This project will complete the remaining construction activities for the reclaimed water storage and pumping facility utilizing the Design-Bid-Build delivery method. The work includes construction of the re-pump station, roadway and pavement installation, yard and reclaimed water piping, fencing and gate systems, site grading and landscaping, stormwater improvements, installation of a precast electrical building with HVAC, electrical and instrumentation systems, SCADA infrastructure, concrete work, startup, testing, commissioning, and all associated appurtenances required to provide a complete and operational facility. The work also requires coordination with the previously awarded Phase I contractor responsible for construction of the ground storage tanks and associated initial site work. The lowest responsive and responsible bid of \$7,035,000.00 is approximately 24% below the budget estimate. The lower bid is primarily attributed to a reduction in electrical, instrumentation, RWM HSPS sitework, yard piping, and structures costs. The bid price was reviewed by the project team and deemed reasonable.

The requested services will include engineering and design support, performed on an as-needed basis, for generation, substation, and transmission Protection and Control (P&C) projects. These services will support projects with estimated construction costs that meet the threshold established in Section 287.055, Florida Statutes, the Consultants' Competitive Negotiation Act (CCNA), and will provide the specialized engineering resources necessary to support JEA's capital improvement program and ongoing operational needs. This solicitation was evaluated using criteria such as qualifications and experience of the proposed professional staff, the firm's relevant experience, and the utilization of a JSEB vendor. Based on the evaluation results, Burns & McDonnell Engineering Company, Inc. received the highest overall ranking, followed by Chen Moore & Associates Inc. in second place and Leidos Engineering LLC in third place. The recommended award amounts are intended to support new capital projects that have been identified and funded through FY30. The award values also include funding for several ongoing asset replacement programs, including the Feeder Breaker Replacement, Transmission Breaker Replacement, and Capacitor Switch Replacement programs. These programs consist of multiple individual task orders that will be distributed among the awarded firms. As future projects are identified and already established project are finalized, JEA Procurement will return for subsequent requests in adjust the NTE values for the awarded vendors. The proposed labor rates were evaluated against the labor rates in the recommended awardees' existing JEA engineering services contracts for work of a similar scope. Burns' proposed labor rates are consistent with its current contract rates, while Leidos' proposed rates reflect an increase that is generally consistent with expected CPI adjustments. Chen Moore's initial proposed rates were approximately 14% higher than the labor rates in its current 2024 contract. Following negotiations, Chen Moore submitted revised rates that reduced the increase to approximately 7%, bringing the proposed rates more in line with expected CPI adjustments.

The scope of work for these contracts includes new construction, renovation, renewal, replacement, building maintenance, equipment installation, utility work and other miscellaneous projects. The estimated construction cost for each individual project in these contracts must be below the threshold for continuing contracts set in Florida Statute 287.055, as amended from time to time, which currently is at \$7,972,087.00. That estimate limit is adjusted annually in July based on June CPI-U data. Eight (8) responses were received for this RFP. JEA evaluated the responses based on company water/wastewater experience and professional staff experience. The evaluation team decided to award contracts to the top five companies based on anticipated project needs. A Master Service Agreement (MSA) will be executed with each company, and task orders will be issued for individual projects on an as needed basis. The MSAs will govern the transaction terms, with maximum indebtedness specified in the task orders. The CMAR fee for each company has been deemed reasonable compared to current projects. In accordance with the Procurement Code, any task order with a maximum indebtedness exceeding \$500,000.00 will be submitted to the Awards Committee for approval prior to work starting. The scope includes the replacement of the outer cylinder, inner cylinder, segment plates, access doors, support seats, ladder rungs, shipping splices, and conduit runs. The manufacturing contractor will also be responsible for incorporating the required design modifications and ensuring the spiral chute assembly is designed for ease of field assembly at the installation location. This procurement was conducted as an evaluated bid with respondents invited to submit proposals for the fabrication scope, the installation scope, or both. This was done to allow for a larger supply base to participate in the project as manufacturers may not have as competitive or expertise in installation work, and some installation firms may not have manufacturing capabilities or experience. Proposals were evaluated based on price, relevant experience, project schedule, work approach and availability, and safety performance. Mid-State SMS LLC submitted the lowest-priced proposal and also achieved the highest overall evaluation across all non-price criteria. Based on the evaluation results, JEA is recommending an award to Mid-State SMS LLC for both the fabrication and installation scopes for the new spiral chute assembly.																													
6	Request For Proposal (RFP)	1412156246 (RFP) JEA St. Johns River Power Park (SJRP) Unit 3 Combined Cycle – Generator Step-Up Transformers	Erixton	Prolec-GE Waukesha, Inc. 	Advertised: 04/23/2026 Opened: 06/23/2026 Public Evaluation Meeting: 07/15/2026 Four (4) Responses Received (in order of final ranking): 1 - Prolec-GE Waukesha, Inc. - \$8,403,388.00 2 - PTI Transformers LP - \$8,828,600.00 3 - Hitachi Energy USA Inc - \$10,880,000.00 4 - Hyundai - \$14,349,137.00 For additional information contact: Jason Behr This award request is for the steam turbine generator step-up (GSU) transformer required for the St. Johns River Power Park (SJRP) Unit 3 Combined Cycle facility. The transformer will be an oil immersed, three phase, outdoor type generator step up unit equipped with automatic, thermostatically controlled forced oil, forced air cooling, and will include all necessary accessories, spare parts, and appurtenances to ensure full operability. Delivery will be F.O.B. transformer pad, with the manufacturer responsible for offloading. This procurement is essential to support reliable power generation and maintain long-term operational stability of the unit. This solicitation was evaluated using weighted selection criteria consisting of 40% price, 40% lead time, and 20% risk profile. Only approved manufacturers were eligible to submit responses for consideration. Prolec-GE Waukesha, Inc. offered the lowest price and the shortest lead time, and their risk profile was comparable to the other qualified respondents. Based on these factors, we recommend proceeding with the award to Prolec-GE Waukesha, Inc. for the steam turbine generator step-up transformer. Please note that the solicitation also included two combustion turbine step-up transformers; however, evaluation of that portion is currently on hold while we work through necessary clarifications to ensure accurate comparison among respondents and ensuring overall project needs are met. Due to the critical nature of lead times, we are requesting approval to move forward with the steam turbine transformer award now and will return to the Awards Committee with a recommendation for the procurement of the combustion turbine GSU transformers at a later date.																													
7	Contract Increase	1410837046 Continuing Services for DOT Road Base Lime Rock and 57 Stone	Vu	Aggregate Haulers, LLC	Capital & O&M	\$1,162,864.30	\$1,162,864.30	\$2,730,000.00	\$4,165,864.30	10/06/2025 - \$273,000.00	Five (5) Years w/Two (2) 1-Yr. Renewals Start: 04/01/2023 End: 03/31/2028	N																		
	Last awarded: 03/23/2023 For additional information contact: Victoria Holloway This contract increase request is to provide funds for additional supply and delivery of road base lime rock and 57 stone. The scope of work for this contract is to provide and deliver lime rock and crushed stone to a JEA primary location and also provide/deliver materials throughout JEA’s service areas located within Duval, Clay, St. Johns and Nassau counties. This contract was awarded on 03/23/2023 for supply and delivery of road base lime rock and 57 stone. Since that time, the size of the average roadway restoration ticket has increased, requiring higher usage of this road base fill material. This is attributed to more planned Capital and reactive work due to system failures. The increase amount is based on current estimated usage through the end of the contract term. The unit prices have remained fixed through the contract term.

	Originally Awarded: 08/17/2023 For additional information contact: Danielle Crawford This award request is for the first one (1) year renewal, and a contract increase for Fleet Services Aerial Equipment Maintenance and Repair. This contract includes, but is not limited to, routine preventive maintenance, corrective maintenance, and regulatory inspections, specific to the 304 aerial attachments of JEA on-road and off-road vehicles and equipment with additional ad hoc services included. For this renewal Fleet is requesting an increase in the amount of \$781,757.93, resulting in a new NTE total of \$5,090,286.91. The contract increase amount is based on the average expenses incurred to date and the projected spending through the renewal term ending July 30, 2027. Renewal rates have increased by 2.33% compared to the current rates, which is below the allowable Consumer Price Index (CPI) amount of 4.2%, and therefore reflects a cost savings of \$25,199.29. This is the second rate adjustment requested, as the contract permits annual increases based on the CPI. The current rate increase has been evaluated and is considered reasonable.									10/02/2025 - \$1,200,000.00	Three (3) Years w/Two (2) 1-Yr. 	To utilize FY26 funding and accommodate the 50 day hardware lead time, JEA obtained three quotes from resellers with CDW Government LLC being the lowest, that all referenced a competitively bid State contracts, resulting in an average discount of 29% off list price. The hardware is a one time purchase and the software and support is for three (3) years. The referenced OMNIA contract includes a survival clause that extends the contract term, including any extensions, until the expiration of any purchase order issued within the term up to one year beyond the contract end date.											
This contract piggybacks off of OMNIA Contract No: OMNIA Region 4 Education Service Center-Texas R250601 with a contract term 03/01/2026 through 02/28/2029 and has a one (1) survivability clause that extends through 2/28/2030 to cover the full support term.												
DISCUSSION/ACTION: Ted Phillips requested the quote totals from the other respondents. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

W. Replacement of a Private Passenger Auto with a Hybrid or Alternative Fuel Source Auto

The following is added to Paragraph **A. Coverage** of the **Physical Damage Coverage** Section:

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. Section II – Who Is An Insured is amended to include as an additional insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement. Such person or organization is an additional insured only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf,

in the performance of your ongoing operations or "your work" as included in the "products-completed operations hazard", which is the subject of the written contract or written agreement.

However, the insurance afforded to such additional insured:

1. Only applies to the extent permitted by law; and
2. Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to:

"Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services including:

- a. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
- b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.

- C. The following is added to Paragraph 2. Duties In The Event Of Occurrence, Offense, Claim Or Suit of Section IV – **Commercial General Liability Conditions**:

The additional insured must see to it that:

1. We are notified as soon as practicable of an "occurrence" or offense that may result in a claim;
2. We receive written notice of a claim or "suit" as soon as practicable; and
3. A request for defense and indemnity of the claim or "suit" will promptly be brought against any policy issued by another insurer under which the additional insured may be an insured in any capacity. This provision does not apply to insurance on which the additional insured is a Named Insured if the written contract or written agreement requires that this coverage be primary and non-contributory.

- D. For the purposes of the coverage provided by this endorsement:

1. The following is added to the Other Insurance Condition of Section IV – **Commercial General Liability Conditions**:

Primary and Noncontributory insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured provided that:

- a. The additional insured is a Named Insured under such other insurance; and
 - b. You are required by written contract or written agreement that this insurance be primary and not seek contribution from any other insurance available to the additional insured.
2. The following paragraph is added to Paragraph 4.b. of the Other Insurance Condition of Section IV – **Commercial General Liability Conditions**:

This insurance is excess over:

Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by a written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

- E. This endorsement does not apply to an additional insured which has been added to this policy by an endorsement showing the additional insured in a Schedule of additional insureds, and which endorsement applies specifically to that identified additional insured.
- F. With respect to the insurance afforded to the additional insureds under this endorsement, the following is added to Section III – **Limits Of Insurance**:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the written contract or written agreement referenced in Paragraph A. of this endorsement; or
 2. Available under the applicable Limits of Insurance shown in the Declarations,
- whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

All other terms and conditions of this policy remain unchanged.

**DESIGNATED CONSTRUCTION PROJECT(S)
GENERAL AGGREGATE LIMIT**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s):

A GENERAL AGGREGATE LIMIT APPLIES TO EACH CONSTRUCTION PROJECT WHERE THE NAMED INSURED IS PERFORMING OPERATIONS; HOWEVER, A GENERAL AGGREGATE LIMIT DOES NOT APPLY TO ANY CONSTRUCTION PROJECT WHERE THE NAMED INSURED IS PERFORMING OPERATIONS THAT ARE INSURED UNDER A WRAP UP OR ANY OTHER CONSOLIDATED OR SIMILAR INSURANCE PROGRAM.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

- A.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage **A**, and for all medical expenses caused by accidents under Section I – Coverage **C**, which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:
1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
 2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage **A**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage **C** regardless of the number of:
 - a. Insureds;
 - b. Claims made or "suits" brought; or
 - c. Persons or organizations making claims or bringing "suits".
 3. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
 4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

- B.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A**, and for all medical expenses caused by accidents under Section **I** – Coverage **C**, which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:
1. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
 2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.
- C.** When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.
- D.** If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.
- E.** The provisions of Section **III** – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.
