service, and regulatory compliance.											
	To address these issues, JEA proposes replacing all BES MUX devices with Schweitzer Engineering Laboratories Integrated Communications Optical Network Multiplexers (SEL ICON MUX) over a four-year period beginning in FY26. The SEL ICON system will provide dedicated communications for BES, including direct fiber-to-fiber relay connections for the X Channel, as well as support for the Y Channel, POTT channels, and SCADA. The project will be implemented in two phases: Phase 1 will install SEL ICON MUX on the 230KV and 138KV lines over two years, and Phase 2 will install SEL ICON MUX on the 69KV lines over the following two years. To support direct fiber connections between relays, additional fiber optic cable will be added or replaced in segments of the JEA fiber network to expand strand capacity. This upgrade will eliminate persistent asymmetry issues, improve relay reliability, strengthen grid resiliency, and ensure compliance with operational standards.											
	SEL is the single source OEM only Northeast Florida regional provider for the Power Connections manufactured items contained in this award. JEA has purchased some of these items in the past. The items that have been previously purchased remain at the same price as previously purchased. JEA compared unit pricing with an additional distributor outside of its geographic service area. The pricing for the items contained in this quote were determined to be reasonable. Comparative unit pricing for like for like items ranged from 18% to 21% in favor of SEL. The manufacturer will implement an average price increase of 5% in February 2026 and SEL will maintain these adjusted prices through the end of 2028. Note JEA will be able to make the majority if this purchase \$3,852,000.00, the full amount budgeted for FY26, by the end of January 2026 prior to this price increase.											
DISCUSSION/ACTION: The item was pulled to the regular agenda to better understand the reason for the single source. Also, clarification was requested on why the award amount was \$2 million lower than the initial business unit estimate. Discussion revealed that Schweitzer is the required standard manufacturer for this equipment, and the price difference exists because the \$8 million estimate covers the total project cost—including fiber optic cabling—while this specific award is only for the multiplexing hardware. DISCUSSION/ACTION PARTICIPANTS: Joey Pazzalia, Jody Brooks, Gary Vondrasek												
2	Emergency	TG1A Cable Replacement Project	Erixton	Ferreira UTEC LLC	\$2,461,957.00	\$2,461,957.00	N/A	\$2,461,957.00	N/A	Project Completion Start Date:12/18/2025 End Date: 08/31/2026	N	Motion by: Jody Brooks Second by: Ricky Erixton Committee Decision: Approved
	For additional information contact: Jason Behr											
	The HPFF (high pressure fluid filled) 2500kcmil cable and termination at NGS, located between GSU TG1A and the substation, failed due to loss of oil pressure. This failure has resulted in Unit 1 at Northside being limited to only half of its operational capacity. In response to this emergency, UTEC, an industry leader in specialized HPFF cable, was immediately engaged to conduct the initial investigation and explore repair or replacement options. UTEC’s expertise, access to materials, equipment, and vendors that JEA does not have, proved crucial in identifying the most reliable and cost-effective solution: a complete replacement of the cable and terminations at both ends, which includes 3,000 feet of cable and a total of six terminations. Alternative options explored included: a new technology cable, which came with a higher price, longer lead time, and unproven reliability; repairing the cable, which carried a similar cost but included significant risks and uncertainties, including potential cost overruns and the need for a splice pit at NGS; a new engineered solution, which would involve unknown costs, extended repair timelines (up to several years), and intrusive construction at NGS; and sourcing cable from other utilities, which offered no significant time or cost advantages. After evaluating all alternatives, the decision to proceed with a complete cable replacement was deemed the best approach. Ferreira UTEC will handle the sourcing of materials and installation.											
	DISCUSSION/ACTION: The item was pulled to the regular agenda to gather more information on the reason for the emergency procurement. This emergency was driven by a failure at the Northside Generating Station involving specialized cable terminations that normally have a three-to-four-year lead time. By engaging UTEC immediately, the utility secured a "like-for-like" replacement that reduces that wait to eight months and provides the most cost-effective path to restoring the unit to full capacity. DISCUSSION/ACTION PARTICIPANTS: Joey Pazzalia											
	DISCUSSION/ACTION PARTICIPANTS: Joey Pazzalia											
3	Single Source	Fault Current Indicator Upgrade Project	Erixton	Sentient Energy, Inc	\$898,170.00	\$898,170.00	N/A	\$898,170.00	N/A	One Time Purchase	N	Motion by: Ricky Erixton Second by: Jody Brooks Committee Decision: Approved
	For additional information contact: Jason Behr											
	JEA has nearly 3,000 Fault Current Indicators (FCIs) installed on our distribution system. These devices communicate via SCADA and are pivotal to outage management. 400 of these devices have failed in the field and need to be replaced. Most of the failures are due to weather-related factors, such as lightning strikes and water damage. Sentient has introduced improvements to the seal in the latest generation of the FCI, which should help mitigate water damage issues in the future. Based on the available data, the failure rate appears to be around 3-5% annually.											
	The Sentient FCI is the only brand that is compatible with JEA's SCADA system. Based on historical purchases of similar devices, the pricing aligns with what JEA has previously paid and is actually slightly lower. The reduction is likely due to the higher volume included in this purchase.											
	DISCUSSION/ACTION: The item was pulled to the regular agenda to gather more information on the reason for the single source. During the discussion, concerns were raised regarding 400 failed fault current indicators, but staff explained that the Sentient brand remains the only option compatible with the existing SCADA system. The manufacturer has since implemented design improvements to seal the devices, and the committee opted to continue with the purchase to maintain field consistency while monitoring the effectiveness of these corrections. DISCUSSION/ACTION PARTICIPANTS: Armondo Jackson

JEA Awards Agenda December 11, 2025 225 North Pearl St., Jacksonville, FL 32202 - Board Room 1st Floor Teams Meeting Info Consent Agenda												
The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for Formal Purchases as defined by Section 3-101 of the JEA Procurement Code . Please refer to JEA's Procurement Code, if you wish to protest any of these items.												
Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Funding Source	Business Unit Estimate	Award Amount	Original Award Amount	New Not-to-Exceed	Amendments	Term (Projected) Start Date - End Date	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)
1	Minutes	Minutes from 12/04/2025 Meeting	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
2	Invitation for Bid (IFB)	1412051446 - Nocatee North Reclaim Water Storage Tank	Zammataro	Petticoat-Schmitt Civil Contractors, Inc.	Capital	\$7,830,180.00	\$6,093,550.00	N/A	\$6,093,550.00	N/A	Project Completion Start: 02/02/2026 End: 01/13/2028	Yes Servcorp (SCX) Formerly, RZ Services - (Mechanical Materials) 5% = \$256,335.00
Advertised: 09/26/2025 Mandatory Pre-Bid: 10/07/2025 (Seven primes attended) Opened: 10/07/2025 Three (3) Bids Received 1. Petticoat-Schmitt \$6,093,000.00 2. Ferreira \$6,245,550.00 3. Sawcross \$6,788,750.00 For additional information contact: Marline McDonald This award request is for a new contract to Petticoat-Schmitt for the Nocatee Reclaim Water Storage Tank. The scope includes construction of a new 3.55-million-gallon (MG) prestressed concrete ground storage tank (GST); primary electrical system upgrades to accommodate the new GST and associated controls; new yard piping, including demolition and abandonment of existing piping; demolition and removal of the existing 1.0 MG steel GST; abandonment of the existing pond and construction of a new pond; all required civil and site work; installation of specified landscaping features; and restoration of all disturbed areas to pre-construction conditions or better. This work was competitively bid, and JEA has determined that Petticoat-Schmitt is the lowest responsive and responsible bidder. The bid is 22% below the business unit estimate and is deemed reasonable.												
3	Request for Proposal (RFP)	1412045446 Water/Wastewater General Construction Services	Zammataro	ET Design-Build Sawcross, Inc. Petticoat-Schmitt Civil Contractors, Inc. Garney Companies, Inc. Dugan & Meyers Industrial LLC	Capital	N/A	N/A	N/A	N/A	N/A	Three (3) Years w/Two (2) 1-Yr. Renewals Begin: 01/30/2026 End: 01/29/2029	JSEB participation will be assigned at each Task Order.
Advertised: 09/09/2025 Mandatory Pre-Response: 9/16/2025 (12 primes attended) Opened: 10/14/2025 Public Evaluation: 11/20/2025 Seven (7) Responses Received Rank Points Firm 1 275.12 ET Design-Build 2 275.00 Sawcross 3 272.98 Petticoat-Schmitt 4 264.61 Garney 5 256.20 Dugan & Meyers 6 236.94 Ferreira 7 193.09 SCIS For additional information contact: Darriel Brown This award request is for multiple continuing services contracts for Water/Wastewater General Construction Services. The scope of work includes construction services for various Capital and O&M projects at JEA's water and wastewater facilities under multi-year continuing service contracts. The contractors were selected from an approved bidders list for the project types WP1-Pump Station Installation, Construction, Maintenance and Repair and WP2-Water and Sewer Plant Systems Installation, Construction, Maintenance and Repair, for work occurring across multiple JEA locations not already covered by existing contracts. Seven responses were received for this RFP. JEA evaluated the responses based on unit rates and company water/wastewater experience. The Evaluation Team decided to award contracts to the top five companies based on anticipated project needs. A Master Service Agreement (MSA) will be executed with each company, and purchase orders will be issued for individual projects as task orders. The MSAs will govern the transaction terms, with maximum indebtedness specified in the task orders. In accordance with the Procurement Code, any task order with a maximum indebtedness exceeding \$500,000.00 will be submitted to the Awards Committee for approval.												
4	Reverse Auction	1412069852 Reverse Auction-New Dell and Logitech Equipment Purchase	Selders	CDW-Government, LLC	Capital and O&M	\$1,800,000.00	\$1,415,131.60	N/A	\$1,415,131.60	N/A	One (1) Year w/Two (2)- 1 Yr. Renewals Start Date:01/01/2026 End Date:12/31/2026	N
Advertised:11/07/2025 Optional Pre-Response Meeting:11/14/2025 Bid Due Date: 11/20/2025 Four (4) Responses received Reverse Auction:11/21/2025 Three (3) Suppliers participated CDW-Government, LLC-\$1,415,131.60 Moving on IT-\$1,512,000.00 Tech Advance Computers, Inc- Withdrew bid For Additional Information Contact: Angel Love This request is for the purchase of Dell and Logitech equipment including Dell computers (laptops, desktops, monitors, tablets), docks, Dell Auto/Air USB C adapters, keyboard and mouse combinations, webcams, and Garmin GPS receiver modules. All of these products are JEA Technology standards. On November 21, 2025, the Technology Services Procurement Team conducted a reverse auction with three participating suppliers. During the live auction, 29 lead changing low bid offer entries were submitted, with Tech Advanced Computers, Inc. initially providing the lowest bid. However, after the auction concluded, Tech Advanced Computers, Inc. was unable to secure their expected pricing from Dell, Inc. and subsequently withdrew its bid. As a result, JEA awarded the contract to the next lowest bidder, CDW Government, LLC. The price difference between CDW and Tech Advanced Computers was \$2,131.60, and overall, JEA achieved savings of \$125,130.15 through using the reverse auction process, based on the original quote initially submitted during business unit budget planning of \$1,540,261.75 and previous pricing information. CDW is offering an 18-61% discount off list price on Dell equipment and support items on the response workbook.												

Award #1 - Supporting Documents 12/18/25

5	Collaborative Procurement Sourcewell Contract 101221-VAC	Contract 101221-VAC: Five Ton Jet Vacuum Loader 16 CYD Trucks	Phillips	Vac-Con Inc	Capital	\$1,310,765.90	\$1,310,765.90	N/A	\$1,310,765.90	N/A	One-Time Purchase in FY26 Start Date:12/15/2025 End Date: 09/30/2026	N
	Collaborative Procurement Agency: Sourcewell, a State of Minnesota local government unit and service cooperative Contract #101221-VAC with VAC-CON INC Contract Term: Start Date 11/24/2021, through 11/29/2026 For additional information contact: Eugene Brown This award request is for the purchase of two (2) Five-Ton Jet Vacuum Loader 16 CYD Trucks from Vac-Con Inc. for a total of \$1,310,765.90. These units are critical replacements for the JEA Fleet. One existing unit suffered a tank implosion, and a second failed inspection with a high risk of similar failure. To ensure delivery within the FY26 budget and mitigate operational delays, JEA is utilizing the Sourcewell collaborative procurement contract in accordance with Section 3-115 of the Procurement Code. While the unit price of \$655,382.95 represents a 16.7% increase over the last purchase price in FY23 (\$560,398), this remains below the 22% market inflation observed from December 2022 to present. The cost increase is driven by chassis surcharges, custom fabrication labor, and an 8.7% annual market growth in vacuum trucks. To offset these factors, JEA negotiated a \$77,762.61 dealer discount per unit, combined with Sourcewell member savings of \$41,184.20 per unit, resulting in a total cost avoidance of \$237,893.62 for the pair.											
6	Contract Increase	1411799247 CCNA General Engineering Services for Electric Distribution	Erixton	Pickett & Associates, Inc Chen Moore and Associates Inc	Capital	\$588,455.00	\$588,455.00 No Change	\$450,000.00 \$300,000.00	\$1,038,455.00 No Change	N/A	Three (3) Years w/Two (2) - 1 Yr. Renewals Start: 04/01/2025 End: 03/31/2028	Y Pickett: Meskel and Associates Engineering, PLLC - 5% Darden Surveying and Mapping - 5%
	For additional information contact: Jason Belr This award request is for an increase in engineering services for the Darbin Distribution Feeders Project. JEA plans to expand its distribution network to support the rapidly growing industrial, commercial, and residential electrical load in the area. The project includes installing approximately 11.43 miles of 3-1000 AL with 4/0 Cu neutral underground cable (27 miles of conduit), along with six switch cabinets and manholes as needed. It also includes constructing five miles of overhead 3-636 AL with 4/0 AL neutral conductor. Pickett will provide surveying and engineering services to support this expansion JEA sought an engineering firm to provide professional consulting and engineering services in support of JEA's electric distribution projects including, but not limited to, cost and scheduling, construction support, planning and customer support activities. Engineer is expected to offer creative and cost-effective ideas and solutions which may involve new technology and a choice of approaches to problems. Engineer's work may include all aspects of engineering design from the generating station to customer devices.

	Advertised: 07/05/2025 Mandatory Pre-Bid: 07/14/2025 (four primes attended) Opened: 10/07/2025 (7 due date extensions) One (1) bid received: Eau Gallie Electric \$3,390,000.00 For additional information contact: David King											
	This request for award is for a new contract to Eau Gallie Electric for the Mandarin WRF Switchgear Control Upgrade Project. The scope involves replacing obsolete 1990s-era switchgear components to ensure plant reliability and serve as a critical prerequisite for an active generator project. The bid amount (\$3,390,000.00) exceeds the May 2023 estimate (\$1,600,500.00) due to significant material inflation (copper prices +45-60%, equipment +30%) and the high-risk premium required for working in a "live" facility. The contractor must account for complex outage sequencing and design liability that was not fully captured in the original estimate.											
	The solicitation process was exhaustive, involving seven bid due date extensions and eight addenda to address technical inquiries. However, the complexity of integrating new UL-certified controls with existing infrastructure caused three potential bidders to withdraw, citing the difficulty of the work. Eau Gallie Electric was the sole bidder to remain engaged. We recommend awarding to this single bidder as the market has been fully tested, and further delays would negatively impact the critical path of the dependent generator project.											
DISCUSSION/ACTION: Given that there was only one bidder, Ted requested more information on the record for why the award was so much higher than the estimate amount. There were two main items causing the discrepancy to the bid amount vs. estimate. The first was the programming and recertification of the equipment in place. The there is risk included in this certification and the bid amount reflected that risk, where the estimate did not. The 2nd was the switchgear cubicle notifications. While it was included in the design, it was not included in the design estimate. So, when that line came in on the final bid, it added an approximate \$900,000.00 to the bid amount. DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Katie Templeton

NOTES:

¹The Wellfield Pricing Menu sets forth the agreed-upon estimates for subcontractor services supporting well investigation, modification, and rehabilitation, along with time-and-material budgetary estimates for related engineering services. All subcontractor services are subject to a 5% Jacobs markup. Project fees for well rehabilitation will be determined using these established Pricing Menu estimates. All cost estimates provided in this Pricing Menu were prepared in good faith, based on prior wellfield rehabilitation pricing between JEA and Jacobs and the best information available at the time of preparation. Actual project costs may vary up or down, and adjustments will be made as work progresses. Jacobs will work collaboratively with JEA throughout the change management process.

²The Wellfield Pricing Menu will be reviewed on an annual basis to reflect market fluctuations and necessary adjustments. Acid pricing may be updated more frequently in response to changes in vendor rates.

³Includes coordination efforts to define the scope of work for developing and implementing the MOT. This does not cover preparation of MOT plans or permitting with the City of Jacksonville. Once the MOT scope has been established, Jacobs will provide a cost estimate for preparing the MOT plans, securing the necessary permits from the City of Jacksonville, and executing the plan.

⁴Includes development of the plans, permitting, and execution of work.

⁵Includes formation resistivity, natural gamma, caliper, static and dynamic fluid temperature, conductivity, flow, and complete video survey.

⁶Includes shop fabrication time and 3 days of fishing or removal of pump parts form well

⁷Includes all necessary equipment, labor, and materials to gather, load, transport to a local JEA site, set up operations, run the tremie to the bottom of the well, supply pumping equipment, perform site cleanup, and fully demobilize all equipment.

⁸Includes labor and cement required to pump the cement mix until the designated backplug depth is achieved.

⁹Includes one day of static geophysical logging. If logging extends beyond this period, additional fees will apply.

¹⁰Includes bailing the open hole immediately after airburst completion and before well development.

PRINT NAME OF AUTHORIZED REPRESENTATIVE: Charles Vandenburg Jr.

SIGNATURE OF AUTHORIZED REPRESENTATIVE: *Charles Vandenburg Jr.*

NAME AND TITLE OF AUTHORIZED REPRESENTATIVE: Charles Vandenburg Jr. / Division Manager

MINIMUM QUALIFICATIONS:

Respondent must meet the following Minimum Qualifications to be considered eligible to have its Response evaluated by JEA. Respondent must complete and submit the Minimum Qualification Form provided in this Solicitation. Respondents that are working or have worked for JEA in the past 2 years involving similar work must submit JEA as a reference. JEA reserves the right to ask for additional back up documentation or additional reference projects to confirm the Respondent meets the requirements stated above.

JEA may reject Responses from Respondents not meeting all of the following Minimum Qualifications:

- I. Respondent must not be on the State of Florida Convicted Vendor List, State of Florida's Suspended Vendor List, the City of Jacksonville's Disqualified Vendor List, have their bidding privileges actively suspended by JEA, been debarred by JEA, or have had a contract with JEA was terminated for default within the last two (2) years.
- II. Respondent must be approved for RBL Category EG8 Underground Transmission Construction over 69kV - HPFF Pipe-Type Cable by the bid due date.
- III. The Respondent shall comply with the technical and commercial specifications for this solicitation.

VENDOR CONFLICT OF INTEREST DISCLOSURE FORM INSTRUCTIONS

Vendors shall not try to gain an unfair competitive advantage or influence the ability of JEA officers and employees to make impartial and objective decisions on behalf of JEA.

All vendors interested in conducting business with JEA must complete and return the Vendor Conflict of Interest Disclosure Form found on the following page in order to be eligible to be awarded a contract with JEA. Please note that all vendors are subject to comply with JEA's conflict of interest policies provided below.

1. No JEA officer (e.g., JEA Board member and elected City official) or employee has an ownership interest of more than 5% in vendor's company.
2. No JEA officer or employee is an officer, director, partner or proprietor of vendor's company.
3. No JEA officer or employee is employed by or being considered for employment by vendor's company.
4. No JEA officer or employee work as a consultant or has a contractual relationship with vendor's company.
5. No JEA officer or employee will derive a personal financial gain or loss from this contract.
6. No relative of a JEA officer of employee will derive a personal financial gain or loss from this contract. (Relatives include a father, mother, son, daughter, husband, wife, brother, sister, father-in-law, mother-in-law, son-in-law, or daughter-in-law.)

If a vendor has one or more relationships with a JEA officer or employee or a relative of a JEA officer or employee that meets the criteria described above, then the vendor shall disclose the information by completing the Conflict of Interest Form on the following page.

CONFLICT OF INTEREST DISCLOSURE FORM

*Disclosing a potential conflict of interest does not disqualify vendors. In the event vendors do not disclose potential conflicts of interest, and they are detected by JEA, vendor may be **disqualified** from doing business with JEA.*

SUBCONTRACTOR BID FORM

List of Subcontractors

JEA Solicitation Number 1312071046

Tier 1 Prime Contractor Business Name: Ferreira UTEC LLC

The referenced solicitation requires certain major Subcontractors be listed on this form, unless the work will be self-performed by the Tier 1 Prime Contractor.

The undersigned understands that failure to submit the required Subcontractor information on this form may result in bid rejection, and the Tier 1 Prime Contractor agrees to employ the Subcontractors specified below: *(Add additional lines if necessary)*

Note: This list of Subcontractors shall not be modified subsequent to bid opening, without a showing of good cause and the written consent of JEA.

JSEB Subcontractors - Jacksonville Small & Emerging Business Program (JSEB)

A certified JSEB business who contracts with the Tier 1 Prime Contractor to provide goods and/or services. All fields are required to be completed on this section of the form.

The JSEB Subcontractors section of the form is required for any projects with a JSEB participation requirement.

JSEB Business Name	JSEB Primary Contact Name	JSEB Telephone Number	JSEB Email Address	JSEB Certification? Yes or No (select from the drop down menu)	Scope of Work	% of work	Dollar Amount
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00

Tier 2 Subcontractors

A Subcontractor who contracts with the Tier 1 Prime Contractor to provide goods and/or services. Please list all major Subcontractors, regardless of diversity status, that will be providing goods and/or services. Submission of Subcontractor Ethnicity or Diverse Classification is optional.

The Tier 2 Subcontractors section of the form is required.

Subcontractor Business Name	Subcontractor Primary Contact Name	Subcontractor Telephone Number	Subcontractor Email Address	Subcontractor Ethnicity or Diverse Classification (select from the drop down menu, if applicable)	Scope of Work	% of work	Dollar Amount
Brand Safway	Scott Haley	904-683-0545		N/A	Scaffolding	3	\$57,875.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00

Tier 3 Subcontractors - Utilization of Diverse Businesses Only

A diverse Subcontractor who contracts with a Tier 2 Subcontractor to provide goods and/or services.

The Tier 3 Subcontractors section of the form is optional.

Diverse Subcontractor Business Name	Diverse Subcontractor Primary Contact Name	Diverse Subcontractor Telephone Number	Diverse Subcontractor Email Address	Diverse Subcontractor Ethnicity or Classification (select from the drop down menu, if applicable)	Scope of Work	% of work	Dollar Amount
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00

BID BOND

STATE OF FLORIDA

COUNTY OF: Nassau

KNOW ALL PERSONS BY THESE PRESENTS, That we, Ferreira UTEC, LLC
12800 US Highway 1, Suite 280, Juno Beach, FL 33408 (hereinafter called
"Principal"), and * as Surety (hereinafter called "Surety"), are held and firmly bound unto the
JEA of the City of Jacksonville, Florida (hereinafter called the "JEA"), in the sum of \$ **, lawful money of the United States
of America, for the payment which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and
successors, jointly and severally, firmly by these presents:

*Berkshire Hathaway Specialty Insurance Company, 1314 Douglas Street, Suite 1300, Omaha, NE 68102

WHEREAS, the Principal contemplates submitting or has submitted a Bid to the JEA for:

1412071046 (IFB) Georgia St. Substation Pipe-Type Cable Pothead Replacement at Jacksonville, Florida

**Five Percent Of The Total Amount Bid (5%)

WHEREAS, it was a condition precedent to the submission of said Bid that a certified check or Bid Bond in the
amount of ** be submitted with said Bid as a guaranty that the Principal would, if awarded the contract, enter into
a written contract with the JEA and furnish a Section 255.05 Florida Statutes Contract Bond in an amount equal to 100% Of The Bid Amount
for the performance of said contract, within ten consecutive calendar days after written notice being given of acceptance by the
JEA.

NOW, THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the Bid of the Principal
herein be accepted and said Principal, within ten consecutive calendar days after written notice being given of such acceptance,
enters into a written contract with the JEA, and furnishes a Section 255.05, Florida Statutes Contract Bond in an amount equal to
100% Of The Bid Amount satisfactory to the JEA, then this obligation shall be void; otherwise, the sum herein stated shall be
due and payable to the JEA, and the Surety herein agrees to pay said sum immediately upon demand of said JEA, in good and
lawful money of the United States of America; as liquidated damages for failure thereof of said Principal.

IN WITNESS WHEREOF, the said Principal and the said Surety have duly executed this bond the 9th day
of December, 2025.

Power Of Attorney

BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY

NATIONAL INDEMNITY COMPANY / NATIONAL LIABILITY & FIRE INSURANCE COMPANY

Know all men by these presents, that **BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY**, a corporation existing under and by virtue of the laws of the State of Nebraska and having an office at One Lincoln Street, 23rd Floor, Boston, Massachusetts 02111, **NATIONAL INDEMNITY COMPANY**, a corporation existing under and by virtue of the laws of the State of Nebraska and having an office at 3024 Harney Street, Omaha, Nebraska 68131 and **NATIONAL LIABILITY & FIRE INSURANCE COMPANY**, a corporation existing under and by virtue of the laws of the State of Connecticut and having an office at 100 First Stamford Place, Stamford, Connecticut 06902 (hereinafter collectively the "Companies"), pursuant to and by the authority granted as set forth herein, do hereby name, constitute and appoint: Ryan Gray, Kevin T. Walsh, Jr., Thomas MacDonald, Krystal L. Stravato, Andreah Moran, Dipal Savaliya, Jaclyn Maffey, 100 South Jefferson Road, Suite 101, of the city of Whippany, State of New Jersey, their true and lawful attorney(s)-in-fact to make, execute, seal, acknowledge, and deliver, for and on their behalf as surety and as their act and deed, any and all undertakings, bonds, or other such writings obligatory in the nature thereof, in pursuance of these presents, the execution of which shall be as binding upon the Companies as if it has been duly signed and executed by their regularly elected officers in their own proper persons. This authority for the Attorney-in-Fact shall be limited to the execution of the attached bond(s) or other such writings obligatory in the nature thereof.

In witness whereof, this Power of Attorney has been subscribed by an authorized officer of the Companies, and the corporate seals of the Companies have been affixed hereto this date of August 24, 2023. This Power of Attorney is made and executed pursuant to and by authority of the Bylaws, Resolutions of the Board of Directors, and other Authorizations of **BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY**, **NATIONAL INDEMNITY COMPANY** and **NATIONAL LIABILITY & FIRE INSURANCE COMPANY**, which are in full force and effect, each reading as appears on the back page of this Power of Attorney, respectively. The following seals of the Companies and signatures by an authorized officer of the Company may be affixed by facsimile or digital format, which shall be deemed the equivalent of and constitute the written signature of such officer of the Companies and original seals of the Companies for all purposes regarding this Power of Attorney, including satisfaction of any signature and seal requirements on any and all undertakings, bonds, or other such writings obligatory in the nature thereof, to which this Power of Attorney applies.

BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY (BYLAWS)

ARTICLE V.

CORPORATE ACTIONS

....

EXECUTION OF DOCUMENTS:

....

Section 6.(b) The President, any Vice President or the Secretary, shall have the power and authority:

- (1) To appoint Attorneys-in-fact, and to authorize them to execute on behalf of the Company bonds and other undertakings, and
- (2) To remove at any time any such Attorney-in-fact and revoke the authority given him.

NATIONAL INDEMNITY COMPANY (BY-LAWS)

Section 4. Officers, Agents, and Employees:

A. The officers shall be a President, one or more Vice Presidents, a Secretary, one or more Assistant Secretaries, a Treasurer, and one or more Assistant Treasurers none of whom shall be required to be shareholders or Directors and each of whom shall be elected annually by the Board of Directors at each annual meeting to serve a term of office of one year or until a successor has been elected and qualified, may serve successive terms of office, may be removed from office at any time for or without cause by a vote of a majority of the Board of Directors, and shall have such powers and rights and be charged with such duties and obligations as usually are vested in and pertain to such office or as may be directed from time to time by the Board of Directors; and the Board of Directors or the officers may from time to time appoint, discharge, engage, or remove such agents and employees as may be appropriate, convenient, or necessary to the affairs and business of the corporation.

NATIONAL INDEMNITY COMPANY (BOARD RESOLUTION ADOPTED AUGUST 6, 2014)

RESOLVED, That the President, any Vice President or the Secretary, shall have the power and authority to (1) appoint Attorneys-in-fact, and to authorize them to execute on behalf of this Company bonds and other undertakings and (2) remove at any time any such Attorney-in-fact and revoke the authority given.

NATIONAL LIABILITY & FIRE INSURANCE COMPANY (BY-LAWS)

ARTICLE IV

Officers

Section 1. Officers, Agents and Employees:

A. The officers shall be a president, one or more vice presidents, one or more assistant vice presidents, a secretary, one or more assistant secretaries, a treasurer, and one or more assistant treasurers, none of whom shall be required to be shareholders or directors, and each of whom shall be elected annually by the board of directors at each annual meeting to serve a term of office of one year or until a successor has been elected and qualified, may serve successive terms of office, may be removed from office at any time for or without cause by a vote of a majority of the board of directors. The president and secretary shall be different individuals. Election or appointment of an officer or agent shall not create contract rights. The officers of the Corporation shall have such powers and rights and be charged with such duties and obligations as usually are vested in and pertain to such office or as may be directed from time to time by the board of directors; and the board of directors or the officers may from time to time appoint, discharge, engage, or remove such agents and employees as may be appropriate, convenient, or necessary to the affairs and business of the Corporation.

NATIONAL LIABILITY & FIRE INSURANCE COMPANY (BOARD RESOLUTION ADOPTED AUGUST 6, 2014)

RESOLVED, That the President, any Vice President or the Secretary, shall have the power and authority to (1) appoint Attorneys-in-fact, and to authorize them to execute on behalf of this Company bonds and other undertakings and (2) remove at any time any such Attorney-in-fact and revoke the authority given.

Welcome to the

Awards Meeting

January 9, 2025, 10:00 AM EST

You have been joined to the meeting with your **audio muted** by default.

At the designated public comment time we will provide opportunity for you to unmute to speak.

During the meeting, public comments received via e-mail regarding any matter on the agenda for consideration will be read out. Per the Public Notice Agenda posted on JEA.com, public comments by e-mail must be received no later than 9:00 a.m. on the day of the meeting to be read during the public comment portion of the meeting.

Please contact **Camie Evers** by telephone at **(904) 832-3385** or by email at **everca@jea.com** if you experience any technical difficulties during the meeting.

JEA Awards Agenda January 09, 2025 225 North Pearl St., Jacksonville, FL 32202 - Hydrangea Room 1st Floor Teams Meeting Info												
Consent Agenda												
The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for Formal Purchases as defined by Section 3-101 of the JEA Procurement Code . Please refer to JEA's Procurement Code, if you wish to protest any of these items.

2	Invitation for Bids (IFB)	1411866848 Construction Services for SR 21 (Blanding Blvd) from Wilson Blvd to Wheeler Ave Watermain Replacement	Melendez	Jax Utilities Management, Inc.	Capital	\$2,735,958.00	\$3,374,733.00	N/A	\$3,374,733.00	N/A	Project Completion Start Date: 02/03/2025 End Date: 09/16/2025	Y - 5% Spencer Construction & Engineering, Inc. - \$147,000.00
Advertised: 10/24/2024 Opened: 12/3/2024 Five (5) Bids Received: Jax Utilities Management, Inc. - \$3,374,733.00 Callaway Contracting, Inc. - \$3,929,351.83 Ferreira Construction Southern Division, Inc. - \$3,972,984.94 T G Utility Company Inc - \$3,990,907.00 United Brothers Development Corp - \$4,183,057.80 For more information contact: Ella Bedwell FDOT has a project to mill and overlay SR 21 (Blanding Blvd.) from Wilson Blvd. to Roosevelt (EPID 447127-1-52-01) in Duval County, for approximately 9,500 LF. Ahead of FDOT's project JEA W/WW O&M has approximately 2,000 LF of 2" galvanized water mains in the area that it wants to replace as well as removal of 3,890 LF of 4" and 6" asbestos cement water mains and replace with PVC within the FDOT right-of-way. This will be done as a standalone JEA GRID project. This project includes removal and construction of water mains, including removal and disposal of 6" AC water main, placing out of service 2" galvanized water mains, construction of 2", 6" and 8" water main, valves, fire hydrants, replacement of water services, sitework, concrete work, asphalt work and other incidental items. This award will enable JEA to complete critical water infrastructure improvements and enhance the roadway conditions in the SR 21 corridor, supporting both local traffic flow and long-term infrastructure needs for the area. This work was competitively bid, with JEA deeming Jax Utilities Management, Inc. being the lowest bid and most qualified to perform the work. Upon review, the project team deemed the bid reasonable and in line with current market conditions. The lowest bid submitted was considered to provide significant savings while maintaining the quality and scope required for the project.												
3	Invitation for Bids (IFB)	1411808846 Pearl Street Offsite Remedial Action and Parking Lot	Brooks	Entact, LLC	Capital & O&M	\$3,480,200.00	\$5,254,246.29	N/A	\$5,254,246.29	N/A	Project Completion Start Date: 01/27/2025 End Date: 08/08/2025	Y Alpha Envirotech Consulting, Inc. - \$13,600.00 Bullard Fence, Inc. - \$48,448.23 CSI Geo, Inc. - \$37,312.86 Garmon Trucking, Inc. - \$125,037.90 Landscape Construction, LLC - \$134,195.59 Smith Surveying Group - \$144,955.27
Deferred												
4	Invitation for Bid (IFB)	1411808047 IFB Truck 5T EXT Cab Road Tractors	Phillips	Cumberland International Trucks	Capital	\$345,000.00	\$318,634.00	N/A	\$318,634.00	N/A	One-Time Purchase in FY25, One-Time Purchase in FY26 Start Date: 01/20/2025 End Date: 10/02/2025	N
Advertised: 11/08/2024 Responses Opened: 12/17/2024 Two (2) Bids Received: Cumberland International Trucks - \$318,634.00 Tom Nehl Truck Company - \$357,466.00 For additional information contact: Halley Stewart The scope for this solicitation is to select a supplier to provide pricing for the purchase of two (2) Truck 5T EXT Cab Road Tractors for JEA Electric business unit replacement and expansion. JEA expects to take delivery of the first tractor prior to October 1, 2025, and the second tractor should not be delivered until after October 1, 2025. Five (5) suppliers were invited to participate in the solicitation. The initial bid due date resulted in only one response, prompting an extension of one week to encourage greater participation. Two (2) responses were received, along with one (1) no-bid submission. We anticipated low participation due to the request for a specific build that is not widely available, resulting in a limited pool of suppliers. A comparison of the lowest bidder's pricing with Sourcewell contract pricing for the same tractors demonstrates that the response pricing is more competitive. This request is for the award of a contract to the lowest bidder, Cumberland International Trucks, in the amount of \$318,634.00. This amount is 7.6% less than the budget estimate and has been deemed reasonable.												

Award #6 - Supporting Documents 12/18/25

5	Piggyback/State Contract	Citrix Replacement Hardware, Licensing Upgrade and Associated 5 Year O&M Agreement	Datz	Netsync Network Solutions, Inc.	O&M and Capital	\$1,490,000.00	\$1,665,000.00	N/A	\$1,665,000.00	N/A	Five (5) Years w/No Renewals Begin Date: 01/19/2025 End Date: 01/18/2030	N
	For Additional Information Contact: Angel Iosua JEA technology standards utilize Citrix products and software that provide secure remote access for users, desktop virtualization, server virtualization, traffic encryption, legacy software lifespan expansion and centralized application deployment to facilitate an anywhere, any device experience. This piggyback request is for the replacement hardware, licensing upgrade, and an associated five (5) year operation and maintenance Agreement. Commitment to a five-year maintenance agreement allows JEA to fix the annual cost for five years at \$325,000.00. This request includes transitioning the SOCC hardware to Cloud-Based hardware, necessitating a comprehensive shift in licensing to support the upgrade. Due to the necessity of a multi-cloud environment to support JEA's operational needs, the price increased by 8% or a \$26,000.00 annual cost increase compared to the previous license purchase. Citrix hardware has reached its end of life, making replacement essential for maintaining operational efficiency. The proposal outlines the allocation of funds as follows: in year 1, an additional \$40,000.00 one-time capital cost will cover associated replacement and licensing of Netscaler hardware, ensuring a smooth and uninterrupted transition. For years 2-5, the focus will be on ongoing Operation and Maintenance (O&M) to guarantee that the new hardware and software continue to function optimally, addressing any issues that arise and implementing necessary updates. This comprehensive plan aims to enhance performance, provide better scalability, and improve security, aligning with our long-term IT strategy. This award piggybacks off the Texas Department of Information Resources contract (DIR-CPO-4866), with a contract term from November 16, 2022, to November 16, 2027. It also includes a Survival Clause that allows the term of the Purchase Order to extend beyond the contract's expiration or termination for up to three years. DIR issued a solicitation on the Comptroller of Public Accounts' Electronic State Business Daily, Request for Offer (RFO) DIR-CPO-TMP-550, on 12/20/2020, for Cybersecurity Products and Services (the "RFO"). Additional contract information linked here https://dir.texas.gov/contracts/dir-cpo-4866											
6	Renewal/Piggyback-State Contract	Cellular Wireless Services	Datz	Celco Partnership - d/b/a Verizon Wireless, MCI Communications Services LLC	O&M and Capital	\$5,029,490.73	\$5,029,490.73	\$5,921,963.44	\$11,208,454.17	01/03/2025 - \$257,000.00	Three (3) Years w/Two-1 Yr. Renewals Begin Date: 01/20/2022 End Date: 01/19/2027 No Renewals Remaining	N
	For Additional Information Contact: Angel Iosua This is a two (2) year renewal piggyback request with Celco Partnership - d/b/a Verizon Wireless, MCI Communications Services LLC for Cellular Wireless services in the amount of \$5,029,490.73. JEA utilizes various wireless devices, including air cards (mi-fi) and cellular phones, primarily for field personnel. Additionally, there are cellular devices used for MV90 meters, power quality meters, and remote network connections, all of which operate on Verizon monthly access plans. These devices are currently on the Verizon Wireless network, the highest-ranked wireless vendor in the State of Florida, renowned for its proven performance in our service territory during storms and emergencies. Verizon Wireless provides customer service support, network ownership, and maintenance through company-employed personnel, ensuring ongoing reliability and accountability to JEA. The service level agreements in the contract guarantee a high level of service. The pricing breakdown details are included in the backup documents. The requested funding covers an average monthly cost of \$186,729.33 for FY25 current services which is approximately a 3.7% or \$68,661.51 increase from FY24. An anticipated increase of 5-9% each of the following fiscal years is due to new planned services. Additionally, the amount includes a 10% contingency to cover potential additional monthly access plan usage. There is also an estimated annual capital expenditure of \$45,000.00 included for new wireless devices. While Verizon's pricing on certain items has decreased, the overall Verizon Monthly Spend has risen due to an increase in the number of devices since the original award in 2022. The current rates will remain fixed and in accordance with the terms of the contract for its duration. This award piggybacks off the State of Florida contract DMS-19/20-006C Contract Term: 8/24/2021-8/24/2026. This State of Florida contract includes a Purchase Order and Communication Service Authorization that allows for a Purchase Order to survive the termination of the contract of no more than 36 months.

Regular Agenda

Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Award Amount	Business Unit Estimate	Original Award Amount	New Not-to-Exceed	Amendments	Term	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)	Action
1	Request for Proposals (RFP)	1411794846 RiverTown - New Storage Tank and Pumping System	Melendez	CDM Smith, Inc.	\$1,901,440.00	\$1,424,205.00	N/A	\$1,901,440.00	N/A	Project Completion Start Date: 02/04/2025 End Date: 06/30/2028	Y Four Waters Engineering - Civil Eng (\$193,977.00, 10.5%) Meskel & Associates Engineering, PLLC - Geotech (\$74,445.00, 4%) A & J Land Surveyors, Inc. - Survey (\$7,875.00, 0.43%) ERS Corp - Environmental (\$7,875.00, 0.43%)	Motion by: Judy Brooks Second by: Kim Wheeler Committee Decision: Approved
Advertised: 07/11/2024 Opened: 09/10/2024 Eight (8) Responses Received CDM Smith Mott MacDonald Carollo Engineers McKim & Creed Mittauer & Associates Freese and Nichols Dewberry H2M Architects - Engineers Public Evaluation Meeting: 10/21/2024 For additional information contact: Marlene McDonald The scope of work for this contract includes the design and services during construction (SDC) of two, 1.5 million gallon (Mgal) prestressed concrete tanks, in addition to a pump building that includes a pumping capacity of 6,250 gallons per minute (GPM) with allowance to add future pumps to provide another 6,250 GPM for peak delivery capacity totaling 12,500 GPM. This project will utilize a JEA owned 2.64-acre reuse site located along Rivertown Main Street. This project is needed to meet the confirmed increase of demand for reclaimed water within St. Johns County. The hourly rates used in this contract are consistent with previous contracts. The fee is approximately 25% higher than originally estimated due to an increased number of hours requested during negotiations for SDC. The fee was compared to previous projects and deemed reasonable. DISCUSSION/ACTION: More information was requested regarding evaluation criteria and how awardee was chosen. Bidders were evaluated, by three evaluators, on design approach, work plan, and company experience. Based on their comprehensive and in-depth response, CD Smith scored first with 261 points. The next two firms scored 255 points and 245 points. DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Marc Caina												
2	Invitation to Negotiate (ITN)	1411815446 ITN Miscellaneous Wire and Cable JEA Stock FY25 - FY28	Phillips	American Wire Group Gresco Supply, Inc. Southwire Company, LLC Stuart C. Irby Company, LLC Wesco Distribution, Inc.	\$44,107.20 \$9,971,250.08 \$29,662,429.35 \$467,957.20 \$755,158.07	\$50,912,461.47	\$40,900,901.90	\$40,900,901.90	N/A	Three (3) years w/Two (2) 1-Yr. Renewals Start Date: 01/23/2025 End Date: 01/22/2028	N/A	Motion by: Judy Brooks Second by: Kim Wheeler Committee Decision: Approved
Advertised: 07/29/2024 Opened: 09/10/2024 Six (6) Bids Received American Wire Group - \$45,096,227.16 Gresco Supply, Inc. - \$40,982,096.80, Southwire Company, LLC - \$40,590,604.39 Stuart C. Irby Company, LLC - \$18,685,957.61 Tri-State Utility Products, Inc. - \$45,235,419.16 Wesco Distribution, Inc. - \$15,911,694.07 For additional information contact: Lynn Rix The purpose of this Invitation to Negotiate (ITN) was to evaluate and select a primary and secondary vendor(s) that can provide Wire and Cable for JEA inventory Stock throughout FY25 - FY28 and to determine the best method for JEA to procure the Work with regards to pricing, lead-time, and value-added programs to JEA. Additionally, JEA used this solicitation as a means to explore the business case for transitioning from XLPE cable to EPR cable due to benefits in the field. Historically, the cost has been prohibitive and favorable XLPE contracts created a large disparity. Fourteen (14) of the highest usage items were identified as our core purchases including four (4) key underground items. These were split into a List A to compare proposals between XLPE and EPR. Evaluations were based on pricing, lead-time and value-added programs to JEA and were sorted into three (3) different product grouping scenarios: all XLPE, all EPR, and a hybrid approach of some XLPE and some EPR. It was determined to be in JEA's best interest to award the hybrid grouping scenario which allows for the purchase of EPR for the harder-to-manage large-sized cable where flexibility is paramount for installation. Alternatively, JEA is proposing the 1/0 cable remain XLPE due to its notable cost advantage and smaller diameter that is more malleable. This approach capitalizes on the benefits of EPR where it derives the best value. As noted above, JEA utilized this solicitation as a vehicle to leverage JEA's volumes and explore the best possible proposals from suppliers to meet JEA's needs. JEA allocated the primary supply contract to the highest evaluated supplier for the four (4) key underground items and elected to choose the lowest overall cost supplier as the primary awardee for the remaining items. This splitting of the grouping instead of splitting of individual items allows JEA and the suppliers greater operational efficiencies. However, both suppliers will be contracted for all fourteen (14) items. Adding a secondary supply source for core items allows JEA to mitigate future supply disruptions which were significant over the past four (4) years, primarily linked to raw materials and labor. Through the negotiation process, JEA was able to show where price and lead times needed to be further reduced to improve Suppliers' evaluations. This resulted in original proposal lead-times being shortened by approximately 18 weeks to an average of 6.8 weeks in the Best and Final Offer (BAFO). Lead times may be further reduced to 3 to 4 weeks if JEA is able to fully implement the stocking program (SWIM) offered by the Primary awardee. This carries significant value to JEA in carrying costs which JEA will begin realizing upon implementation. Negotiations, supplier base expansion efforts, as well as market stability, were the primary drivers of the notably reduced costs and lead-times obtained in these proposals. JEA realized a 13% savings in the BAFO process from the original bid submittals and an overall savings of 21% or \$10M compared to the business estimate (last price paid) -see the attached savings analysis. This savings is spread over the three-year term of the agreement. The primary contract for eleven (11) of the fourteen (14) highest usage items will be awarded to Southwire Company, LLC in the amount of \$23,756,537.72 with a secondary contract to Gresco Supply, Inc. for three (3) items in the amount of \$2,639,615.30. This is a 90/10 split of the List A items and some of List B items. For the remaining List B items, contracts will be issued to Gresco Supply, Inc. for \$7,331,634.78; Stuart C. Irby Company, LLC for \$467,957.20; Southwire Company, LLC for \$5,905,891.63, Wesco Distribution, Inc. for \$755,158.07, and American Wire Group for \$44,107.20. DISCUSSION/ACTION: Clarification was requested as to which supplier is providing what material. This information is broken down in the supporting documents. Going forward a summary of this information will be included on the agenda. DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Lynn Rix, Kenny Pearson

JEA Awards Agenda December 19, 2024 225 North Pearl St., Jacksonville, FL 32202 - Hydrangea Room 1st Floor Teams Meeting Info												
Consent Agenda												
The Chief Procurement Officer offers the following items for the JEA Awards Consent Agenda. Any item may be moved from the Consent Agenda to the Regular Agenda by a committee member asking that the item be considered separately. All items on the Consent agenda have been approved by OGC, Budget and the Business Unit Vice President and Chief. The posting of this agenda serves as an official notice of JEA's intended decision for all recommended actions for Formal Purchases as defined by Section 3-101 of the JEA Procurement Code . Please refer to JEA's Procurement Code, if you wish to protest any of these items.

Renewals Start Date: 11/01/2021 End Date: 10/31/2025 One (1) Renewal Remaining	N
Originally Awarded: 11/01/2021 For Additional Information Contact: Angel Iossa This request is for JEA Cisco Contract Center Managed Services. As part of the existing SC-0374b ProSys Contract Center Remote PS_MS Support Project, ProSys will continue to provide dedicated professional services resources for custom Professional Services Support for JEA's Cisco PCCE Contract Center environment. ProSys will provide professional services to perform these Services in JEA's PROD & QA environments. These services will consist of the same activities specific to the original SOW with the revisions/additions of the following to reflect version changes and upgrades/enhancements done since the original SOW was put into place in 2021. Although revisions/additions were implemented, the price will remain the same as the previous year. Prosys also granted a 60 day grace period while we resolved issues with the renewal so there is no ratification. Scope Changes include the following: • PS Support will pertain to the Cisco PCCE recently upgraded to version 12.6.2 in previous project completed in September 2024 • Updated list of servers included below replaces previous list in Section 2.0 Environment Baseline of SOW • In section 2.0 of the original SOW, PS Support no longer applies to the VXML components of the solution and is replaced with VBB component												
3	Contract Increase	021-21 Water, Sewer, and Reclaimed Water Cost of Service and Rate Design Consulting Services	Orfano	Stantec Consulting Services Inc.	O&M	\$136,150.00	\$136,150.00	\$271,625.00	\$874,585.73	04/06/2023 - \$310,375.00 6/13/2024 - \$140,848.00 9/23/2024 - \$15,587.73	Five (5) Years w/ One (1) – 1 Yr. Renewal Start Date: 04/07/2021 End Date: 04/06/2026	N
Originally Awarded: 04/07/2021 For additional information contact: Elaine Selders The Stantec contract was originally awarded on 04/07/2021 in the amount of \$271,625.00 for Cost of Service and Rate Design services. On 04/06/2023, JEA contracted with Stantec to complete a water and sewer system feasibility analysis and receive acquisition support services for the cities of Atlantic Beach (\$168,290.00) and Neptune Beach (\$142,125.00) for a total estimated amount of \$310,375.00. On 06/13/2024, a second contract increase was approved in the amount of \$140,848.00 for additional funding for the two Atlantic and Neptune Beach feasibility studies for a not-to-exceed amount of \$722,848.00. An additional administrative increase of \$15,587.73 was completed on 09/23/2024 to pay final Cost of Service and Rate Design services FY24 invoices for a current not-to-exceed amount of \$738,435.73. This request is to award a contract increase to Stantec Consulting Services Inc. to complete a comprehensive rate study for Water and Sewer Capacity and Line Extension Fees for FY25 in the amount of \$91,150.00. The award request also includes an increase for attestation services on three separate rate topics (Retail reclaim rates, Bulk Reclaim rates, Excess strength charges for COD/TSS) which total an estimated amount of \$45,000.00. The cost of service for the three attestation topics is based on an estimate provided by Stantec and the agreement shall include a not-to-exceed amount of \$15,000.00 for each topic. The total award request for the Capacity and Line Extension Fee Study and the three attestation studies is \$136,150.00 for a new not-to-exceed amount of \$874,585.73. The hourly rates for this project remain the same as the original pricing from 2021. The award amount is based on contracted hourly rates and estimated hours to complete the projects. The project proposals and a description of the attestation services have been attached as back-up.

Originally Awarded: 10/27/2022 For additional information contact: Jason Behr Contract engineers are needed to supplement the design process for short periods of time (approximately three (3) to six (6) months for a typical project) when JEA in-house engineering resources may not meet the urgent demands of in-service dates. Electric substation engineering is a very specialized area, therefore, JEA requires companies who have the resources and experience to execute electric substation/transmission engineering are proficient with the computer application Microstation. Originally, JEA funded the contract based on engineering estimates for projects known at the time. As noted on the original award, the expectation was to increase these contracts throughout the life of the contract as new projects were identified. This particular increase is for the completion of the College St. substation switchgear replacement design, and completion of the West Jax Reliability Improvement design. These projects were partially funded in FY24, with the intent to fully fund in FY25 in order to complete the project designs. Leidos Engineering LLC is the only vendor receiving a contract increase at this time. There are no rate increases associated with this increase.												
5	Contract Increase	1410617246 (RFP) Substation Packaging Services	Melendez	Substation Enterprises, Inc. Dis-Tran Steel, LLC	Capital	\$2,120,271.09	Substation Enterprises, Inc. - No Change Dis-Tran Steel, LLC - \$2,120,271.09	Substation Enterprises, Inc. - \$536,100.00 Dis-Tran Steel, LLC - \$1,250,900.00	Substation Enterprises, Inc. - \$3,019,953.66 Dis-Tran Steel, LLC - \$6,198,363.09	Substation Enterprises, Inc. - 11/28/2023 - \$53,610 Substation Enterprises, Inc. - 07/18/2023 - \$2,430,243.66 Dis-Tran Steel, LLC - 03/02/2023 - \$2,827,192.00	Three (3) Years w/ Two (2) - 1 Yr. Renewals Start Date: 12/30/2022 End Date: 12/29/2025	N
Originally Awarded: 12/08/2022 For additional information contact: Jason Behr This solicitation is to select substation material packaging company(s) that will be contracted to provide structures, materials and other engineered equipment for JEA substation projects and/or small transmission projects that are incidental to substation projects. The company(s) shall perform and provide all design, detailing, documentation, procurement, manufacturing, scheduling, equipment selection, materials, project management and associated services for a turn-key, ready-to-install substation package of structures and materials to allow JEA to construct improvements to the JEA electric system. Originally, JEA funded the contract based on packaging estimates for projects known at the time. As noted on the original award, the expectation was to increase these contracts throughout the life of the contract as new projects were identified. This particular increase is for Dis-Tran substation packager services for new projects Point Meadows T2 Addition, Miller Solar PV 230kV Switchyard, and Peterson Solar PV 230kV Switchyard. Dis-Tran Steel, LLC is the only vendor receiving a contract increase at this time. There are no rate increases associated with this increase.												

Award #6 - Supporting Documents 12/18/25

6	Invitation for Bid (IFB)	1411879646 IFB FY25 Light Duty Vehicles, Medium Duty Vehicles, and Vans	Phillips	Bozard Ford Company Duval Ford Garber Ford Inc. New Smyrna Beach Chevrolet DBA TT of Smyrna Beach, LLC	Capital	\$4,537,946.90	\$78,531.00 \$3,661,320.00 \$65,785.25 \$252,976.00	N/A	\$4,058,612.25	N/A	One-time purchase, Expected delivery FY26	N
	Advertised: 11/05/2024 Optional Pre-Response Meeting: 11/15/2024, Seven (7) Attendees Responses Opened: 12/10/2024 Four (4) Responses Received: Bozard Ford Company - \$3,842,593.00 (Bid on 39 vehicles) Duval Ford - \$4,067,998.00 (Bid on 44 vehicles) Garber Ford Inc. - \$3,013,070.30 (Bid on 32 vehicles) New Smyrna Beach Chevrolet DBA TT of Smyrna Beach, LLC - \$609,940.00 (Bid on 10 vehicles) For additional information contact: Halley Stewart The scope for this solicitation is to select a supplier(s) to provide forty-four (44) Light Duty Vehicles, Medium Duty Vehicles, and Vans with various up-fits and configurations for fleet replacements and expansion for JEA Water and Electric business units. These vehicles will be delivered to JEA after October 1, 2025. Ten (10) suppliers were invited to participate, seven (7) suppliers attended the optional pre-response meeting, and four (4) responses were received. To promote competition, suppliers were not required to bid on all vehicles. The pricing for each vehicle type was compared individually and awarded to the lowest bidder by vehicle type. By selecting the lowest-cost vehicles from multiple bidders, rather than awarding a lump-sum agreement, we have achieved a savings of \$9,385.75. We have compared the cost of the same vehicles that were also purchased in FY24, which was \$3,053,246.64, to the current price of \$3,070,640.00, resulting in an approximate increase of just 0.57%. This request is for the award of contracts to the lowest bidders: Bozard Ford Company in the amount of \$78,531.00, Duval Ford in the amount of \$3,661,320.00, Garber Ford Inc. in the amount of \$65,785.25, and New Smyrna Beach Chevrolet DBA TT of Smyrna Beach, LLC in the amount of \$252,976.00. The total award amount of \$4,058,612.25 is 10.55% lower than the budget estimate of \$4,537,946.90 and has been deemed reasonable.											
7	Contract Renewal	1410980846 Pole Line Hardware Solicitation	Phillips	Anixter Choctaw-Kaul Electric Supply of Tampa (Irby) Gresco Stuart C. Irby Tri-State	Inventory	\$10,891,000.00	\$2,400,000.00 \$200,000.00 \$60,000.00 \$1,500,000.00 \$6,500,000.00 \$231,000.00	\$16,804,939.05	\$27,582,525.64	02/16/2023 (\$113,413.41)	One Year w/ Two (2) 1-Yr. Renewals Start Date: 01/26/2023 End Date: 01/25/2026	N/A
	For additional information contact: Lynn Rix These contracts provide Pole Line Hardware for JEA Inventory Stock which collectively consist of seven hundred and fifty-three (753) items. Pole line hardware consists of equipment to materials to maintain, repair and replace distribution infrastructure. The scope includes but is not limited to; cables, guy wires, arrestors, insulators, brackets, mounts, bolts, clamps, clevises, connectors, fuses, guards, cutouts, grips, nuts, bolts, washers, sleeves, splices, staples, sealants, lubricants, anchors, extensions, clamps, ties, covers, deadends, enclosures, grips, hooks, corona rings, reclosers, grounds and padmount switchgear. JEA will be exercising its second and final renewal option for this agreement. Additionally, based on Inventory forecasts, \$10,891,000.00 is needed to complete the contract. The forecasts are attached. These contracts provide savings to JEA through the efficiencies of blanket releases and contractual pricing as opposed to purchasing through spot buys. Pole Line Hardware will be re-bid in the fourth quarter of 2025 in anticipation of the current contract expiration on 01/25/2026.

Regular Agenda

Regular Agenda												
Award #	Type of Award	Solicitation # & Short Description/Title	VP	Awardee	Award Amount	Business Unit Estimate	Original Award Amount	New Not-to-Exceed	Amendments	Term	JSEB Participation (Y/N) If Y, then list company name(s) (% , \$ - awarded)	Action
1	Piggyback	HPE Infrastructure Hardware, Maintenance and Support	Datz	Moving On It Solutions, LLC	\$427,408.12	\$500,000.00	N/A	\$427,408.12	N/A	One-Time Purchase w/ Five (5) Years Support Start Date: 01/01/2025 End Date: 12/31/2029	N	Motion by: Ricky Erixton
	For Additional Information Contact: Angel Iosua											Second by: Jodi Brooks
	This piggyback award request for JEA Standard, HPE DL380 GEN11 Simplivity Hardware including all specified system components to HPE reseller Moving on IT (aka, MovIT). The HPE DL380 Simplivity Systems are considered Hyper-Converged (HC) Systems and are used primarily to host virtual servers in JEA's self-contained solutions for corporate and compliance regulated software environments. These new systems will replace the existing, previous generation HPE Simplivity Hardware before they reach End of Life (EOL). This award also includes five (5) years of support on this purchases hardware from 01/01/2025 to 12/31/2029. This is primarily a new hardware/equipment purchase so it is not comparable to previous support only purchases. The five years of support just is included with this hardware purchase.											Committee Decision: Approved
	This award piggybacks off the pricing and terms of OMNIA/NCPA Contract# 01-169 Term: December 14, 2023 through December 31, 2026.											
DISCUSSION/ACTION: Clarify who JEA is piggybacking off of? After further discussion, this item should be Single Collaborative as opposed to a piggyback contract per OGC.												
DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Nathan Woyak, Angel Iosua, Jodi Brooks, Rebecca Lavie												
2	Single Source	Customer MyWay Pre-Paid Account Management Software Support	Pressley	Exceleron Software, LLC	\$1,990,438.20	\$2,088,000.00	N/A	\$1,990,438.20	N/A	Three (3) Years w/ Two (2) - 1 Yr. Renewals Start Date: 01/04/2025 End Date: 01/03/2028	N	Motion by: Jodi Brooks
	For additional information contact: Angel Iosua											Second by: Ricky Erixton
	This is a single source request with Exceleron Software, LLC, to continue providing Customer Pre-Paid Account Management Software Support Services for JEA's MyWay Pre-Paid Accounts. Exceleron's prepaid account management program and support services allow customers to obtain utility service while paying down existing debt to the utility and access services without needing to pay utility deposits, which is particularly beneficial for those who may find upfront payments challenging, ultimately improving customer service and accommodating customer growth. JEA offers prepaid services to customers as an alternative to traditional payment methods and to accommodate customer growth. Exceleron's pricing structure is as follows: • New Video Platform: \$3,000 per month x 36 months = \$108,000.00 • My Usage Notification and IVR Fees: \$0.05/ per call and \$0.04 per text message for the 22,000 customers JEA has averaged \$8,224.37 per month x 12 = \$98,692.44 or \$296,077.32 over 3 years • MyUsage Prepay Monthly Fees: 22,000 customers @ \$44,065.58/ month x 12 = \$28,786.96 annually or \$1,586,360.88 over 3 years											Committee Decision: Approved
	This is single source as Exceleron is the only known vendor on the market to provide prepaid service. In May 2024 Exceleron merged with the only other prepaid supplier Paygo essentially forming a monopoly in the prepaid space. JEA has worked with Exceleron on prepaid services since 2011. Many other Utilities including OUC, GA Power, and others use this same product. Some Utilities do this work internally and use their systems such as Customer Care and Billing (CC&B). JEA is receiving better rates than other utilities due to longevity of the services with JEA. There are other supplier products in development JEA is tracking and will monitor during this award term. The Exceleron product is heavily integrated into JEA systems and a new implementation would likely take up to two (2) years.											
DISCUSSION/ACTION: Is this company the only one providing these types of services? The platform currently used is specific to the prepaid customers. Why is this award considered a Single Source? The Video platform is part of this particular contract that ties to the actual platform that JEA uses.												
DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Nathan Woyak, Rebecca Lavie, Jodi Brooks, Ricky Erixton, Chris Jackson, Gerald Butler												
3	Piggyback	Forescout Network Security Services	Datz	GuidePoint Security LLC	\$994,567.01	N/A	N/A	\$994,566.97	N/A	Three (3) Years w/ No Renewals Start Date: 01/01/2025 End Date: 12/31/2027	N	Motion by: Jodi Brooks
	For Additional Information Contract: Angel Iosua											Second by: Ricky Erixton
	This request is to purchase the comprehensive Network Access Control (NAC) Solution from Forescout authorized reseller, Guidepoint Security LLC based on piggyback contract pricing and terms from the Federal Procurement Contract, GSA Schedule No: 47QSWA18D008F for a total amount of \$ 994,566.97. Forescout is a global cybersecurity leader that continuously identifies, protects, and ensures the compliance of all managed and unmanaged cyber assets. Forescout Network Access Control (NAC) offers advanced, agentless, and flexible network security solutions that extend beyond traditional NAC.											Committee Decision: Approved
	The Forescout next-gen network access control offers a comprehensive, flexible, and non-disruptive approach that provides essential capabilities for enterprises to maintain robust security postures and implement Zero Trust principles effectively.											
This is a planned technology project for FY25-FY27 to increase the overall security of JEA's wired corporate network. By taking action before the end of 2024, JEA secures price savings of \$392,980.48 on the solution over the first 3 years of implementation through negotiations and by avoiding a significant price increase from the OEM effective Jan 1, 2025. Pricing based on GSA Schedule No: 47QSWA18D008F Term August 22, 2018 - August 21, 2028.												
DISCUSSION/ACTION: Clarify as to whom JEA is piggybacking off of and should we amend as a Single Source? This contract is to stay as a piggyback as we are piggybacking off of a GSA State contract Carasoft.												
DISCUSSION/ACTION PARTICIPANTS: Ted Phillips, Angel Iosua, Rebecca Lavie, Nathan Woyak, Jodi Brooks

BID BOND

STATE OF FLORIDA

COUNTY OF: Duval

KNOW ALL PERSONS BY THESE PRESENTS, That we, Jax Utilities Management, Inc. (hereinafter called "Principal"), and Euler Hermes North America Insurance Company as Surety (hereinafter called "Surety"), are held and firmly bound unto the JEA of the City of Jacksonville, Florida (hereinafter called the "JEA"), in the sum of \$Five Percent, **lawful money of the United States of America, for the payment which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents:

**of Amount Bid (5%)

WHEREAS, the Principal contemplates submitting or has submitted a Bid to the JEA for:

Construction Services for SR 21 (Blanding Blvd) from Wilson Blvd to Wheeler Ave. Watermain Replacement

WHEREAS, it was a condition precedent to the submission of said Bid that a certified check or Bid Bond in the amount of Five Percent of the Amount Bid (5%) be submitted with said Bid as a guaranty that the Principal would, if awarded the contract, enter into a written contract with the JEA and furnish a Section 255.05 Florida Statutes Contract Bond in an amount equal to One Hundred Percent of Contract Amount (100%) for the performance of said contract, within ten consecutive calendar days after written notice being given of acceptance by the JEA.

NOW, THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the Bid of the Principal herein be accepted and said Principal, within ten consecutive calendar days after written notice being given of such acceptance, enters into a written contract with the JEA, and furnishes a Section 255.05, Florida Statutes Contract Bond in an amount equal to One Hundred Percent of Contract Amount (100%) satisfactory to the JEA, then this obligation shall be void; otherwise, the sum herein stated shall be due and payable to the JEA, and the Surety herein agrees to pay said sum immediately upon demand of said JEA, in good and lawful money of the United States of America; as liquidated damages for failure thereof of said Principal.

IN WITNESS WHEREOF, the said Principal and the said Surety have duly executed this bond the 3rd day of December, 2024.

LIST OF SUBCONTRACTORS FORM

JEA Solicitation Number 1411866848

Tier 1 Prime Contractor Business Name: Jax Utilities Management, Inc.

The referenced solicitation requires certain major Subcontractors be listed on this form, unless the work will be self-performed by the Tier 1 Prime Contractor.

The undersigned understands that failure to submit the required Subcontractor information on this form may result in bid rejection, and the Tier 1 Prime Contractor agrees to employ the Subcontractors specified below: (Add additional lines if necessary)

Note: This list of Subcontractors shall not be modified subsequent to bid opening, without a showing of good cause and the written consent of JEA.

JSEB Subcontractors - Jacksonville Small & Emerging Business Program (JSEB)

A certified JSEB business who contracts with the Tier 1 Prime Contractor to provide goods and/or services. All fields are required to be completed on this section of the form.

The JSEB Subcontractors section of the form is required for any projects with a JSEB participation requirement.

JSEB Business Name	JSEB Primary Contact Name	JSEB Telephone Number	JSEB Email Address	JSEB Certification? Yes or No (select from the drop down menu)	Scope of Work	Dollar Amount
Spencer Construction & Engineering, Inc.	Americus G. Spencer-Harold	904-716-6746	americus@spencerca.com	Yes	Concrete	\$147,000.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00

Tier 2 Subcontractors

A Subcontractor who contracts with the Tier 1 Prime Contractor to provide goods and/or services. Please list all major Subcontractors, regardless of diversity status, that will be providing goods and/or services. Submission of Subcontractor Ethnicity or Diverse Classification is optional.

The Tier 2 Subcontractors section of the form is required.

Subcontractor Business Name	Subcontractor Primary Contact Name	Subcontractor Telephone Number	Subcontractor Email Address	Subcontractor Ethnicity or Diverse Classification (select from the drop down menu, if applicable)	Scope of Work	Dollar Amount
Kudzu 3 Trucking & Paving	Kirstyn Logan	904-386-7638	travis@kudzue3.com	N/A	Asphalt Paving	\$500,000.00
Spencer Construction & Engineering, Inc.	Americus G. Spencer-Harold	904-716-6746	americus@spencerca.com	Minority Business Enterprise	Concrete	\$147,000.00
Ferguson Waterworks	Ryan Pugh	904-268-2551	ryan.pugh@ferguson.com	N/A	Pipe Supply	\$0.00
						\$0.00
						\$0.00

Tier 3 Subcontractors - Utilization of Diverse Businesses Only

A diverse Subcontractor who contracts with a Tier 2 Subcontractor to provide goods and/or services.

The Tier 3 Subcontractors section of the form is optional.

Diverse Subcontractor Business Name	Diverse Subcontractor Primary Contact Name	Diverse Subcontractor Telephone Number	Diverse Subcontractor Email Address	Diverse Subcontractor Ethnicity or Classification (select from the drop down menu, if applicable)	Scope of Work	Dollar Amount
N/A						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00

RE: **ENTACT's Response to Request for Proposal:**

Pearl Street Offsite Remedial Action and Parking Lot Expansion
Solicitation Number 1411808846
Jacksonville, Florida

Mr. King,

ENTACT is pleased to provide the enclosed proposal for the Pearl Street Offsite Remedial Action and Parking Lot Expansion in Jacksonville, Florida (JEA Solicitation Number: 1411808846). We hold a strong belief that the scope of work required for this project seamlessly aligns with our self-performed capabilities and extensive experience.

Thank you for your consideration of ENTACT.

Sincerely,

A handwritten signature in black ink that reads "Mitchell Blanchard".

MINIMUM QUALIFICATIONS:

Bidder shall have the following Minimum Qualifications to be considered eligible to submit a Bid in response to this Solicitation.

- Contractor must have a State of Florida General Contractor's License.
- The Respondent (Prime Company) or teaming partner(s) must have completed the following within the state of Florida in the past five (5) years from the date of the RFP:
 - at least one (1) subsurface stormwater system (ADS StormTech or similar) installation involving asphalt pavement installation of at least 20,000 square feet; and
 - at least one (1) project involving the installation of 1,000-feet of large diameter high density polyethylene (HDPE) piping and all associated welding and leak testing; and
 - at least one (1) project involving the removal, handling, staging, loading and disposal of at least 100 tons of contaminated soil executed by Hazwoper trained personnel.
- Contractor shall have 40-hour OSHA HAZWOPER Certifications for employees with up to date 8-hr annual refresher.
- Any Respondent whose contract with JEA was terminated for default within the last two years shall have its Response rejected.
- Contractor must be JEA Safety Qualified.

Contract Duration Amount: March 2024 December 2024, 19M

Description of Project: JE/A - enned enerating Station (S) Former Wood Treating Site Corrective Mea re Im lementation

ENTACT has been engaged to perform remediation of this former wood treating site regulated by the Florida Department of Environmental Protection (FDEP) under Florida's U.S. Environmental Protection Agency (EPA) - authorized Resource Conservation and Recovery Act (RCRA) program. The property is approximately 5 acres in size and is bound by the St. Johns River to the east. ENTACT's scope of work includes clearing 10 acres; abandonment of monitoring wells; excavation and stockpiling of approximately 11,000 cubic yards of impacted soils from various hot spot areas; backfilling affected areas with clean fill;; mechanical dredging of 8,000 cubic yards of TPAH impacted sediments for conditioning and on-site placement in the CAMU; dewatering, treatment and discharge of approximately 4,215,000.00 gallons of water to a reclamation facility; backfilling the dredged areas within the St. Johns River; large diameter auger (LDA) excavation with a 66-inch diameter casing of approximately .55 cubic yards of NAPL impacted soils around 5 wells from 12-25 feet deep; construction of a -acre CAMU through grading and fill placement of 15,000 cubic yards of soil and installation of 124,000 square feet of liner; closure of the CAMU including a top liner and vent system; site grading utilizing on-site soils and 80,000 cubic yards of off-site borrow; installation of a 0,000 square foot asphalt cap to be utilized for light vehicle parking or other similar uses; installation of a 2,800-foot-long concrete curb and gutter with guidance posts and chains; placement of LLDPE membrane liner and installation of approximately 2 acres of ClosureTurf where the asphalt cap merges with the cap slopes; construction of a comprehensive stormwater management system consisting of HDPE underdrains that discharge through precast concrete manholes, storm drains, and control structures to the lined drainage channel along the northern property boundary; installation of a nearly 00-foot-long PVC Shore Guard 625 bulkhead along the riverbank including pile caps, wales, and anchor tie-backs; revegetation of approximately 5-acres; replacement of a bridge deck; removal and reinstallation of a groundwater recovery system consisting of HDPE air supply and water return lines, foundations, controllers, and pumps; and the transportation and disposal of approximately 0 tons of non-hazardous waste generated during the civil site activities and dredging

The stormwater management system consisted of a 60,000 square foot dry pond (SMF-1) with an ADS HDPE pipe underdrain system, a swale with an underdrain system (SMF-2), three precast concrete manholes, two precast concrete control structures, six precast concrete storm drains, a precast concrete box culvert, and precast concrete elliptical reinforced concrete pipe. The stormwater management system included in the installation of approximately 6,000 linear feet of ADS dual wall HDPE pipe that ranged in diameter from 6 inches to 42 inches.

For the groundwater recovery system, over .00 linear feet of HDPE pipe were removed, welded, reinstalled with the control valves and controller tubing, and pressure tested.

Contract Duration Amount: February 2019 – Jan ar 2020, 7.5M

Description of Project: Fair a Wood Treater S er nd Site

ENTACT conducted remedial activities at the Fairfax Street Wood Treaters (FSWT) Site in accordance with a Record of Decision (ROD) issued by the USEPA Region 4. The FSWT Site was a former wood treating facility that pressure treated lumber products using chromated copper arsenate (CCA) in the treatment process. In accordance with the selected remedy defined in the ROD, CCA impacted soil was excavated from the FSWT Site and on 51 surrounding residential properties where uncontrolled stormwater contaminated with CCA from the wood treating process is believed to have overflowed resulting in CCA contaminated soil. In general, scope of work included excavation of impacted soil to varying depths from delineated portions of the FSWT Site and surrounding properties that exceed residential clean-up levels for copper, chromium, arsenic and poly-aromatic hydrocarbons (PAHs) defined in the ROD; dewatering of an existing retention pond on the FSWT Site and excavation of retention pond sediments to meet the ecological cleanup levels for copper, chromium and arsenic as defined in the ROD; off-site disposal of 00,000 gallons of impacted water; demolition of existing structures and paving on the FSWT Site; temporary storage, sampling and waste characterization analysis of excavated soil and demolition debris prior to off-site disposal; transportation of approximately 2,100 tons of excavated soil and 280 tons of demolition debris characterized as a listed hazardous waste (F0 5) to a RCRA permitted Subtitle C landfill for disposal, approximately 64,200 tons of excavated soil and 1,200 tons of demolition debris characterized as non-hazardous waste to a Subtitle D landfill for disposal, and approximately 460 tons of crushed concrete to an approved facility for recycling; reconstruction of the FSWT Site retention pond and outfall as part of the permanent stormwater controls for the Site; placement of over 60,000 tons of backfill; and restoration of excavated areas on the FSWT Site and residential properties. The Site was formally delisted from the National Priorities List (NPL) in the Federal Register on August 18, 2020.

Contract Duration Amount: A ril 2023 December 2023, 7M

Description of Project: Shi ard Redevelo ment ro nd Im rovement

ENTACT performed ground improvement and remediation of contaminated soils to facilitate building construction of a mixed-use development which will include a luxury hotel with residential units, an office building, and other public amenities. ENTACT employed a deep soil mixing (DSM) ground improvement system to improve the support characteristics of the soft organic soils present around and below the development area, and reduce the potential for settlement. The fill areas that required ground improvement were approximately 66,200 square feet around the east, west and south portions of the site. Large Diameter Single Axis soil mix columns were installed using a large rotary drill rig across the fill areas and adjacent to the proposed structural grade beams. The soil mix columns were installed in a triangular grid spacing and to a depth approximately feet below the soft organic compressible soils (up to 55 feet deep). With this system, the new loads induced by added fill on site transferred through the soil mix columns to deeper competent soil, thereby mitigating the settlement risk presented by the soft compressible organic soils. As part of the design and engineering process, ENTACT employed a bench scale test study early in the process as proof of concept in mixing these challenging soils. ENTACT also installed a first of its kind full-scale load test on site.

ENTACT also employed DSM to pre-treat the soil for the drilled pile operation. The soils on site were too weak to install traditional auger cast piles without the support of temporary or permanent casing. ENTACT utilized DSM as a form of temporary casing by installing 6 foot diameter columns at the center of 2 and foot diameter auger cast pile locations. This presented a dramatic cost savings versus utilizing permanent or temporary casing.

				4 - Reimbursement for all items shall be in accordance with Measurement of Payment.		
				5 - Labor rate sheet, with all categories of project staff, to be provided as an attachment. Labor rates will be used to evaluate SWAs during the work.		

LIST OF SUBCONTRACTORS FOR

JEA Solicitation number 1411808846

Tier 1 Prime Contractor Business name ENTACT, LLC

The referenced solicitation requires certain materials or Subcontractors be listed on this form, unless the work will be self-performed by the Tier 1 Prime Contractor.

The undersigned understands that failure to submit the required Subcontractor information on this form may result in bid rejection, and the Tier 1 Prime Contractor agrees to employ the Subcontractors specified below (Add additional lines if necessary)

Note This list of Subcontractors shall not be modified subsequent to bid opening, without a showing of good cause and the written consent of JEA.

JSEB Subcontractors - Jacksonville Small & Emerging Business Program (JSEB)

A certified JSEB business who contracts with the Tier 1 Prime Contractor to provide goods and/or services. All fields are required to be completed on this section of the form.

The JSEB Subcontractors section of the form is required for any projects with a JSEB participation requirement.

JSEB Business name	Prime Contractor name	JSEB Telephone number	JSEB Email Address	JSEB Certification Yes or No (select from the drop down menu)	Scope of work	ollar Amount
Alpha Envirotech Consulting, Inc.	Any Fu	904-382-0083	amy.fu@envirotech.com	Yes	Dewatering Plan	\$13,600.00
Bullard Fence, Inc.	Teresa Durran	904-781-2397	teresa_bullardfence.com	Yes	Security Fence Installation	\$48,448.23
CSI Geo, Inc.	Liam Capstick	904-641-1993	lcapstick@csi-geo.com	Yes	Geotech Testing and Field Services	\$37,312.86
Garmon Trucking, Inc.	Janet Garmon	904-982-1920	anetgarmon@bellsoutlet.net	Yes	Waste Transportation and Disposal	\$125,037.90
Landscape Construction, LLC	Drew Ammons	904-307-6133	landscape.construction@yahoo.com	Yes	Irrigation and Landscaping	\$134,195.59
Smith Surveying Group	Tom Smith	904-260-6300	ts.smithsurvey.net	Yes	Surveying	\$144,955.27

Tier 2 Subcontractors

A Subcontractor who contracts with the Tier 1 Prime Contractor to provide goods and/or services. Please list all major Subcontractors, regardless of diversity status, that will be providing goods and/or services. Submission of Subcontractor Ethnicity or Diversity Classification is optional.

The Tier 2 Subcontractors section of the form is required.

Subcontractor Business name	Subcontractor Prime Contractor name	Subcontractor Telephone number	Subcontractor Email Address	Subcontractor Ethnicity or Diversity Classification (select from the drop down menu, if applicable)	Scope of work	ollar Amount
American Electrical Contracting, Inc.	Brian Moore	904-737-7770	bmoore@american-electrical.com	N/A	Electrical Services Cast-in-Place Concrete	\$576,811.00
Concrete Profiles Inc.	Preston Napier	904-424-1767	pnapi@concreteprofiles.com	N/A	Concrete	\$49,060.00

STATE OF TEXAS

DEPARTMENT OF INFORMATION RESOURCES

CONTRACT FOR CYBERSECURITY PRODUCTS AND RELATED SERVICES

Netsync Network Solutions, Inc.

1 Introduction

1.1 Parties

This contract for Cybersecurity Products and Related Services (this “Contract”) is entered into between the State of Texas, acting by and through the Department of Information Resources (hereinafter “DIR”) with its principal place of business at 300 West 15th Street, Suite 1300, Austin, Texas 78701, and Netsync Network Solutions, Inc. (hereinafter “Successful Respondent”), with its principal place of business at 2500 West Loop South, Suite 410, Houston, TX 77027.

1.2 Compliance with Procurement Laws

This Contract is the result of compliance with applicable procurement laws of the State of Texas. DIR issued a solicitation on the Comptroller of Public Accounts’ Electronic State Business Daily, Request for Offer (RFO) DIR-CPO-TMP-550, on 12/20/2020, for Cybersecurity Products and Services (the “RFO”). Upon execution of all Contracts, a notice of award for DIR-CPO-TMP-550 shall be posted by DIR on the Electronic State Business Daily.

1.3 Order of Precedence

- a) For transactions under this Contract, the order of precedence shall be as follows:
 - i. this Contract;
 - ii. Appendix A, Standard Terms and Conditions;
 - iii. Appendix B, Successful Respondent’s Historically Underutilized Businesses Subcontracting Plan;
 - iv. Appendix C, Pricing Index;
 - v. Exhibit 1, RFO DIR-CPO-TMP-550, including all Addenda; and
 - vi. Exhibit 2, Successful Respondent’s Response to RFO DIR-CPO-TMP-550, including all Addenda.
- b) Each of the foregoing documents is hereby incorporated by reference and together constitute the entire agreement between DIR and Successful Respondent governing purchase transactions.

1.4 Definitions

Capitalized terms used but not defined herein have the meanings given to them in Appendix A, Standard Terms and Conditions.

2 Term of Contract

The initial term of this Contract shall be up to two (2) years commencing on the date of the last signature hereto (the "Initial Term"), with one (1) optional two-year renewal and one (1) optional one-year renewal (each, a "Renewal Term"). Prior to expiration of the Initial Term and each Renewal Term, this Contract will renew automatically under the same terms and conditions unless either party provides written notice to the other party at least sixty (60) days in advance of the renewal date stating that the party wishes to discuss amendment or non-renewal.

3 Option to Extend

Successful Respondent agrees that DIR may require continued performance under this Contract at the rates specified in this Contract following the expiration of the Initial Term or any Renewal Term. This option may be exercised more than once, but the total extension of performance hereunder shall not exceed four (4) calendar months. Such extension of services shall be subject to the requirements of this Contract, with the sole and limited exception that the term shall be extended pursuant to this provision. DIR may exercise this option upon thirty (30) calendar days written notice to Successful Respondent.

4 Product and Service Offerings

Products and services available under this Contract are limited to the technology categories defined in Request for Offer DIR-CPO-TMP-550 for Cybersecurity Products and Services. At DIR's sole discretion, Successful Respondent may incorporate changes or make additions to its service offering, provided that any changes or additions must be within the scope of the RFO.

5 Pricing

5.1 Pricing Index

Pricing to Customers shall be as set forth in **Appendix C, Pricing Index**, and shall include the DIR Administrative Fee (as defined below).

5.2 Customer Discount

- a) The minimum Customer discount for all products and services will be the percentage off List Price (as defined below) or MSRP (as defined below), as applicable, as specified in **Appendix C, Pricing Index**. Successful Respondent shall not establish a List Price or MSRP for a particular solicitation. For purposes of this Section, "List Price" is the price

- for a product or service published in Successful Respondent's price catalog (or similar document) before any discounts or price allowances are applied. For purposes of this Section, "MSRP," or manufacturer's suggested retail price, is the price list published by the manufacturer or publisher of a product and available to and recognized by the trade.
- b) Customers purchasing products or services under this Contract may negotiate additional discounts with Successful Respondent. Successful Respondent and Customer shall provide the details of such additional discounts to DIR upon request.
- c) If products or services available under this Contract are provided at a lower price to: (i) an eligible Customer who is not purchasing those products or services under this Contract, or (ii) to any other customer under the same terms and conditions provided for the State for the same products and services under this contract, then the price of such products and services under this Contract shall be adjusted to that lower price. This requirement applies to products or services quoted by Successful Respondent for a quantity of one (1), but does not apply to volume or special pricing purchases. Successful Respondent shall notify DIR within ten (10) days of providing a lower price as described in this Section, and this Contract shall be amended within ten (10) days to reflect such lower price.

5.3 Changes to Prices

- a) Subject to the requirements of this section, Successful Respondent may change the price of any product or service upon changes to the List Price or MSRP, as applicable. Discount levels shall not be subject to such changes, and will remain consistent with the discount levels specified in this Contract.
- b) Successful Respondent may revise its pricing by publishing a revised pricing list, subject to review and approval by DIR. If DIR, in its sole discretion, finds that the price of a product or service has been increased unreasonably, DIR may request that Successful Respondent reduce the pricing for the product or service to the level published before such revision. Upon such request, Successful Respondent shall either reduce the pricing as requested, or shall remove the product or service from the pricing list for this Contract. Failure to do so will constitute an act of default by Successful Respondent.

5.4 Shipping and Handling

Prices to Customers shall include all shipping and handling fees. Shipments will be Free On Board Customer's Destination. No additional fees may be charged to Customers for standard shipping and handling. If a Customer requests expedited or special delivery, Customer will be responsible for any additional charges for expedited or special delivery.

5.5 Travel Expenses

Pricing for services provided under this Contract are exclusive of any travel expenses that may be incurred in the performance of such services. Travel expense reimbursement may include personal vehicle mileage or commercial coach transportation, hotel accommodations, parking

and meals; provided, however, the amount of reimbursement by Customers shall not exceed the amounts authorized for state employees as adopted by each Customer; and provided, further, that all reimbursement rates shall not exceed the maximum rates established for state employees under the current State Travel Management Program. Travel time may not be included as part of the amounts payable by Customer for any services provided under this Contract. The DIR Administrative Fee is not applicable to travel expense reimbursement. Anticipated travel expenses must be pre-approved in writing by Customer. Customer reserves the right not to pay travel expenses which are not pre-approved in writing by the Customer.

6 DIR Administrative Fee

- a) Successful Respondent shall pay an administrative fee to DIR based on the dollar value of all sales to Customers pursuant to this Contract (the "DIR Administrative Fee"). The amount of the DIR Administrative Fee shall be seventy-five hundredths of a percent (0.75%) of all sales, net of returns and credits. For example, the administrative fee for sales totaling \$100,000 shall be \$750.
- b) All prices quoted to Customers shall include the DIR Administrative Fee. DIR reserves the right to increase or decrease the DIR Administrative Fee during the term of this Contract, upon written notice to Successful Respondent without amending this Contract. Any increase or decrease in the DIR Administrative Fee shall be incorporated in the price to Customers.

7 Internet Access to Contract and Pricing Information

In addition to the requirements listed in Appendix A, Section 7.2, Internet Access to Contract and Pricing Information, Successful Respondent shall include the following with its webpage:

- a) A current price list or mechanism to obtain specific contract pricing;
- b) MSRP/list price or DIR Customer price;
- c) Discount percentage (%) off MSRP or List Price;
- d) Warranty policies; and,
- e) Return policies.

8 Use of Order Fulfillers

8.1 Authorization to Use Order Fulfillers

Subject to the conditions in this Section 8, DIR agrees to permit Successful Respondent to utilize designated order fulfillers to provide products, services, and support resources to Customers under this Contract ("Order Fulfillers").

8.2 Designation of Order Fulfillers

- a) Successful Respondent may designate Order Fulfillers to act as the distributors for products and services available under this Contract. In designating Order Fulfillers, Successful Respondent must be in compliance with the State's Policy on Utilization of Historically Underutilized Businesses. DIR and Successful Respondent will agree on the number of Order Fulfillers that are Historically Underutilized Businesses as defined by the CPA.
- b) In addition to the required Subcontracting Plan, Successful Respondent shall provide DIR with the following Order Fulfiller information: Order Fulfiller name, Order Fulfiller business address, Order Fulfiller CPA Identification Number, Order Fulfiller contact person email address and phone number.
- c) DIR reserves the right to require Successful Respondent to rescind any Order Fulfiller participation or request that Successful Respondent name additional Order Fulfillers should DIR determine it is in the best interest of the State.
- d) Successful Respondent shall be fully liable for its Order Fulfillers' performance under and compliance with the terms and conditions of this Contract. Successful Respondent shall enter into contracts with Order Fulfillers and use terms and conditions that are consistent with the terms and conditions of this Contract.
- e) Successful Respondent may qualify Order Fulfillers and their participation under the Contract provided that: i) any criteria is uniformly applied to all potential Order Fulfillers based upon Successful Respondent's established, neutrally applied criteria, ii) the criteria is not based on a particular procurement, and iii) all Customers are supported under the criteria.
- f) Successful Respondent shall not prohibit any Order Fulfiller from participating in other procurement opportunities offered through DIR.

8.3 Changes in Order Fulfiller

Successful Respondent may add or remove Order Fulfillers throughout the term of this Contract upon written authorization by DIR. Prior to adding or removing Order Fulfillers, Successful Respondent must make a good faith effort to revise its Subcontracting Plan in accordance with the State's Policy on Utilization of Historically Underutilized Businesses. Successful Respondent shall provide DIR with its updated Subcontracting Plan and the Order Fulfillers information listed above.

8.4 Order Fulfiller Pricing to Customer

Order Fulfiller pricing to the Customer shall be in accordance with Section 5.

9 Notification

All notices under this Contract shall be sent to a party at the respective address indicated below.

If sent to the State:

Hershel Becker or Successor in Office
Chief Procurement Officer
Department of Information Resources
300 W. 15th St., Suite 1300
Austin, Texas 78701
Phone: (512) 475-4700
Email: hershel.becker@dir.texas.gov

If sent to Successful Respondent:

Nicole Nordhousen
Netsync Network Solutions, Inc.
2500 West Loop South, Suite 410, Houston, TX 77027
Phone: 866-974-5959
Email: legal@netsync.com

10 Software License

10.1 Software License Agreement

- a) Customers acquiring software licenses under this Contract shall hold, use, and operate such software subject to compliance with the Software License Agreement. Customer and Successful Respondent may agree to additional terms and conditions that do not diminish a term or condition in the Software License Agreement, or in any manner lessen the rights or protections of Customer or the responsibilities or liabilities of Successful Respondent. Successful Respondent shall make the Software License Agreement terms and conditions available to all Customers at all times.
- b) Compliance with the Software License Agreement is the responsibility of the Customer. DIR shall not be responsible for any Customer's compliance with the Software License Agreement.

11 Conflicting or Additional Terms

- a) The terms and conditions of this Contract shall supersede any additional conflicting or additional terms in any additional service agreements, statement of work, and any other provisions, terms, conditions, and license agreements, including those which may be affixed to or accompany software upon delivery (sometimes called shrink-wrap or click-wrap agreements), and any linked or supplemental documents, which may be proposed, issued, or accepted by Successful Respondent and Customer in addition to this Contract (such additional agreements, "Additional Agreements"), regardless of when such

Additional Agreements are proposed, issued, or accepted by Customer. Notwithstanding the foregoing, it is Customer's responsibility to review any Additional Agreements to determine if Customer accepts such Additional Agreement. If Customer does not accept such Additional Agreement, Customer shall be responsible for negotiating any changes thereto.

- b) Any update or amendment to an Additional Agreement shall only apply to Purchase Orders for the associated product or service offering after the effective date of such update or amendment; provided that, if Successful Respondent has responded to a Customer's solicitation or request for pricing, any subsequent update or amendment to an Additional Agreement may only apply to a resulting Purchase Order if Successful Respondent directly informs such Customer of such update or amendment before the Purchase Order is executed.
- c) Successful Respondent shall not require any Additional Agreement that: i) diminishes the rights, benefits, or protections of Customer, or that alters the definitions, measurements, or method for determining any authorized rights, benefits, or protections of Customer; or ii) imposes additional costs, burdens, or obligations upon Customer, or that alters the definitions, measurements, or method for determining any authorized costs, burdens, or obligations upon Customer.
- d) If Successful Respondent attempts to do any of the foregoing, the prohibited documents will be void and inapplicable to this Contract or the Purchase Order between Successful Respondent and Customer, and Successful Respondent will nonetheless be obligated to perform such Purchase Order without regard to the prohibited documents, unless Customer elects instead to terminate such Purchase Order, which in such case may be identified as a termination for cause against Successful Respondent.

12 Authorized Exceptions to Appendix A, Standard Terms and Conditions

No exceptions have been agreed to by DIR and Successful Respondent.

Formal Bid and Award System

Award #3 January 27, 2022

Type of Award Request: PIGGYBACK - STATE OF FLORIDA CONTRACT

Requestor Name: Traylor, Kymberly A. - Dir Network & Telecommunication Services

Requestor Phone: (904) 665-8983

Project Title: Cellular Wireless Services

Project Number: HEB30904, 8007358

Project Location: JEA

Funds: O&M and Capital

Budget Estimate: \$5,912,366.37 (O&M FY22 remaining \$1,187,250.00 from BL07. Future budget requests FY23 \$1,883,291.38, FY24 \$2,117,036.15, FY25 \$649,788.85 from BL07, and Capital \$300,000 from Project #8007358)

Scope of Work:

JEA utilizes wireless devices including air cards (mi-fi), and cellular phones that are primarily used for personnel in the field, as well as additional cellular devices used for MV90 meters, power quality meters, and remote network connections that use Verizon monthly access plans. All of these devices are currently on the Verizon Wireless network, which is the highest-ranking wireless vendor in the State of Florida, providing the most proven performance of any wireless carrier for our service territory during storms and emergencies. Verizon Wireless maintains company employed customer service support, network, ownership and maintenance to ensure ongoing reliability and accountability to JEA, with service level agreements in the contract that provide service level guarantees.

JEA IFB/RFP/State/City/GSA#:

State of Florida, DMS-19/20-006c

VERIZON WIRELESS	Thomas Beck	Thomas.Beck@Verizonwireless.Com	3728 Phillips Hwy Ste. 360, Jacksonville, FL 32207	(904) 716-2600	\$5,921,963.44

Amount for entire term of Contract/PO: \$5,921,963.44

Award Amount for remainder of this FY: \$1,271,847.07

Length of Contract/PO Term: Three (3) Years w/ Two – 1 Yr. Renewals

Begin Date (mm/dd/yyyy): 01/20/2022

End Date (mm/dd/yyyy): 01/19/2025

Renewal Options: Two – 1 Yr. Renewals

JSEB Requirement: N/A –State Contract

Background/Recommendations:

On 08/24/2021, the State of Florida executed contract DMS-19/20-006c with Verizon Wireless company through an Invitation to Negotiate (ITTN), with a five (5) year term through 08/23/2026. The State evaluated multiple carriers and entered into contracts with Verizon Wireless, Sprint and AT&T. Verizon Wireless received the highest technical and pricing scores out of the three (3) carriers. The evaluation criteria included technical requirements, business operations, contract terms and conditions, pricing and coverage maps. It should be noted that Verizon Wireless air cards, cell phones, and machine to machine data coverage were approved as a JEA Standard on 02/15/2012.

This request is for a new three (3) year contract for JEA to piggyback off of the State of Florida contract and award funding in the amount of \$5,921,963.44. This amount includes an average monthly cost of \$128,487.81 for FY22 current services increasing by 4 -12% each fiscal year due to new planned services, and the ten (10%) percent contingency seen in the table below to cover potential additional monthly access plan usage. The table below also includes \$300,000.00 in estimated annual capital spend purchases for new wireless devices. Verizon pricing will continue at the current rates in accordance with the previous contract and remain fixed for the term of the contract. Multiple wireless providers are listed on the State of Florida contract. JEA completed a cost comparison between the Verizon state contract and the AT&T state contract. The Verizon costs to JEA are 14% lower or \$21,800.00 less each month. A copy of the cost comparison and the State of Florida rate sheet is attached as backup.

Operating Amounts by Month					
	FY'22	FY'23	FY'24	FY'25	
Monthly Existing Spend	\$ 128,487.81	\$ 132,983.01	\$ 150,690.95	\$ 170,169.68	
Monthly Planned New Services (Cases, Peripherals, etc.)	\$ 4,495.20	\$ 4,008.76	\$ 4,008.76	\$ 4,008.76	
Monthly 10% Contingency (Cases, Peripherals, etc.)		\$ 13,699.18	\$ 15,469.97	\$ 17,417.84	
Monthly Total Operating Spend (with 10% Contingency)	\$ 132,983.01	\$ 150,690.95	\$ 170,169.68	\$ 191,596.28	
Operating and Capital Amounts Annualized by Fiscal Year					
	FY'22 (x 9 Months)	FY'23 (x12 months)	FY'24 (x12 Months)	FY'25 (x3Months)	
Annual Total Operating Spend (with 10% Contingency)	\$ 1,196,847.07	\$ 1,808,291.38	\$ 2,042,036.15	\$ 574,788.85	
Annual Capital Spend	\$ 75,000.00	\$ 75,000.00	\$ 75,000.00	\$ 75,000.00	
Annual Total Operating and Capital Spend	\$ 1,271,847.07	\$ 1,883,291.38	\$ 2,117,036.15	\$ 649,788.85	
Total Award Request				\$ 5,921,963.44	

The usage of wireless devices monthly access plans contained in this contract have changed significantly since 08/07/2020 due to JEA's changing technology requirements and usage. This award includes funding for the following new estimated capital spend item purchases and the associated operating budget changes:

- 1.) Interruptible Customer – This wireless service enables JEA to temporarily reallocate a customer's electric service to another customer to better economize JEA electric service. In exchange, the interruptible customer benefits by receiving a better rate.
- 2.) Mobility Platform Service – Tablet Purchases and Services – This service enables a higher scope and scale of apps from the existing mobility services currently available.
- 3.) Fault Current Indicators - Fault indicators are devices which indicate the passage of fault current. When properly applied, they can reduce operating costs and reduce service interruptions by identifying the section of cable that has failed. This is a continuation of JEA's existing Fault Current Indicator Initiative supporting CEMI-5 power reliability improvements.
- 4.) Automatic Transfer Switch - An automatic transfer switch (ATS) is a self-acting, intelligent power switching device governed by dedicated control logic. The principal purpose of an ATS is to ensure the continuous delivery of electrical power from one of two power sources to a connected load circuit. This is a continuation of JEA's existing ATS Initiative supporting CEMI-5 improvements.

The \$9,597.07 budget shortage in fiscal year 2022 will be covered from funding source O&M BL011. JEA will submit budgeting allowance requests for the subsequent fiscal years to fund this award in compliance with JEA's normal budget cycle processes.

Request approval to award a contract to Verizon Wireless for wireless device usage in the amount of \$5,921,963.44, subject to the availability of lawfully appropriated funds.

Director: Taylor, Kimberly A. - Dir Network & Telecommunication Services

VP: Datz, Stephen H. - VP Technical Services

Ron DeSantis, Governor

CONTRACT
FOR
MOBILE COMMUNICATION SERVICES
CONTRACT NO: DMS-19/20-006C
BETWEEN
THE STATE OF FLORIDA
DEPARTMENT OF MANAGEMENT SERVICES
AND
CELLCO PARTNERSHIP D/B/A VERIZON WIRELESS

CONTRACT

This Contract is between the STATE OF FLORIDA, DEPARTMENT OF MANAGEMENT SERVICES (Department), an agency of the State of Florida with offices at 4050 Esplanade Way, Tallahassee, Florida 32399-0950, and Celco Partnership d/b/a Verizon Wireless (Contractor) with offices at 4075 Esplanade Way, Suite 226, Tallahassee, FL 32399, each a "Party" and collectively referred to herein as the "Parties." The terms "Party" and "Parties" are defined as provided in this paragraph whether capitalized or not, unless stated otherwise.

The Parties enter into this Contract (Contract) in accordance with Chapters 282 and 287, Florida Statutes (F.S.), and with the negotiated terms and conditions of Invitation to Negotiate, DMS-19/20-006, Mobile Communication Services.

SECTION 1. CONTRACT TERM AND TERMINATION

1.1 Initial Term

The initial term of the Contract will be five (5) years and will begin on the date the Contract is signed by all Parties.

1.2 Renewal

Upon written agreement, the Department and the Contractor may renew the Contract, in whole or in part, for up to five (5) renewal years in accordance with section 287.057(13), F.S., and Rule 60A-1.048, Florida Administrative Code (F.A.C.).

1.3 Suspension of Work and Termination

1.3.1 Suspension of Work

The Department may, at its sole discretion, suspend any or all activities under the Contract, at any time, when it is in the best interest of the State of Florida to do so. The Department may, at its sole discretion, suspend the Contract at any time, when in the best interest of the Department or Customer, as defined in Attachment A, Definitions and Acronyms, to do so. The Department will provide the Contractor written notice outlining the particulars of suspension and the effective date of the suspension. After receiving a suspension notice, the Contractor must comply with the notice and will cease the specified activities associated with the Contract. Notwithstanding the foregoing, the suspension of wireless services under the Contract is limited to two (2) ninety (90) day periods (a total of 180 days) per twelve (12) month period. Within ninety (90) days, or any longer period agreed to by the Contractor, the Department will either (1) issue a notice authorizing resumption of work, at which time activity will resume, or (2) terminate the Contract for convenience. If the Department fails to provide notice in accordance with this section, suspended lines will be automatically restored to active billing status on the 91st day following each suspension period. Suspension of work will not entitle the Contractor to any additional compensation. However, the Customer will remain responsible to compensate Contractor for services ordered and delivered under the terms of this Contract through the date of termination. For the avoidance of doubt, the Contractor will not be compensated for any suspended services during the time of suspension.

SO AGREED by the parties' authorized representatives on the dates noted below:

Other Features								

For specific product functionality and features, devices and calling plans/coverage compatibility, and for the latest equipment pricing, see your Verizon Government Account Manager. The above Equipment prices are effective as of 04-01-19 and are subject to change. Customers may purchase at the then current State of Florida Government Equipment Market pricing of Government promotional pricing, whichever is less at the time of purchase. Verizon may make certain equipment available at no charge; however, Verizon does not guarantee the we will always be able to offer equipment at no charge through the term of the resulting agreement. Government Subscriber Equipment Pricing listed in this market is not available for activations or upgrades on Verizon T-Mobile plans. Camera phone use or possession may be prohibited in some locations based on privacy, security, or other restrictions. Verizon's Government Equipment market is updated at a minimum quarterly, based upon equipment availability, changes in technology and market conditions. Equipment is promotional and subject to availability. Verizon reserves the right and/or to discontinue models. Pricing above is at the 2 yr price point. Existing customers can upgrade at this price 20 months into their current contract.

Exhibit ____

JEA SOLICITATION 1411794846

ENGINEERING SERVICES

FOR

RIVERTOWN – RECLAIMED WATER GROUND STORAGE TANK AND PUMPING SYSTEM

DECEMBER 11, 2024

This Exhibit, when executed, shall be incorporated in and become part of the CONTRACT (JEA RFQ Solicitation 1411794846) between JEA, and CDM Smith Inc. (Company), dated November 15, 2024, hereafter referred to as the Agreement.

PROJECT BACKGROUND

JEA will be expanding their reclaimed water service to the RiverTown area and has selected Company to perform the design, permitting, bidding, and engineering services during construction of a new RiverTown reclaimed water ground storage tank (GST) and re-pump station (Project). A preliminary site plan (included as part of the RFQ solicitation) for the Project is shown in **Attachment A**. The Project site is located off Rivertown Main Street, approximately 800 feet northwest of the Albright Court and Rivertown Main Street intersection in St. Johns County. The Project Site Parcel ID is 0009700030. JEA intends to have reclaimed water services online at the new station by the end of calendar year 2028/early 2029 prior to peak reclaimed water demands in Spring 2029.

MAJOR PROJECT COMPONENTS

JEA requests that Company provide professional engineering services for the Project to include preliminary design, final design, opinion of probable construction cost, permitting support, assistance during bidding services, engineering services during construction, and start-up support. A pre-scoping meeting was held between JEA and Company on October 31, 2024, to discuss the overall project components and scope and fee development. Based on the information provided by JEA during the scope development stage, the Project will include the following major elements:

- The design of two new, 1.5-MG (usable) pre-stressed concrete GSTs with rainfall capture system, and standard GST appurtenances for JEA reclaimed water tanks. The GST will be configured to enhance operational flexibility, able to operate in parallel. The GSTs will include a single side-wrap around staircase and bridge to connect the tanks.
- A new re-pump station building (split-face single wythe concrete masonry unit exterior walls) that will include an electrical equipment room, unisex restroom, and a mechanical pump room housing a current and future pump, chlorine residual monitoring station, and bridge crane. Each pump will be horizontal split-case, single-stage, double-suction operated on a VFD. A combination of jockey and larger pumps may be used to meet initial conditions and modifications to meet future build-out conditions. The building will be designed with a service truck access area to allow for operations

accessibility for loading and unloading and servicing of the major equipment. Pumping flow and pressure ranges will be defined as part of the 10 Percent Schematic Design phase.

- A new sodium hypochlorite chemical structure that will contain the chemical meter pumps, piping, appurtenances, two chemical storage tanks (approximately 6,000-gallon storage capacity per tank), and a containment area to provide redundancy during filling and cleaning. The new structure will include a prefabricated engineered metal building on three sides with a roof. The structure will require fire suppression system in accordance with St. Johns County (SJC) Building Code.
- Coordination of new primary FPL electrical service for the Project.
- New emergency diesel engine-driven generator and fuel tank.
- SCADA, controls, panels, and instrumentation for a fully automatic reclaimed water pumping and storage system in accordance with JEA's standards. Facility SCADA system will communicate (either wirelessly or by fiber optic cable) to JEA's Ridenour Central Control Room and include monitoring and control for the processes.
- Site paving, grading, and stormwater conveyance and stormwater storage for the site as well as the incoming access road. Company will discuss and provide recommendations from JEA's resiliency study to the proposed site.
- Final site appurtenances including fencing, gates, and landscaping in accordance with the RiverTown planned unit development (PUD) and SJC Development Code.
- Planning and coordination for the raceway to accommodate site security features including cameras, fence sensors, building access, and facility automatic gates in accordance with JEA's Standards.
- Yard piping and other piping appurtenances for the site and utilities into and out of the site. A pressure sustaining and pressure relief valve will be installed on the tank fill piping prior to the tanks and an above ground discharge flow meter and bypass flow meter and check valve.
- Perform short circuit, protective device coordination, and arc flash analysis including equipment labeling per Nation Fire Protection Association (NFPA) 70E.

Company will perform the work through the Design-Bid-Build delivery method with two separate bid phases. Bid phase (1) includes initial site work, clearing, and construction of the pre-stressed concrete GSTs and bid phase (2) includes the remaining construction activities and startup and commissioning of the station. Company anticipates delivering the Project services under the following associated tasks.

Task 1 Project Kick-Off Meeting and Data Collection

Task 2 10-Percent Schematic Design Package

Task 3 30-Percent Conceptual Design Package

Task 4 60-Percent Design Package

Task 5 90-Percent Pre-Final Design Package

Task 6 100-Percent Final Design/Issued for Bid Documents Package

Task 7 Permitting Assistance

Task 8 Bidding Assistance

Task 9 Services During Construction (Bid Phase 1) – Tank Construction

Task 10 Services During Construction (Bid Phase 2) – Remaining Construction

Task 11 Project Management and Quality Control

Task 12 Additional Engineering Services

SCOPE OF WORK

The following is a description of the services to be provided by Company. A preliminary index of drawing list is included as **Attachment B**.

TASK 1 - PROJECT KICK-OFF AND DATA COLLECTION

This task provides for the Project coordination, preparation, and participation in the Project Kick-Off Meeting at JEA-selected location and requesting and evaluating Project-specific data provided by JEA.

Subtask 1.1 - Kick-Off Meeting

Company will plan and participate in a Project Kick-Off Meeting with JEA's staff and will present a work plan strategy that addresses the expectations for the Project, lines of communication, Project participants, Project goals, critical success factors, coordination of Project activities, Project schedule, and Project design standards.

An overall schedule for implementation of the Project will be prepared. Company will undertake internal and external coordination for the meeting as well as prepare and submit the meeting agenda and meeting minutes. Final meeting minutes will be distributed to JEA.

Subtask 1.2 - Data Collection and Review

JEA shall provide the legal description, property survey, zoning and any other available data on the existing property as well as the access entrance and any other information pertinent to the Project including any environmental testing reports. Company will review the available information, and any applicable information will be incorporated into the design. Company will develop a tracking system (spreadsheet) to manage the data/information requested and received. Company will review existing and retrieved data/information and then prepare and submit via email the evaluated data/information including the need for further data/information collection.

TASK 2 - 10-PERCENT SCHEMATIC DESIGN PACKAGE

Subtask 2.1 - 10-Percent Schematic Design Report

The 10-percent Schematic Design Report will focus on finalizing the site plan, updating the hydraulic modeling efforts, finalizing the intended station phasing plan for current and future improvements (flows and pressures for planning period), and outlining the major components of the Project. The 10 Percent Schematic Design Report will also recommend the suggested number of pumps for each

planning period. Finalized detailed pumping calculations will be verified as part of the 30-percent conceptual design phase.

The 10-Percent Schematic Design Report, will include the following information:

- Project description summary.
- Description of hydraulic model (provided by JEA) and updates to address proposed improvements.
- Site layout options and recommendations – site plan finalized at 10 percent.
- Process flow diagram.
- Summary of design parameters by process.
- Discussion of project risks and development of a risk register to track throughout project.
- Discussion of intended bidding and construction phases with two contractors (1) tank contractor and (2) the remaining work.
- Opinion of probable construction cost estimate (Class 5).
- Project schedule.
- List of applicable permits and associated timeframes for submission and approvals.

Following the submittal of the 10-percent Schematic Design Report, a review meeting will be held with the JEA's staff to review and discuss review comments as well as discuss future actions including further advancement of the design to 30-percent. Company will prepare an agenda and transmit the meeting minutes.

Subtask 2.2 - Resiliency Review

Company will implement a resiliency study to establish an understanding of current and future flood risk associated with the proposed site. Company will utilize JEA's ongoing System Resiliency Program to evaluate flood risks and develop a flood elevation for use in developing minimum design criteria for the wellhead improvements, including equipment and dry floodproofing and minimum elevations for sensitive equipment, and other adaptation strategies to reduce the risk of adverse impact from severe weather events. Company will attend a one-hour call with JEA's Resiliency Team to discuss criteria for the new facility and conceptual plan for setting critical infrastructure elevations and impacts to overall site. Company will include the minimum design criteria established under this subtask and discussions with JEA as part of the 10-Percent Schematic Design Report.

Subtask 2.3 - Surveying Services

Company will be responsible for providing the services of a local surveyor for the preparation of additional surveys for the design activities including ASCE 38-02 quality level B designating subsurface utilities. The local surveyor has already performed surveys for the property site, but full survey must be performed for the site entrance road and working along the main access road. The survey for these additional areas will include boundary, topographic, tree, and easement corridor to the site area. Company will subcontract the services of a separate firm to complete utility locates and soft-digs as deemed necessary for potential underground verification of tie-in point and conflicts (a total of eight soft-digs have been budgeted under this subtask). The results of the soft-dig investigation will be used to modify the existing utilities (if needed).

Subtask 2.4 - Environmental Services

Company will subcontract the services of an environmental resource firm to complete an environmental survey of the site and access road for gopher tortoises. Should relocation of gopher tortoises and permitting be required, an amendment will be required.

TASK 3 - 30-PERCENT CONCEPTUAL DESIGN PACKAGE

Subtask 3.1 - 30-Percent Conceptual Design Report

Following approval of the 10-Percent Schematic Design Report, Company will develop a 30-Percent Conceptual Design Report, as specified herein, to be submitted to JEA for review. The 30-Percent Conceptual Design Report will provide an overview of the proposed upgrade designs, including mechanical layouts of the new process structures, yard-piping routing, final civil layout including grading and proposed stormwater management facilities and roadway improvements within the site and easement corridor to the site.

The 30-Percent Conceptual Design Report will include the following information:

- Project Description Summary.
- Site Layout.
- Process Flow Diagram.
- Summary of Design Parameters/Criteria for various Disciplines.
- Calculations/Sizing of the Major Equipment.
- Tabular Summary of Equipment Design Basis and Equipment Design Basis.
- P&ID.
- Plan Views and Major Elevation Drawings.
- Electrical Single Line Diagrams Drawings.
- Updated risk register.
- Opinion of Probable Construction Cost Estimate (Class 3).
- List of Anticipated Specifications, Table of Contents.
- Site Survey.
- Project Schedule.
- Construction Sequence.
- List of Applicable Permits and Associated Timeframes for Submission and Approvals.

Following the submittal of the 30-Percent package, a review meeting will be held with JEA's staff to review and discuss review comments as well as discuss future actions including further advancement of the design to 60-percent. Company will prepare an agenda and transmit the meeting minutes.

Subtask 3.2 - Geotechnical Investigation

Under this task, Company will subcontract the services of a geotechnical engineering firm to perform geophysical study, exploratory work, laboratory and field testing, and professional guidance in tests to

be made at test locations based on drawings and designs, including professional interpretations of exploratory and test data. The following Standard Penetration Test (SPT) field services are included.

Test Location		Test Type and Number (#)	Test Depth
1.5-MG Reclaimed Water GST No. 1	SPT-Five	Four at One at	50 ft 100 ft
1.5-MG Reclaimed Water GST No. 2	SPT-Five	Four at One at	50 ft 100 ft
Pump Building	SPT - Two		20 ft
Sodium Hypochlorite Building	SPT - Two		20 ft
Diesel Generator/Fuel Tank	SPT - One		20 ft
Miscellaneous	SPT - Two		20 ft
Stormwater Pond Area Soil Penetration Test		2 Auger Borings	10 ft
Stormwater Pond DRI Test		DRI Test – One	N/A
Paved Roadways		4 Auger Borings	6 ft

A draft and final Geotechnical Report will be prepared under this subtask by the Company's subconsultant and will be reviewed by Company's geotechnical team. The report will include the following: observed site conditions as they relate to the anticipated construction; field and laboratory test procedures used and results obtained; encountered subsurface conditions, geotechnical engineering evaluation of the site and subsurface conditions (including groundwater) with respect to the anticipated construction; settlement analyses for the HSP station building, chemical building, and diesel generator/fuel tank, recommendations for foundation preparation and design parameters, including recommendations for the ground storage tank subsurface preparation; recommendations for dewatering; use of on-site material as fill or backfill, and recommendation or testing during site preparation and earthwork construction. This work will be performed by one of Company's subconsultants for this Project. Company's PM and other appropriate staff will coordinate with the subconsultant, provide the parameters and bounds of this work, liaison between JEA and the subconsultant, if necessary, and receive and review the initial draft reports.

TASK 4 - 60-PERCENT DESIGN PACKAGE

Following approval of the 30-Percent Design Package, Company will provide production and submittal of the overall 60-Percent Design Package for the JEA. This effort includes the development across the disciplines for the 60-percent design drawings, technical specifications, additional advancements to process mechanical in accordance with P&ID, sequence of construction and updated civil/site drawings. The 60-Percent Design Package will include the following information:

- 60-percent design drawings.
- 60- percent design technical specifications.
- Updated risk register.
- Updated Schedule including Early Work Package for Site Work and Tank Construction.
- Updated Opinion of Probable Construction Cost (Class 2 Level) with cost-variance analysis.

Following the submittal of the 60-Percent Design Package, JEA's staff will review and send review comments as well as discuss future actions including the advancement of the design. An in-person meeting will be held to review JEA's comments. Company will prepare an agenda and transmit meeting minutes, capturing additional comments or action items required to advance the project. Comments discussed at the meeting will be incorporated into future deliverables.

TASK 5 - 90-PERCENT DESIGN PACKAGE

Following the approval of the 60-percent design documents and based on the direction received from JEA, Company will advance the design to the 90-percent design documents. JEA will be responsible for providing the Front-End Documents (Division 0) with Company providing necessary information and coordination with subsequent specifications. A final constructability review will also be performed at this milestone. Copies of the 90-percent design documents, as specified herein, will be submitted to JEA for review. The submittal will include the following information:

- 90- percent design drawings.
- 90- percent design technical specifications.
- Final design calculation notebook.
- Updated risk register.
- Updated opinion of probable construction cost estimate (Class 1) with variance report.
- Updated schedule.

Following the submittal of the 90-percent design package, the JEA's staff will review and send review comments as well as discuss future actions including the advancement of the design. An in-person meeting shall be held to review the JEA's comments. Company will prepare an agenda and transmit meeting minutes, capturing additional comments or action items required to advance to project. Comments discussed at the meeting will be incorporated into future deliverables.

TASK 6 - 100-PERCENT FINAL DESIGN/ISSUED FOR BID DOCUMENTS PACKAGE

Subtask 6.1 - 100-Percent Design Package

Following discussion of the review comments from the 90-percent design, Company's internal constructability review, regulatory approval under Task 7, and based on mutually agreed upon changes thereafter, Company will advance the design to the 100-Percent Design Package. This set will serve as the final set of documents for JEA's review prior to issuing the Issued for Bid Documents Package (subtask 6.2, below). JEA will be responsible for providing the Final Front End Documents (Division 0) with Company providing the necessary information and coordination with subsequent specifications. The submittal will include the following information:

- 100-percent design drawings.
- 100-percent design technical specifications.
- Final risk register (used to develop Supplemental Work Allowance for JEA bid).
- Opinion of probable construction cost estimate (Class 1 Level) with cost-variance analysis.
- Draft bid form.

Following the submittal of the draft 100-Percent Design Package, a final design review meeting will be held with JEA's staff to receive and discuss final review comments to finalize the design package and prepare for bidding. Company will prepare an agenda and transmit meeting minutes from this meeting. Company will incorporate the final review comments into the final Issued for Bid Design Package.

Subtask 6.2 - Issued for Bid (IFB) Documents Package – Early Work and Tank Construction

Company will prepare signed and sealed IFB Design Documents for the initial site clearing and tank construction work. JEA will be responsible for providing updates to the final Front-End Documents (Division 0) and advertising for the bids. The following documents will be provided as part of the final IFB Documents Package:

- Bid set drawings.
- Bid set technical specifications.
- Final bid form.

Subtask 6.3 - Issued for Bid (IFB) Documents Package – Remaining Construction Activities

Company will prepare signed and sealed IFB Design Documents following the completion of the 100-Percent Design Package submittal for the work not included in the original site clearing and tank construction documents. JEA will be responsible for providing updates to the final Front-End Documents (Division 0) and advertising for the bids. The following documents will be provided as part of the final IFB Documents Package:

- Bid set drawings.
- Bid set technical specifications.
- Final bid form.

TASK 7 - PERMITTING ASSISTANCE

This task includes the services required for preparing and submitting appropriate permit application forms and supporting documentation, attending meetings with regulatory agencies and responses to requests for additional information as specified herein. Currently, it is understood that the following regulatory agencies in each subtask are required for the project.

Subtask 7.1 - SJC Development Review Committee Review

Company will hold a preliminary application meeting with SJC DRC. The purpose of this meeting will be to describe the project and review the proposed site plan and garner concurrence on requirements of SJC. Company will assist JEA with applying for the SJC DRC permit, which will be required for both sets of bidding documents. This assistance will include preparing and submitting the permit application including the associated exhibits and drawings. SJC DRC may submit a request for additional information (RAI). Preparation of responses for one RAI from SJC DRC has been budgeted. Comments received from SJC DRC that impact the design drawings will be incorporated into the 100-Percent Design Package (if not before) prior to their issuance to JEA for bid advertising. Each transmittal to SJC DRC will be copied to JEA.

Subtask 7.2 - Florida Department of Environmental Protection (FDEP) Minor Modification (Blacks Ford WRF)

Company will coordinate with JEA and participate in an initial contact with FDEP to inform them of the project. Company will assist JEA with applying for the FDEP Minor Modification permit, which will include preparing and submitting the permit application including the associated exhibits and drawings. FDEP may submit a RAI. Preparation of responses for one RAI from FDEP has been budgeted. Comments received from FDEP that impact the design drawings will be incorporated into the 100-Percent Design Package (if not before) prior to their issuance to JEA for bid advertising. Each transmittal to FDEP will be copied to JEA.

Subtask 7.3 - St. Johns River Water Management District (SJRWMD)/FDEP Environmental Resource Permit (ERP)

Company will hold an initial pre-application meeting with SJRWMD/FDEP to discuss the ERP permitting. Company will assist JEA with applying for the ERP, which will include preparing and submitting the permit application including the associated exhibits and drawings. SJRWMD/FDEP may submit a RAI, and preparation of responses for one RAI from SJRWMD/FDEP has been budgeted. Comments received from SJRWMD/FDEP that impact the design drawings will be incorporated into the 100-Percent Design Package (if not before) prior to their issuance to JEA for bid advertising. Each transmittal to SJRWMD/FDEP will be copied to JEA.

Subtask 7.4 - SJC Building Department

Company will provide signed and sealed drawings to the awarded Contractor for them to use to obtain the required SJC building permit(s). Company will provide responses for one RAI. The Contractor is responsible for submitting and filling out the applications and all coordination efforts with SJC.

TASK 8 - BIDDING ASSISTANCE

Subtask 8.1 - Bidding Assistance

This task provides for Company services during the bidding phases for the Project. Company will perform the work through the Design-Bid-Build delivery method with two separate bid phases. Bid phase (1) includes initial site work, clearing, and construction of the pre-stressed concrete GSTs and bid phase (2) includes the remaining construction activities, startup and commissioning of the station. Under this subtask, the following services will be provided by Company for each bid phase:

1. Company's PM will attend the pre-bid conference along with JEA staff.
2. Interpret and/or clarify construction contract documents to potential bidders' technical questions.
3. Support JEA with Drawing and/or Specification updates for addenda issuance. JEA will coordinate and issue the addenda.

Note that JEA will be responsible for coordinating and issuing all addenda as well as conducting the bid opening. Company is not required to attend the bid opening for the Project.

Subtask 8.2 - Conformed Contract Documents

After the Contract has been awarded to the Contractor by JEA, and after directive issued by JEA, Company will develop Conformed Documents (technical specifications and drawings only). Company will

combine drawing and specification modifications by addenda into the Conformed Documents. After the documents are conformed, Company will provide the Conformed Contract Documents to JEA and the Contractor. In addition, a digital version of the Conformed Documents (CAD and .pdf) will be submitted to JEA and Contractor. Bidding assistance services end with issuance of the Award of Contract and issuance of Conformed Contract Documents to JEA.

TASK 9 - SERVICES DURING CONSTRUCTION – BID PHASE I – TANK CONSTRUCTION

Subtask 9.1 - Pre-Construction Meeting

Company staff will attend and participate in a pre-construction meeting to answer technical questions. Company will prepare meeting minutes of the pre-construction meeting and provide these minutes to JEA for distribution to the attendees.

Subtask 9.2 - Monthly Site Visits and Monthly Status Meetings

Company's project manager (PM) (or JEA-approved substitute) and project engineer will visit (or walk through) the site prior to the start of each progress meeting (a total of five meetings have been assumed) to observe, as an experienced and qualified design professional, the progress and the quality of the executed work of the Contractor and determine, in general, if such work is proceeding in accordance with the Contract Documents. The Company's PM will identify errors or deficiencies in the work observed during the walk-through, during the progress meeting, and in the site trip reports. Additionally, the discipline lead, or equally qualified professional from the following disciplines will make site visits, as required, to evaluate activities related to their specific area of expertise: structural (one visit). These site visits will be conducted to observe construction activity, evaluate conformance with the Contract Documents, and resolve design related issues with the tank contractor. Site visit reports and construction progress minutes will be produced and submitted to JEA to document observations during the site visits and discussions/decisions occurring during the progress meetings.

Subtask 9.3 - Shop Drawing Submittal Reviews

Under this task, Company will assist JEA by providing review of technical documents submitted by the Contractor. The project budget is estimated based on approximately ten shop drawings (A and B submittals). The basis of this submittal list is based on what is anticipated on the project and previous similar work for the JEA. Shop drawings from the tank Contractor will be submitted electronically to the Company and JEA concurrently to facilitate review of these submittals. Shop drawing logs will be maintained by the Company and copies will be provided to document receipt and return of the submittals.

Subtask 9.4 - Request for Information (RFIs)

Under this task, Company will respond to Contractor RFIs (up to five) related to the Contract Documents. RFIs from the Contractor will be submitted electronically to the Company and JEA concurrently to facilitate review of these RFIs. RFI logs will be maintained by the Company and provided to document receipt and return of the RFIs.

Subtask 9.5 - Substantial and Final Completion/Acceptance

Prior to substantial completion, the Company will review watertightness testing and settlement criteria. Company will participate in a substantial completion walk-through event and prepare a written punch list for the items remaining in the Contract. The walk-through will occur with JEA staff, Company, and the Contractor. Once the punch list items have been completed by the Contractor, Company will

conduct one final completion walk-through with JEA and the Contractor to confirm that the punch list items have been completed and recommend issuance of final completion/acceptance.

Subtask 9.6 - Record Drawings Preparation and Submittal

Company, using red-lined drawing mark-ups prepared by the tank CONTRACTOR, final record drawings will be incorporated and included in the overall record drawing set noted in Subtask 10. 9.

TASK 10 - SERVICES DURING CONSTRUCTION – BID PHASE II – REMAINING CONSTRUCTION

Subtask 10.1 - Pre-Construction Meeting

Company staff will attend and participate in a pre-construction meeting to answer technical questions. Company will prepare meeting minutes of the pre-construction meeting and provide these minutes to the JEA for distribution to the attendees.

Subtask 10.2 - Monthly Site Visits and Monthly Status Meetings

Company's project manager (PM) (or JEA-approved substitute) and project engineer will visit (or walk through) the site prior to the start of each progress meeting (a total of 20 meetings have been assumed for construction activities including tank construction and remaining construction) to observe, as an experienced and qualified design professional, the progress and the quality of the executed work of the Contractor and determine, in general, if such work is proceeding in accordance with the Contract Documents. The Company's PM will identify errors or deficiencies in the work observed during the walk-through, during the progress meeting, and in the site trip reports. Additionally, the discipline lead, or equally qualified professional from the following disciplines will make site visits, as required, to evaluate activities related to their specific area of expertise: electrical (two visits), instrumentation (two visits), structural (two visits), architectural (two visits), process and building mechanical/HVAC/plumbing (one visit). These site visits will be conducted to observe construction activity, evaluate conformance with the Contract Documents, and resolve design related issues with the Contractor, particularly related to equipment installation, electrical system, and control system installation and programming. Site visit reports and construction progress minutes will be produced and submitted to JEA to document observations during the site visits and discussions/decisions occurring during the progress meetings.

Subtask 10.3 - Shop Drawing Submittal Review

Under this task, Company will assist JEA by providing review of technical documents submitted by the Contractor. The project budget includes time for approximately 283 shop drawings (a total of 183 initial shop drawing review and 100 resubmittals). The basis of this submittal list is based on what is anticipated on the project and previous similar work for the JEA. Shop drawings from the Contractor will be submitted electronically to the Company and JEA concurrently to facilitate review of these submittals. Shop drawing logs will be maintained by the Company and copies will be provided to document receipt and return of the submittals.

Subtask 10.4 - Request for Information (RFIs) and Design Clarifications

Under this task, Company will respond to Contractor RFIs (up to 45) related to the Contract Documents and issue up to three design clarifications. RFIs from the Contractor will be submitted electronically to the Company and the JEA concurrently to facilitate review of these RFIs. RFI logs will be maintained by the Company and provided to document receipt and return of the RFIs.

Subtask 10.5 - Asset Management Information Submittals

Company will review Contractor-submitted Vendor Asset Management information for accuracy during the project construction. JEA will be responsible for providing Company with the Microsoft Excel-based template that will make it seamless for JEA to incorporate asset management information.

Subtask 10.6 - Review and Approval of Vendor Operations and Maintenance (O&M) Manuals

Company will review and comment on the Final Vendor O&M Manuals for the installed equipment. For this effort, Company has assumed up to ten separate manuals for various pieces of equipment, some of which could be in combination with other associated equipment. Company will provide appropriate language within the specifications to be consistent with the referenced number of separate manuals. If individual O&M manuals are deemed acceptable by the Company, they will be approved in writing. If Company deems any specific O&M manual to be deficient and/or in error, Company will notify JEA, in writing, as to the noted deficiencies and/or errors. This will include up to one additional resubmittal review.

Subtask 10.7 - Start-Up and Performance Testing

The contractor will be responsible for arranging and conducting the startup test for major equipment. Company will review the submitted test plans and test reports from the suppliers for the pump equipment testing and review the certified performance testing results. The witness, start-up and performance testing will be conducted by Company's discipline engineer representatives for process mechanical, HVAC, electrical and instrumentation.

Company has assumed the following personnel and on-site time duration for startup/performance testing is below. Any additional efforts shall be discussed with JEA during the services during construction phase and usage of Task 11 – Additional Engineering Services.

1. Process/Mechanical Engineer – estimated total of 40 labor hours for up to four site visits.
2. Electrical Engineer – estimated total of 40 labor hours for up to three site visits.
3. Instrumentation and Controls Engineer – estimated total of 20 labor hours for up to two site visits.

Subtask 10.8 - Substantial and Final Completion/Acceptance and FDEP Certification

Company will participate in two substantial completion walk-through events and prepare a written punch list for the items remaining in the Contract. The first walk-through will occur with JEA staff, Company, and the Contractor. The second walk-through will occur with JEA, Company, and the Contractor to check that the work has been corrected and is ready for a final inspection and approval. Once the punch list items have been completed by the Contractor, Company will conduct one final completion walk-through with JEA and the Contractor to confirm that the punch list items have been completed and recommend issuance of final completion/acceptance. Upon substantial completion, and in accordance with permit requirements, Company will prepare the FDEP and ERP certifications of compliance, as appropriate, with the necessary attachments. JEA will sign as JEA and Operating Entity, if required. If additional walkthroughs are required, Company reserves the right to seek additional compensation.

Subtask 10.9 - Record Drawings Preparation and Submittal

Company, using red-lined drawing mark-ups prepared by the CONTRACTOR, will prepare and submit to JEA record drawing, signed/sealed and stamp signed by the Company as well as one electronic copy in ACAD (.dwg) and PDF (.pdf). The signed and sealed record drawing sets will be provided with the record drawing stamp and the discipline Engineer of Record P.E. stamp.

TASK 11 - PROJECT MANAGEMENT AND QUALITY CONTROL

Activities performed under this task consist of those general functions required to maintain the project on schedule, within budget, and that the quality of the work products defined within this Scope of Work are consistent with Company's standards and JEA's requirements. Following the issuance of the NTP from JEA, Company will perform a project planning, scope review meeting and a project health and safety plan. Additionally, Company maintains a Quality Management System (QMS) on all projects. This task includes monthly invoicing, progress reporting, and schedule updates to the JEA. Preparation and updates to the cash flow will be prepared and tracked each month.

Company will hold Technical Review Committee (TRC) and Project Quality Meetings, for quality assurance and control, prior to transmitting documents to JEA. TRC meetings will be held at the 10-percent, 30-percent and 60-percent design milestones. The Company will also perform a constructability review at the 90-percent design milestone and a comprehensive final design review at the 100-percent. Company will maintain and submit to JEA on a periodic basis a comment and response spreadsheet that will track JEA comments and Company's response and intended actions to address the comments. Company's subconsultants will be integrated in the quality management process.

TASK 12 - ADDITIONAL ENGINEERING SERVICES

This task is for allowances and optional additional engineering services during design and construction required for the project and as requested by JEA. As additional services are identified, the Company will notify JEA in writing and prepare a document summarizing the requests along with any schedule and/or cost impacts. JEA will review and authorize funding through these additional services. Changes which go beyond the allowance set forth in Task 12 will be handled through a formal amendment to the Contract. The said services will only be performed at the expressed written direction of JEA.

DELIVERABLES

1. Four copies each of 10-percent and 30-percent design packages in electronic format (PDF and hard copy).
2. Draft and final Geotechnical Report.
3. Drawings: Three half size (11" x 17") for 60-percent, 90-percent, and 100-percent (PDF and hard copy).
4. Specifications: Three copies for 60-percent, 90-percent, and 100-percent (PDF and hard copy).
5. Confirmed Construction Documents: Three half size (11" x 17") and four full size (22" x 34") hard copies signed and sealed and in PDF format. Technical specifications, three signed and sealed hard copies (PDF and hard copy).

6. Opinion of Probable Construction Cost and Variance (PDF and EXCEL Format) for 10-percent, 30-percent, 60-percent, 90-percent and 100-percent submittal.
7. Construction Record Drawings: One signed and sealed full size (22"x 34") and in PDF and ACAD *.dwg format.
8. Meeting agendas and minutes.
9. Signed and sealed site survey sheets.

JEA RESPONSIBILITIES

JEA will be responsible for the following listed items and other items as specifically included in this Scope of Work:

- Provide the available site information and other requested data to Company, a list of requests will be provided at the project kickoff meeting.
- Provide Company latest up-to-date available comprehensive Southeastern Reclaimed Water hydraulic model, results, pump curve and pertinent information.
- Provide associated Resiliency Plan and assessment of flood vulnerability and risk associated with current and future flood scenarios.
- Provide permit application fees.
- Provide coordinated Front-End Documents (Division 0).
- Provide bid evaluation and recommendation of award letter for Contractor(s).
- Review and approve Contractor's pay requests.
- Review and approve change orders during construction.

ASSUMPTIONS

Company has made the following assumptions to determine the Scope of Work and develop fee estimates.

1. Company shall be in compliance with the latest (2025) JEA Standards through the Issued for Bid Design Package on the project. Any changes to standards that impact the timing of the project beyond the Issued for Bid stage will be negotiated under an amendment to update, accordingly.
2. Design decisions and directions in this work will be fixed after the 30-percent conceptual design meeting with JEA. Any changes to design direction or substantial modifications will be discussed with JEA and Company and implications to scope, schedule, and budget. JEA will be notified in writing of changes to the baseline scope, schedule, or budget established in the 30-percent phase.
3. SCADA integration and programming will be performed and coordinated by JEA.

4. Effort for design includes reuse of existing survey performed by proposed survey subconsultant, should new survey of the site be requested or required, additional fees and schedule extension will be necessary.
5. Based on information received to date, the wetland impacts to the project, including the access road, have already been permitted and appropriately mitigated. Company does not anticipate that the project will require additional wetland delineation or mitigation.
6. Construction duration for the first bid phase is estimated at 12-months, and construction duration for the second bid phase is estimated at 20 months.
7. Company has included additional efforts under Task 3.2 for geophysical study for the site to explore suspected anomalies in the limestone that may show potential for soil loss. The work will be completed utilize 3x Electrical Resistivity Imaging (ERI) survey in the field and results would be included in the geotechnical report.
8. This design assumes that the OWNER will perform all PLC and human-machine interface (HMI) programming and development, provide PC Workstation and all work associated with completing the radio study and construction of the radio communication antenna to connect to JEA's remote SCADA network. Company will coordinate with JEA during design for the preferred location of the antenna on the design drawings.

PROJECT SCHEDULE

It is anticipated that the work will take 41 months to complete, starting within two weeks of receipt of a formal notice to proceed (NTP). The estimated schedule by task is shown below. Company will prepare an updated detailed schedule within the first thirty (30) calendar days after Notice to Proceed.

Task and Description	Estimated Duration
Task 1 – Project Kick-Off Meeting and Data Collection	14 Days
Task 2 – 10 Percent Schematic Design Package	2 Months
Task 3 – 30-Percent Conceptual Design Package	3 Months
Task 4 – 60 Percent Design Package	3.5 Months
Task 5 – 90-Percent Design Package	1.5 Months
Task 6 – 100 Percent Final Design/Issued for Bid Documents Packages	1 Month
Task 7 – Permitting Assistance	Concurrent with Design Phase 4 Months (each bid phase)
Task 8 – Bidding Assistance	
Task 9 – Services During Construction – Tank Construction	12 Months
Task 10 – Services During Construction – Remaining Construction	20 Months
Task 11 – Project Management and Quality Control	Across Project Duration As Needed
Task 12 – Additional Engineering Services	

COMPENSATION AND PAYMENT

Compensation for the services described herein shall be made in accordance with the Agreement between JEA and Company. The work described in Tasks 1 through 11 will be completed as lump sum in the amount of **\$1,851,440**. A not-to-exceed optional task in the amount of \$50,000 is established for Task 12 – Additional Engineering Services for use by JEA. The total not-to-exceed of this Agreement is **\$1,901,440**. Company will submit monthly invoices accompanied by written monthly status reports. Company will submit monthly invoices based on the percentage of the work completed for the period of the invoice for the lump sum portions (Tasks 1 – 11). For the not-to-exceed Task 12, invoices will be submitted based on time incurred and labor billing rates plus direct costs and subconsultants. Subconsultant will be invoiced at cost plus 5% markup. A detailed manhour fee table and associated JSEB subconsultants is included in **Exhibit 1**.

AWG Tariff Disclaimer:

In the event that any new tariffs, duties, taxes, or other governmental charges are imposed, or existing tariffs, duties, taxes, or charges are increased, modified, or reclassified by any governmental authority (collectively, Tariff Changes) after the effective date of an order, and such Tariff Changes directly increase the cost of products supplied by American Wire Group, AWG reserves the right to adjust the prices of the affected goods to reflect these increased costs. AWG will provide the Customer with written notice of any such Tariff Change, the corresponding price adjustment, and the effective date of such adjustment.

Please quote prices for items described in specific unit of measure and furnish information requested. Freight to be included in the unit cost, FOB destination unless otherwise specified by Respondent. Please notate Manufacturer and Manufacturer Part Number (where applicable) in Quote. Lead time is defined as the number of days from receipt of order to delivery of material on site. JEA accepts electronic invoices from Vendors offering discounted early payment terms.

This is not a Purchase Order. Email quote to Buyer. Form must be signed, or quote may be rejected.

Basis of Award: Unless otherwise stated, JEA intends to award based on lowest total cost.

By submitting this form, Respondent is affirming that they comply with all JEA and City of Jacksonville ordinances, policies and procedures regarding ethics and they have not been convicted of a public entity crime as listed on the Convicted Vendor list maintained by the Florida Department of Management Services.

JEA Reserves the Right:

To reject any Quote and instead award to a non-lowest cost Respondent in the instance a disproportionate amount of lead-time to cost exists.

To revise to mutually agreed upon terms with the awarded Respondent in advance of PO issuance.

To reject any responses that JEA deems is not in compliance with JEA standards or not in the best interests of JEA.

To accept or decline all or part of this Request for Quote.

To reject any Respondent whose Contract with JEA was terminated for default within the last two (2) years.

ITEM # CONVERSE, TRIPLEX CONDUCTOR 600V SECONDARY TYPE URD CABLE - ALUMINUM CONDUCTOR

Applications

Used for secondary distribution and underground service at 600 volts or less, either direct burial or in ducts.

Construction

Conductors are stranded or compressed 1350-H19 aluminum conductors, cross-linked polyethylene insulation. Insulated conductors surface printed, neutral triple yellow striped. Two phase and one neutral conductor twisted together (LH lay) to produce the triplex cable configuration, or parallel if so specified. Black neutrals may be specified if desired.

Standards

Secondary URD triplex conductor 600V cable meets or exceeds the following ASTM specifications.

B-230 Aluminum Wire, 1350-H19 for Electrical Purposes.

B-231 Aluminum 1350 conductors, Concentric-Lay-Stranded.

B-786 19 Wire combination unilay-stranded Aluminum Conductors for subsequent insulation.

B-901 Compressed round stranded Aluminum Conductors using single input wire construction.

Secondary UD triplex conductor 600V cable meets or exceeds all applicable requirements of ICEA S-105-692.

"USE-2" per UL 854 available upon request.

Options

Cable in Duct (CIC)

Abrasion Resistant

Ampacity

90°C conductor temperature, 20°C ambient, RHO 50, 100% load factor for three conductors triplex with neutral carrying only unbalanced load. Technical data for cable with solid black neutral is identical to yellow extruded stripe data. All yellow extruded stripe cable is XLP insulation. To determine correct ampacity by conductor size, please consult the National Electric Code, the latest edition.

Lead Time

Lead times are confirmed upon receipt of a complete purchase order and can be subject to change due to special circumstances. Lead times do not include delivery times.

End User

All submitted purchase orders must contain valid and complete end-user information, including full address. Incomplete or invalid information may delay the processing of the purchase order.

Freight

Prices include ground freight prepaid within the 48 contiguous United States via SEL's preferred carrier. Buyers may request expedited delivery service at their expense by submitting a collect account or by including added charges to their invoice. Orders with multiple items may be shipped from multiple locations and may arrive in more than one delivery.

Manuals

Equipment manuals are provided free on CD with relays. If a hard copy manual is required, this should be specified at the time of order as a separate line item and may be subject to freight charges.

Warranty

SEL is pleased to offer our 10-Year Product Warranty. Please visit <https://selinc.com/company/quality/>. Third-party products included in this Quote are not covered by SEL's warranty. SEL will pass on the original manufacturer warranty to the Buyer if possible.

Payment Terms

Net 30 or per the approved credit terms with SEL. SEL may require additional credit information or prepayment prior to acceptance of a purchase order if credit terms have not been established or are insufficient to cover this purchase.

Quote Terms

Prices are based on quoted quantities and may change if quantities change. Prices do not include sales tax.

Information within this quotation is for your evaluation purposes only. Disclosure of this information outside of your company is prohibited.

Purchase order modifications or cancellations may result in additional fees and adjustment to delivery schedule. To prevent delays, please carefully review the part number descriptions listed in the above table to ensure ordering options will meet requirements.

SEL values your right to privacy, and uses personal data provided to SEL only for our legitimate business interests. More information may be found at the [SEL Privacy Policy](#). You may exercise your rights related to your personal data by contacting the SEL Data Protection Officer at data_protection@selinc.com.

All sales are subject to the attached SEL Sales Terms, available on SEL's website (<https://www.selinc.com/termsandconditions/unitedstates>) and incorporated herein by reference unless Buyer and SEL has a Master Agreement or signed negotiated terms on file.

Certification of Single Source or Emergency Procurement

Please use this form to certify a Single Source or Emergency Procurement complies with the requirements of the JEA Procurement Code. The JEA Procurement Code defines a Single Source and Emergency Procurement as follows:

3-112 Single Source

A Contract may be awarded for Supplies or Services as a Single Source when, pursuant to the Operational Procedures, the Chief Procurement Officer determines that:

- (a) there is only one justifiable source for the required Supplies or Services. Examples include: highly specialized equipment, exclusive intellectual property, membership to an organization.
- (b) the Supplies or Services must be a certain type, brand, make or manufacturer due to the criticality of the item or compatibility within a JEA utility system, and such Supplies or Services may not be obtained from multiple sources such as distributors. Examples include: OEM, JEA Standard.
- (c) the Services are a follow-up of Services that may only be done efficiently and effectively by the Vendor that rendered the initial Services to JEA, provided the Procurement of the initial Services was competitive;
- (d) at the conclusion of a Pilot Project under Section 3-118 of this Code, the Procurement of Supplies or Services tested during the Pilot Project, provided the Vendor was competitively selected for the Pilot Project.

3-113 Emergency Procurements

In the event of an Emergency, the Chief Procurement Officer may make or authorize an Emergency Procurement, provided that Emergency Procurements shall be made with as much competition as practicable under the circumstances. A written Determination of the basis for the Emergency and for the selection of the particular Vendor shall be included in the Procurement file.

For purposes of this Section 3-113, an "Emergency" means any one of the following:

- (a) a reasonably unforeseen breakdown in machinery;
- (b) an interruption in the delivery of an essential governmental service or the development of a circumstance causing a threatened curtailment, diminution, or termination of an essential service;
- (c) the development of a dangerous condition causing an immediate danger to the public health, safety, or welfare or other substantial loss to JEA;
- (d) an immediate danger of loss of public or private property;
- (e) the opportunity to secure significant financial gain, to avoid delays to any Governmental Entity or avoid significant financial loss through immediate or timely action; or (f) a valid public emergency certified by the Chief Executive Officer.

Please provide the following information:

Vendor Name:

Schweitzer Engineering Laboratories, Inc.

Description of Services or Supplies provided by Vendor:

SEL is OEM. JEA Telecom provides communications for the BES (Relay Tele-protection, RTUs, and SCADA). JEA replaced the SONET (Synchronous Optical Network) beginning in 2016 to a Ethernet based technology (Carrier Ethernet) as SONET was no longer an available technology option. The sophistication of the new SEL 411 and 421 Relays are complex for the current RFL multiplexer. The JEA Electric preferred multiplexer is the SEL ICON specifically designed for SEL Relay devices. The project scope includes replacing all the current BES MUX (multiplexer) devices with the SEL ICON over a four-year period beginning in FY26'. The SEL ICON MUX will provide communications solely for BES.

Regular Agenda Award #1 - Supporting Documents 12/18/25

Certification:

I the undersigned certify that to the best of my knowledge, no JEA employee has, either directly or indirectly, a financial interest in this Single Source Emergency Procurement, and

I the undersigned certify that this procurement meets the requirements of a (choose one of the following):

☒ **Single Source Procurement.** Please state which subsection of Section 3-112 above applies to this Single Source Procurement:

Is this Single Source also a Ratification? ☐ Yes ☐ No If yes, explain

OR

☐ **Emergency Procurement** - Please state which subsection of Section 3-113 above applies to this Emergency

Is this Emergency also a Ratification? ☐ Yes ☐ No If yes, explain

Signature of JEA Business Unit Chief (or designee) *William Garry Baker*

Name of JEA Business Unit Chief (or designee) William Garry Baker, Sr. VP Electric Delivery

This certification shall be attached to the Purchase Order when it is routed for approval. A Single Source or Emergency Procurement shall be reported to the JEA Board in accordance with Section 1-110 of the JEA Procurement Code.

Mr. Brian Quarterman
JEA – Electric Systems Engineer
Subject: Northside Generating Station Reconductor Options

December 12, 2025

Ferreira-UTEC is pleased to provide pricing of two repair options for the JEA team, where the extent of damage has dictated replacement of cable and terminations. In our findings, there are two options for the JEA team, both of which would require fulfillment of the minimum amount of cable that has been quoted from Okonite.

Option 1 Rebuild with 138kV components: (Timeline of 5-6 months for materials) **\$2,461,957.00**

- Replacement of cable from termination to termination ~820' (3000' cable order)
- Utilizing the recommended original installation process from Okonite, no direct buried splice needed
- Rebuild of trifurcator and riser pipes at unfaulted terminal end
- Installation of (6) new 138kV terminations

Option 2 Rebuild with 138kV components: (Timeline of 5-6 months for materials) **\$2,399,671.00**

- Replacement of cable from new direct buried splice to faulted end, footage unknown (3000' cable order)
- Installation of new 138kV splice
- Installation of (3) new 138kV terminations
- Civil pricing was included at \$120,000 as a place holder, lump sum will require a field visit

Ferreira UTEC does believe the best method for repair would be end to end, leaving your existing subgrade conduits intact without disturbing potential conflicts within the station. Timeline for 161kV components are slightly longer and Okonite determined there is no issue restoring the circuit using shorter lead time materials at 138kV classification.

Lead time for 230kV terminations is 8-12 weeks longer so we propose the use of the most readily available package and would recommend use of the 138kV components as outlined above. Please advise what testing parameters JEA would like to include with either option, and we will include in a final package proposal. If JEA would like to include spare cable or terminations, we can add these into an updated proposal upon request.

We appreciate the opportunity to support the JEA team and have put a great deal of time into review with industry experts and trusted manufacturers. Please let us know if you have any questions or would like to review with a call.

Respectfully,

Charles Vandenburg Jr.

KINETRICS' PROPOSAL TERMS	9
KINETRICS – STANDARD TERMS AND CONDITIONS.....	11

INTRODUCTION:

This proposal is in response to a request from Charles Vandenburg of Ferreira UTEC for commissioning testing of one 3-phase 138 kV rated HPFF insulated cable circuit located in Jacksonville, FL. The circuit details are outlined in **Table 1: Cable Circuit Details & Test Details**. The expected test date is sometime Q2 2026.

EST. TEST PARAMETERS										
Circuit	No of Cond/φ	No accessories/φ			Est. Length [ft]	Est. Cap. [nF]	# RTS	Voltage [kV]	Current [Amp]	Frequency [Hz]
		GIS	JNT	AIS						
1 – 138 kV	1	0	0	2	820	87	1	135	9.9	133.8

Table 1: Cable Circuit Details & Test Details

The commission testing with PD measurements shall be performed in accordance with Client Specification and with CIGRE TB 841, with IEEE 400.3 and with CIGRE TB 728 (WG B1.28).

Furthermore, it is assumed all works are performed in one single equipment and single personnel mobilization.

SCOPE OF WORK & RESPONSIBILITIES:

The scope of work is as follows:

- AC HiPot & PD Commissioning Testing at 135kV (1.7 U₀) for 60 minutes as per Client Specifications and with CIGRE TB 841. The voltage applied shall be sinusoidal and have a frequency of 20Hz to 300Hz.
- Power Factor (Tanδ) Tip-Up Tests
- Reporting on the results obtained

Kinectrics is responsible for:

- Mobilization of HV Resonant Test Set(s) and qualified personnel to site
- Mobilization of the Tan δ trailer
- Provision of a suitable diesel generator and diesel fuel.
- Delivery of project specific work instruction (PSWI) including a test plan and a draft test schedule. This will be delivered after receipt of Delivery of a Purchase Order (PO) or Contract or Letter of Intent.

The Client is responsible for:

- JIT installation tests, i.e. prior cable pulling, after pulling each section, and after jointing and terminations.
- Secure a safe location to store the RTS units prior to and after completion of testing.
- Proper ground conditions for placing RTS unit(s) and diesel generator(s) at the test location. This may involve laying out steel plates and/or sufficiently packing the soil.
- If required, supply Oil Spill Containment for each RTS trailer and for the generator(s).
- Obtain any permits required for testing including lock-out, tag-out procedures if required.
- Preparation of the cable system for testing. For this project, this includes:
 - Disconnecting the cable system from the grid and temporarily ground the cable system at both ends as required
 - Permitting and safe access to the cable system under test
 - Removal of SVLs from link boxes for testing & re-inserting SVLs after
 - Reconfiguring link box grounding as required
- Supply a Manlift and operator at termination locations as required
- Supply a Forklift and an Operator to offload equipment from Kinectrics RTS Trailer(s) at the test location as required.

- Inform Kinectrics of local site-specific training needed prior to mobilizing to site – Note: Up to two hours of training and site orientation is included in the proposed pricing – Additional time will be charged as noted below.
- Provide crew to perform adequate safety watch during the high voltage test.
- Customer responsible to safeguard the cable under test.
 - Customer will provide and install sufficient fencing or barriers to exclude personnel from the test area as required in conjunction with other security measures to be agreed.
- Support for testing activities – This includes:
 - Safe manhole ingress and egress for jacket integrity testing and off-line partial discharge testing where applicable – including but not limited to a complete confined entry program/plan with rescue and support crews if required.

EXECUTION OF THE COMMISSIONING TESTS:

HVAC Test Methodology

For the commissioning tests, each conductor of the cable system is energized to 135 kV, corresponding to $1.7 U_0$, as per IEC 60840, for a period of 60 minutes. U_0 references rated-line-to-ground operating voltage. The RTS is connected to the cable conductor under test via a corona free HV test connection.

The voltage steps are as follows: 40 kV corresponding to $0.5U_0$ for up to 2 minutes, then 80 kV corresponding to $1U_0$ for up to 5 minutes, then 100 kV corresponding to $1.25 U_0$ for up to 5 minutes, then 120 kV corresponding to $1.5U_0$ for up to 5 minutes, then 135 kV corresponding to $1.7U_0$ for 60 minutes. At each step and during ramp-up, partial discharge activity is monitored and recorded at all accessories. If sustainable internal PD is detected, then the test may be terminated to avoid a Failure Under Test and the PDIV and PDEV voltages as well as PD magnitude and PD pattern is recorded.

Figure 1: Sketch of one mobile RTS system.

Using a calibrated high voltage capacitive voltage divider, the voltage applied to the cable system will be measured and stored once every second. Upon completion of the AC HiPot tests, a voltage envelope for each test will be generated for reporting purposes. The test set and under valid calibration. Note, the test sets are feed by a three phase 400-volt diesel generator.

Figure 2: Typical Voltage Envelope

Partial Discharge (PD) Measurement Methodology

Note, the broadband PD monitor used for these tests is referred to as WaveRunner and is developed and manufactured by HVPD with software modified by Kinectrics. The monitor operates in the frequency range from DC to 250 MHz. The system measures and stores the wave shape of each individual signal measured and thus allows for separation of different signal source using Classification Mapping. The system can thus detect PD below the ambient noise level. The system can work with a range of partial discharge sensors ranging from internal, embedded sensors to external HFCTs or differential capacitors. For this project, Kinectrics will make use of a Transient Earth Voltage (TEV) sensor.

TanDelta/PowerFactor Measurement

For new or re-conducted HPFF cable systems, PD testing and Tand measurement during AC HiPot testing provide for a basepoint of future trending of the cable system through its expected life. For existing HPFF cable systems, PD testing and Tan δ measurement during AC HiPot testing provide for a basepoint of future trending of the cable system through its expected life. Common dielectric judgment would dictate that no Tand TipUp should be observed below 1.5U0 and no evidence of arcing in the oil should be observed at any voltage level up to 2U0.

For field aged cable systems, variations in the dissipation/power factor are often signs of mechanical displacements, the ingress of moisture, partial discharge, aging and degradation in insulation. By obtaining Tand measurements over time a trend can be established. As aging mechanisms act on an insulation system the trend of Tand will be affected. Specifically, ingress of moisture result in an increase in Tand over time whereas thermal aging (dryness) results in a decrease in Tand.

Secondly, the on-set of PD activity results in an increase in Tand and therefore, by obtaining Tand at different voltages the presence of PD activity within the cable system can be detected. It should be noted the TipUp measurement is in addition to the PD measurement described above. The PD measurement helps identify problems specifically located in accessories but, typically, not in the cable sections between accessories. The

Tip-Up measurement can help detect PD in cable sections, and thus the cable system overall, as a result of over-all aging.

Using a digital semi-automated bridge system consisting of a digital data processor, a current shunt and a reference capacitor, T_{and} will be measured with extremely high measurement accuracy (typical $< 5 \times 10^{-5}$). Note, an accuracy of 10^{-4} is needed for T_{and} measurements on laminate, fluid filled cable systems. Thus, the system employed has an order of magnitude sensitivity better than required.

The system is setup and operated in conjunction with the RTS and PD tests.

TECHNICAL NOTES:

- The connection of the test voltage will be provided via the open-air terminations – see Figure 3.
- Provision of a suitable ground connection must be provided at the Test end.
- For safety reasons, ground loops cannot exist during testing. Consequently, diesel generators and Distribution Board grounds must be grounded via the RTS setup and not directly to local system ground.

Figure 3: Typical Single RTS test setup with AIS Termination

DELIVERABLES:

1. Kinectrics to attend site with all necessary equipment and personnel.
2. Kinectrics to provide test report.

Payment Terms based on each site/circuit (net 30 days):

65% invoiced upon mobilization
30% invoiced upon completing Cable testing
5% invoiced upon provided test report

Price:

See below

Prices in \$ (USD)
Taxes not included

Notice: Any notice to be sent to either Kinectrics or the Customer shall be sent to the addresses listed above. If to Kinectrics addressed to the Kinectrics Contact and if to Customer addressed to Customer Contact.

ACCEPTANCE OF QUOTATION

This Quotation, including the pricing and payment terms, is only valid until 4:00 pm GMT 90 (ninety) days from date of issuance, (hereafter called the "Expire Time"). Upon acceptance of this Quotation by the Customer before the Expire Time, the Customer retains Kinectrics International Inc. (Kinectrics) to perform the services described herein, pursuant to the **Standard Terms and Conditions**, attached hereto.

BY ISSUE OF THE CUSTOMER PURCHASE ORDER OR CONTRACT AGREEMENT TO KINECTRICS, THE CUSTOMER ACKNOWLEDGES THAT IT HAS READ AND HEREBY ACCEPTS THIS QUOTATION, INCLUDING KINECTRICS STANDARD TERMS AND CONDITIONS WHICH SHALL APPLY TO THIS TRANSACTION AND SHALL TAKE PRECEDENCE OVER ANY OTHER TERMS AND CONDITIONS CONTAINED IN THE CUSTOMER'S PURCHASE ORDER OR CONTRACT.

Purchase orders are to be e-mailed to mekenzi.jones@kinectrics.com and PO@kinectrics.com.

Table 2: Tentative Schedule

*Price is based on a Monday to Sunday schedule and includes setup/disassembling time and based on execution schedule as per Table 2 and assumptions as listed below. Additional work is subject to a Change Contract Request, as indicated in Section 7.1 of our Proposal Terms, Table 3: Summary of Extra Charges, and availability. For technical questions, please contact Mark Fenger, Senior Global Technical Director, on mark.fenger@kinectrics.com or on 416-300-8464. For commercial questions please contact [Michael Heiting, Director of Business Development HVT - USA](mailto:Michael.Heiting@kinectrics.com) on michael.heiting@kinectrics.com or mobile phone at +1-708-846-6352.

SUMMARY OF EXTRA CHARGES [2026 USD]			
CATEGORY		PRICE [USD/Day]	COMMENT
Personnel Standby		\$7,821	Personnel Standby Charges may apply if any of the following conditions; 2.2, 4.4, or 5 are not met.
Equipment Idle Charge		\$8,776	Equipment standby on site upon request of client. No Kinectrics staff on site. Note, personnel remobilization charges apply (TBD)
Extending Testing	Within Scope	\$19,574	Per additional day spent testing at no fault to Kinectrics
Additional Mobilization	Equipment or Personnel	\$TBD	Additional mobilization charge should Client not be ready for testing when Kinectrics is on site

Table 3: Summary of Extra Charges

Assumptions:

- All circuits will be complete and ready for test, allowing us to work without delay and testing circuits back-to-back if applicable;
- Safe and adequate road access to the test location for each Kinectrics 44-tonne mobile RTS units;
- Safe and adequate access on site to the open-air terminations of each circuit
- Adequate clearance for the HV test connections;
- Sufficient and suitable space for all RTS units to be configured as required.
- The circuit will be earthed by suitable means, which may be primary earths or drain earths, and which can be removed and reapplied as required;
- Connection for the HV tests will be to AIS termination as shown in Figure 3.
- Ground surfaces on site are adequately compacted and suitable for up to 12 tonne per axle loading, or else suitable temporary roadway is provided;
- Any re-test following the identification of the fault location, removal of the faulted cable section or accessory and subsequent repair and/or replacement; will incur an additional charge for AC HiPot testing including PD Testing (if applicable), equipment idle time, and/or personnel stand-by time. Depending on the time required to locate and repair any such fault, Kinectrics reserves the right to demobilize their equipment from site for deployment at other work locations. In such an event, subsequent testing will be charged as described plus mobilization.
- In addition, please note that:
 - If testing is delayed at no fault of Kinectrics, standby charges are applicable.
 - In the case of a cable failure, Kinectrics staff and equipment will remain on site, a standard standby charge applies.
 - Availability for specific dates is not guaranteed until confirmed by Kinectrics.
 - In the event of cancellation is less than the notice period specified in the price schedule below, the respective cancellation charge will apply.
 - Additional time onsite required will be handled by a Contract Change Request (CCR)

KINETRICS' PROPOSAL TERMS

1. PRICING

- 1.1. The pricing is contingent on the schedule, conditions and assumptions outlined in this proposal. If additional time is spent on the project, extra charges apply as outlined below.
- 1.2. The price includes setup and dismantling and reporting.
- 1.3. Due to duty cycle limitation of test equipment, tests may be limited to 3 ACHV tests per day if applicable.
- 1.4. Kinectrics reserve the right to re-quote the project if the specifications and supplied information change.
- 1.5. Should the test activities of the original scope exceed at no fault of Kinectrics, additional charges using Table 3: "Summary of Extra Charges" will be applicable.

2. WORK HOURS & DELAYS

- 2.1. If not otherwise specified, a normal workday starts at 6am at the earliest and ends no later than 8pm. Additional charges may apply for work outside these hours and will be quoted separately.
- 2.2. If not otherwise specified, work including setup, testing and dismantling can be performed on Saturday or Sunday. If Kinectrics is not permitted to work on the weekends, Personnel Standby charges apply.
- 2.3. Non high voltage testing activities such as setup, dismantling, sensor installation, sensitivity assessment etc. will be done during rainy days. If such activities cannot be performed during rainy days due to local regulations, Personal Standby charges apply as per extra charges section noted below.
- 2.4. In the case of setup, testing or dismantle activities gets delayed at no fault to Kinectrics, additional charges apply – please see Table 3 "Summary of Extra Charges" For instance, testing activities could be delayed by third party consultants or witnesses, lack of testing permits etc.
- 2.5. Work excludes preparation of the cables and fiber optics for testing, delays due to inclement weather or act of God, obtaining any permits, tag outs.

3. DELIVERABLES

- 3.1. If requested, Kinectrics' technical work instructions will be provided after receiving a purchase order.
- 3.2. Detailed test report including results, analysis, conclusion and recommendations will be provided after analysis.

4. CUSTOMER RESPONSIBILITIES

4.1. Information

- 4.1.1. With respect to training, client is to inform Kinectrics which specific training courses, if any, are required to enter site. As well, the client is responsible for providing Kinectrics personnel with site specific training and orientation to fulfil local site requirements.
- 4.1.2. Provide Kinectrics with all relevant technical drawings.
- 4.1.3. Confirming the dimensions of manholes and hand-holes if applicable.
- 4.1.4. In case of plans for installation of permanent PD sensor system or fiber optic cables for daisy chaining of PD monitors, customer is to notify Kinectrics at least 4 months in advance in order for Kinectrics to be able to quote and supply material and guidance so these can be installed while splicing activities are on-going.

4.2. Permits

- 4.2.1. Providing any necessary permits for testing to commence. Kinectrics will provide answers and technical input to support any permit related questions.
- 4.2.2. If applicable- Prior to testing: Lock and Tag permits and necessary outages are in place for testing.
- 4.2.3. If applicable- Providing any necessary local or safety permits for testing to commence.

- 4.2.4. The termination must be visibly grounded before commencing the work. After Kinectrics connects to the circuit the ground will be removed.

4.3. Manpower Supply and Preparation

- 4.3.1. Providing man lift, a condor crew, or similar for preparing the terminations for testing. This applies both to the AC HiPot testing as well as to the Impedance Measurements if applicable
- 4.3.2. Providing manpower to support Kinectrics in entering hand holes and manholes for installation and later removal of the partial discharge monitors. This includes traffic diversion and confined space permits for safe manhole access if applicable.
- 4.3.3. Sheath Voltage Limiters (SVLs) must be shunted out by the customer during the tests. For performing the partial discharge tests on cable systems making use of coaxial bonding cables, access to the link box is required.
- 4.3.4. If applicable - Delivery of a fully commissioned fiber-optic cable system for data communication between PD boxes as per specification attached. Charges may apply if the delays in commissioning of the fiber optics extend the project assumptions.
- 4.3.5. Delivery of oil spill containment for the RTS and generator
- 4.3.6. If cable is equipped with GIS termination the VT and other GIS equipment must be isolated and grounded.

4.4. Access

- 4.4.1. Sufficient laydown area can be found at the substation(s) for setting up the test equipment. In case the RTS trailer is used, an area of approximately 15 m x 6 m per trailer is required.
- 4.4.2. The RTS trailer weighs 46 metric tonnes, therefore a sufficiently compact surface is required for the trailer to traverse and park on.
- 4.4.3. Sufficient clearance must exist between the test termination point – typically cable pot heads or GIS termination - and nearby grounded surfaces.
- 4.4.4. If applicable- Confined space permits for safe access to manholes and link boxes can be provided both prior to, during and after the tests. Note, this may involve traffic diversion.

5. INTERRUPTION OF WORK

- 5.1. Should a fault occur during testing and should the test data not indicate the location of the fault then Kinectrics are not responsible for fault finding. Kinectrics can supply this service at an additional cost and will need to be notified to do so. Any re-test following the identification of the fault location, removal of the faulted cable section or accessory and subsequent repair and/or replacement; will incur an additional charge. Depending on the time required to locate and repair any such fault, Kinectrics reserves the right to demobilize their equipment from site for deployment at other work locations. In such an event, subsequent testing will be charged as described plus mobilization.

6. NON-DISCLOSURE AGREEMENT

- 6.1. Any third party witnesses or external consultants would need to sign a Non-Disclosure Agreement (NDA) prior to reviewing any test material or test methodologies provided by Kinectrics to the client and end-client

7. SUMMARY OF EXTRA CHARGES

- 7.1. Additional charges for Kinectrics' staff and test equipment are to be calculated and issued to the client in the form of a CCR (Change Contract Request) based on the specific project scope and the scenario that prompted the delay or re-mobilization. The CCR is to be signed by the client's representative before additional work is commenced. Refer to Table 3: Summary of Extra Charges.

KINETRICS – STANDARD TERMS AND CONDITIONS

1. **Acceptance:** Notwithstanding anything to the contrary contained in any other related document, the Customer accepts that this offer and any resulting contract shall be based solely on the terms and conditions contained herein ("Agreement") and no additional or different terms and conditions shall apply except as may be explicitly agreed in writing by the Parties. The Parties acknowledge that these terms and conditions may be for use with Kinectrics Inc., and all subsidiary companies and that the applicable contracting entity will be defined in the purchase order. The Parties agree that only the Kinectrics entity specified in a purchase order will have liability in relation to this Agreement. This offer may be revoked by Kinectrics if the Customer's credit rating is not in good standing. In the absence of written acceptance of these terms and conditions by the Customer, either acceptance of, or payment for, the products or services will constitute the Customer's acceptance. The invalidity or unenforceability of any provisions of these terms and conditions shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect.
2. **Services:** Kinectrics shall deliver to the Customer only those documents, reports, software, data or things (the "Services" or the "Deliverables") as specified in the scope of work and within the specified schedule. Additional Services may be agreed to in writing between the Parties. If Kinectrics cannot deliver the Services within the schedule, then Kinectrics shall inform the Customer of the expected completion date of the Services. Services which are experimental or research in nature may be subject to review by the Parties for a mutual decision on continuing the Services in the event anticipated results are not being achieved. Unless otherwise specified in writing by the Customer, draft and final reports will be sent to the Customer as an attached file to an electronic mail message.
3. **Customer Deliverables/Obligations:** The Customer shall provide Kinectrics with any information, materials, equipment, utility services, assistance, access to facilities and other necessities as may be required by Kinectrics to deliver the Services. Timely receipt by Kinectrics of the Customer's Deliverables shall be considered of essence to this Agreement. The Customer shall expeditiously review and/or inspect the Services and, unless otherwise agreed in writing between the Parties, the Customer will provide Kinectrics with a single round of consolidated comments on any Kinectrics' Deliverable. Following the completion of the Services, Kinectrics shall advise the Customer of any waste or surplus materials remaining or created pursuant to the Services. The Customer shall arrange, at its expense, for the disposition of such materials within two (2) months of such advice. Customer attendance at Kinectrics' work site, for any purpose, shall be entirely at the Customer's own risk. In the event the Customer provides any specifications or designs for products, Customer will indemnify Kinectrics for all claims, costs and expenses (including attorney's fees and disbursements) from any patent, trademark or copyright infringement claim resulting from compliance with these specifications and designs. Kinectrics will not be responsible for the accuracy or suitability of Customer supplied specifications and designs or the performance of any products built in conformance with the specifications or designs.
4. **Charges for Suspension/Delay/Cancellation ("Stoppage") by Customer:** In the event the Customer suspends, delays and/or cancels any Services, then applicable standby, dead time, demobilization, remobilization, non-cancellable commitments and/or facility charges will be invoiced to the Customer as additional to the contract price ("Additional Expenses"). In the event such unplanned Customer initiated Stoppage extends for a period in excess of twenty (20) working days, then the Customer shall also be invoiced for all work performed up to the date of such Stoppage, on a time/material basis or as a prorated fixed price whether or not any milestone remains incomplete due to such Stoppage ("Work Performed"). Invoices for Additional Expenses and Work Performed shall become due and payable by the Customer upon receipt.
5. **Payment:** Customer shall pay Kinectrics the invoiced amount within 30 days of the invoice date. Interest on overdue accounts shall be charged at the greater of (i) one and one half percent (1.5%) per month for a yearly effective rate of eighteen percent (18%) and (ii) the maximum amount permitted by applicable law, until paid. Payments by cheque from outside of Canada must be sent via courier at Customer's expense.
6. **Taxes:** Where applicable, Customer will pay all taxes, fees, duties, charges, or assessments of any nature whatsoever imposed by any governmental authority on or measured by the Services or any amount payable pursuant to this invoice. Customer will provide Kinectrics with all withholding tax certificates and filing documentation required by the Canadian government on a timely basis and at no additional charge to Kinectrics, in the event any withholding tax is deducted from any payments to Kinectrics for work done by Kinectrics employees outside of Canada. Customer will provide Kinectrics any applicable tax exemption certificates prior to the provision of any Services.
7. **Warranty:** Kinectrics warrants that the Services, excluding any as may be performed under the direction or supervision of Customer, performed pursuant to this Agreement will be performed in a professional manner consistent with the standards of quality and care typical within the industry at the time of performance for similar work. Such warranty will be effective for a period of one (1) year from the date of performance of the Service. Any such Services performed by Kinectrics which do not conform with Kinectrics above-stated warranty obligation will be re-performed by Kinectrics at Kinectrics' expense; or if re-performance is impracticable or impossible, Kinectrics will refund to Customer the price paid to Kinectrics for the non-conforming Services. **THE WARRANTIES AND REMEDIES SET FORTH HEREIN ARE EXCLUSIVE, AND NO OTHER WARRANTY OR REMEDY OF ANY KIND, WHETHER STATUTORY, WRITTEN, ORAL, EXPRESS, OR IMPLIED, INCLUDING WITHOUT LIMITATION WARRANTIES OF PERFORMANCE, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY.** In no event shall Kinectrics be responsible for decontamination of equipment; or any work done by others; or for any loss, damage, cost, or expense arising out of or resulting from such work done by others; provided, that in the event Kinectrics has engaged Subcontractors in the performance of its obligations, Kinectrics will have the same responsibilities to Customer for such Services as it has with respect to its own Services. The foregoing Warranty shall be voided if, during the Warranty period: (i) performance of recommended maintenance is contracted by the Customer to a party other than Kinectrics or Kinectrics' designated subcontractor; or (ii) the Customer elects not to carry out recommended maintenance or (iii) improper use or storage of any Deliverable; or (iv) the Deliverable becomes contaminated.

8. **Limitation of Liability:** Kinectrics total aggregate liability for damages arising from any cause or action whatsoever, including liability for any claim of infringement of intellectual property rights, shall not exceed the total consideration paid to Kinectrics pursuant to this Agreement. **IN NO EVENT SHALL KINETRICS AT ANY TIME BE LIABLE TO THE CUSTOMER FOR ANY PUNITIVE, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES WHICH MAY BE SUSTAINED BY THEM, INCLUDING BUT NOT LIMITED TO LOSS OF REVENUE, PROFIT, BUSINESS REPUTATION OR OPPORTUNITY WHETHER SUCH LIABILITY ARISES OUT OF CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, WARRANTY OR OTHER LEGAL THEORY WHETHER AT LAW, IN EQUITY OR OTHERWISE.** Kinectrics liability, whether based upon contract, tort (including negligence), strict liability or otherwise, for any claims, loss or damage arising out of, connected with, or resulting from the performance or breach of this Agreement by Kinectrics shall be limited to specifically identified written claims submitted by the Customer to Kinectrics prior to the expiration of the Warranty period. The Customer recognizes that the Customer's material or equipment under test may be damaged due to the nature or requirements of such test (such as the application of high tension or voltage to material or equipment being tested) and agrees that in no event shall Kinectrics be liable for any damages which may be caused to Customer's material or equipment under test including, but not limited to, any accessories. The provisions of this Article shall apply notwithstanding any other provision of this Agreement or any other agreement.
9. **Nuclear Liability Insurance and Indemnification:** In any contract where the end user is a United States Utility Owner/Licensee which utilizes the Services to any extent in its facility, Customer agrees to obtain and provide to Kinectrics, any governmental indemnification of, or protections for, unusually hazardous risks, such as under the Price-Anderson Act, Public Law 85-804, FAR 52.250-1, FAR 52.246-23, and FAR 52.246-24. If the nuclear liability protection system provided by the applicable Act is repealed, modified, or expires, Customer will, without cost to Kinectrics, maintain in effect, to the extent customarily maintained by nuclear plant owners, liability protection through government indemnity, limitation of liability or liability insurance in order to indemnify and protect Kinectrics and its subcontractors from liability for unusually hazardous risks.
10. **Delay in Performance:** Kinectrics shall not be liable for any expense, loss or damage resulting from delay or prevention of performance caused by fires, floods, Acts of God, public health risks, quarantine, epidemic, pandemic, strikes, labor disputes, labor shortages, inability to secure materials or equipment, fuel or other energy shortages, riots, thefts, accidents, transportation delays, acts or failure to act of Customer, acts or failure to act of governmental authorities, Customer's delay in obtaining licenses, major equipment breakdown, or any other cause whatsoever, whether similar or dissimilar to those enumerated above, which are beyond the reasonable control of Kinectrics. In the event of any delay arising by reason of any of the foregoing, the schedule and compensation shall be equitably adjusted as may be required.
11. **Proprietary Information:** Information disclosed pursuant to this Agreement is disclosed in confidence, and the recipient shall not publish or otherwise disclose it to others, or use it for purposes unconnected with the delivery of the Services, without the written approval of the disclosing Party. Customer understands that special techniques in the arts and sciences, developed or accumulated by Kinectrics, will be employed to benefit Customer under this Agreement, and agrees that such special techniques are proprietary and shall not be disclosed to any third party during or subsequent to the term of this Agreement nor shall the Customer use it for purposes unconnected with the delivery of the Services without Kinectrics prior written consent; provided, however, that nothing herein shall limit Customer's right to disclose any data provided by Kinectrics hereunder which (a) was furnished by Kinectrics prior to this Agreement without restrictions; (b) becomes knowledge available within the public domain; (c) is received by Customer from a third party without restriction and without breach of this Agreement; or (d) is required to be disclosed in order to comply with applicable laws or government regulations. In the event that recipient or any of its representatives become legally compelled (by deposition, interrogatory, request for documents, subpoena, civil investigative demand or similar process) to disclose any confidential or proprietary information, recipient shall provide the disclosing Party with prompt prior written notice of such requirement so that the disclosing Party may seek a protective order or other appropriate remedy and/or waive compliance with these confidentiality provisions. In the event that such protective order or other remedy is not obtained, or that the disclosing Party waives compliance with these confidentiality provisions, recipient agrees to furnish only that portion of the confidential or proprietary information which recipient is advised by written opinion of its counsel is legally required, and to cooperate in efforts by the disclosing Party to obtain assurances that confidential treatment will be accorded the confidential or proprietary information.
12. **Intellectual Property:** Kinectrics shall own all right, title and interest in and to all intellectual property, including without limitation all inventions, patents, patent applications, copyrights, and trade secrets, in any report, data, software or thing created or reduced to practice by Kinectrics during the course of performing the Services. Except as is necessary to the Customer's use of the Deliverables, the Customer shall not reproduce, make or distribute copies, either in whole or in part, of any report, document, video, software or thing created by Kinectrics during the course of performing the Services, without the specific written permission of Kinectrics.
13. **Publicity:** Kinectrics shall have the right to make general references to the Services in promotional materials, but shall not include detailed results of the Services without the written consent of the Customer.
14. **Applicable Laws, Assignment and Dispute Resolution:** This Agreement shall be governed by, and be construed in accordance with, the laws of the Province of Ontario and Canada and the Parties consent to the exclusive jurisdiction of the courts of the Province of Ontario except as expressly noted. Notwithstanding the preceding sentence, for all Services performed within the United States of America, this Agreement shall be governed by, and be construed in accordance with, the laws of the State of Illinois and the Parties consent to the exclusive jurisdiction of the courts of the State of Illinois. Customer may not assign or transfer this Agreement or any interest herein without the prior written consent of Kinectrics. The Parties shall use all reasonable efforts to amicably settle all disputes arising in relation to this Agreement and its interpretation. Neither Party will resort to the courts until a good faith effort to resolve such dispute has been made by the Parties' executive levels. The Parties expressly exclude the application of the United Nations Convention on Contracts for the International Sale of Goods.
15. **Waiver of Jury Trial:** Where the applicable law is the State of Illinois or any other United States jurisdiction, each Party hereto hereby waives its rights to a jury trial of any claim or cause of action based upon or arising out of this Agreement, or the subject matter hereof or thereof. The scope of this waiver is intended to be all-encompassing of any and all disputes that may be filed in any court and that relate to the subject matter of this transaction, including, without limitation, contract claims, tort claims, breach of duty claims, and all other common law and statutory claims. This Article has been fully understood and accepted by each of the Parties hereto and these provisions will not be subject to any exceptions. Each Party hereto hereby further warrants and represents that such Party has reviewed this waiver with its legal counsel, and that such Party knowingly and voluntarily waives its jury trial rights.

Certification of Single Source or Emergency Procurement

Please use this form to certify a Single Source or Emergency Procurement complies with the requirements of the JEA Procurement Code. The JEA Procurement Code defines a Single Source and Emergency Procurement as follows:

3-112 Single Source

A Contract may be awarded for Supplies or Services as a Single Source when, pursuant to the Operational Procedures, the Chief Procurement Officer determines that:

- (a) there is only one justifiable source for the required Supplies or Services. Examples include: highly specialized equipment, exclusive intellectual property, membership to an organization.
- (b) the Supplies or Services must be a certain type, brand, make or manufacturer due to the criticality of the item or compatibility within a JEA utility system, and such Supplies or Services may not be obtained from multiple sources such as distributors. Examples include: OEM, JEA Standard.
- (c) the Services are a follow-up of Services that may only be done efficiently and effectively by the Vendor that rendered the initial Services to JEA, provided the Procurement of the initial Services was competitive;
- (d) at the conclusion of a Pilot Project under Section 3-118 of this Code, the Procurement of Supplies or Services tested during the Pilot Project, provided the Vendor was competitively selected for the Pilot Project.

3-113 Emergency Procurements

In the event of an Emergency, the Chief Procurement Officer may make or authorize an Emergency Procurement, provided that Emergency Procurements shall be made with as much competition as practicable under the circumstances. A written Determination of the basis for the Emergency and for the selection of the particular Vendor shall be included in the Procurement file.

For purposes of this Section 3-113, an "Emergency" means any one of the following:

- (a) a reasonably unforeseen breakdown in machinery;
- (b) an interruption in the delivery of an essential governmental service or the development of a circumstance causing a threatened curtailment, diminution, or termination of an essential service;
- (c) the development of a dangerous condition causing an immediate danger to the public health, safety, or welfare or other substantial loss to JEA;
- (d) an immediate danger of loss of public or private property;
- (e) the opportunity to secure significant financial gain, to avoid delays to any Governmental Entity or avoid significant financial loss through immediate or timely action; or (f) a valid public emergency certified by the Chief Executive Officer.

Please provide the following information:

Vendor Name:

Ferreira UTEC

Description of Services or Supplies provided by Vendor:

Labor and materials to rebuild the failed Northside Generating Station TG1A HPFF pipe-type cable. Ferreira UTEC has been working on this project since the failure occurred. They have led the investigation, provided us with access to industry experts, sourced materials, and provided several repair options.

Regular Agenda Award #2 - Supporting Documents 12/18/25
