

**APPENDIX B -RESPONSE FORM**  
**118-16 JEA Fleet Services Medium Duty Maintenance and Repair**

**RESPONDENT INFORMATION:**

RESPONDENT NAME: Dickinson Fleet Services LLC

BUSINESS ADDRESS: 5233 Commonwealth Avenue

CITY, STATE, ZIP CODE: Jacksonville, Florida. 32254

TELEPHONE: 904-781-2094

FAX: 904-781-1539

EMAIL OF CONTACT: swatson@dickinsonfleet.com

WEBSITE: www.dickinsonfleet.com

**1.4.1. QUOTATION OF RATES**

**Maximum score for criterion is: 50 Points**

Respondent shall provide a firm-fixed price quote for all Work in this ITN by completing the enclosed Appendix B Response Form and Appendix B Response Workbook. The prices shall include all profit, taxes, benefits, travel, consumables, and all other overhead items. **The Amount shall be based on the lowest targeted operating budget to be used as a Not to exceed amount.**

**The amount shall be based on the lowest targeted operating budget to be used as a not-to-exceed amount. Upon award of the contract the respondent will not be allowed to exceed the not-to-exceed amount during any given year of the contract. If the respondent exceeds the not-to-exceed amount during any given year of the contract, the two percent (2%) Profit Margin and any Allowance incentive will be forfeited for the remainder of the year and service shall be performed at cost..**

- Parts cost shall not be billed above retail price.
- Sublet vendor charges shall be billed at cost plus handling fees as noted in Appendix B Response Workbook.

Item No	Description of Services	Total Price
1	<b>Total three (3) year cost for JEA Fleet Services Medium Duty Maintenance and Repair</b>	\$ 3,056,482.42
	<b>Transfer Total from Appendix B-Response Workbook</b>	

**1.4.2. PAST PERFORMANCE/RELEVANT EXPERIENCE**

**Maximum score for this criterion: 20 Points**

- This section will be measured in terms of Vendor's performance in fleet maintenance for other clients with the same size and scope as JEA as well as in terms of relevant experience of key personnel and their professional ability to execute this project. The two (2) Contract references provided in Section 1.2.1 Minimum Qualifications will be scored for points.
- Adequate staff certifications for those employees working on this contract should be provided to support this evaluation factor. **The Respondent shall include a job description or minimum job qualifications for All Service Technicians, Service Writer, and Shop Manager.**

**1.4.3. ABILITY TO DESIGN AN APPROACH AND WORK PLAN TO MEET THE PROJECT SCOPE**  
**Maximum score for this criterion: 25 Points**

The following areas will be evaluated and scored:

- Overall adequacy or resources and resource allocation
- Approach to providing specified services
- Quality service plan
- Preventative maintenance program

**1.4.4. COMPANY OFFICE PROXIMITY TO JEA**  
**Maximum score for this criterion: 5 Points**

Provide the address of Company's Office that will perform the majority of the JEA contract work and its distance from JEA. JEA Headquarters located at 21 West Church St. JEA will use Google Maps to verify distance.

In order to receive points for this criterion, Company's office must be occupied and staffed with at least three (3) employees for a duration of six (6) months prior to the Proposal Due Date stated in this Solicitation. Additionally, the office shall not be used as a residential premises. If necessary, JEA will use zoning records and tax rolls to validate this criteria.

**The Respondent shall submit one (1) original response, three (3) duplicates (hardcopies), and one (1) CD. If there is a discrepancy between the electronic copy and hard copy, the hard copy will prevail. JEA will not accept responses transmitted via email.**

**Respondent's Certification**

By submitting this Response, the Respondent certifies (1) that the Respondent has read and reviewed all of the documents pertaining to this RFP and agrees to abide by the terms and conditions set forth therein, (2) that the person signing below is an authorized representative of the Respondent, and (3) that the Respondent is legally authorized to do business and maintains an active status, in the State of Florida. The Company certifies that its recent, current, and projected workload will not interfere with the Respondent's ability to Work in a professional, diligent and timely manner.

The Respondent certifies, under penalty of perjury, that it holds all licenses, permits, certifications, insurances, bonds, and other credentials required by law, contract or practice to perform the Work. The Respondent also certifies that, upon the prospect of any change in the status of applicable licenses, permits, certifications, insurances, bonds or other credentials, the Respondent shall immediately notify JEA of status change.

We have received addenda 1 through 4

**August 16, 2016**

**Subject:** Solicitation for Participation in an Invitation to Negotiate JEA Fleet Service Medium Duty Maintenance and Repair- Solicitation number 118-16.

**DFS response to 1.4.3 Ability to Design an Approach a Work Plan to meet the Project Scope**

**Overall Adequacy or Resources and Resource Allocation-** DFS has all of the resources needed to handle the scope of work for the JEA Fleet. We currently operate one full service shop in Jacksonville, located off Commonwealth Wealth Avenue about 5 miles from the JEA Westside Offices. This has been our main shop in the Jacksonville market over the last 9+ years. Our 10 year lease is coming up on September 30<sup>th</sup> of 2016. Due to not knowing what will be awarded through the RFP's, we have negotiated a month to month extension of our shop after the initial 10 year term. We have also taken an active approach and have been touring multiple shops to potentially lease or purchase as we move forward. If DFS is awarded a significant portion of the RFP's by JEA, I wouldn't be opposed to signing an extension to our current lease or moving forward with purchasing a shop.

**Approach to Providing Specified Services-** Dickinson Fleet Services is the largest Managed Mobile On-Site Service Company in the Industry! Through 19 years of experience we have developed not only the knowledge, but the technology to provide a Managed Mobile On-Site PM Program without sacrificing Safety, Quality or Communication. Our goal is to perform 90% of JEA's PM's On-Site, reducing costs of transporting your fleet to and from a shop and more importantly, increasing your uptime. Along with performing scheduled PM's On-Site, we will be completing the majority of the PM Follow-Up Repairs On-Site.

Through experience, we have found that the average Mobile Service Technician can routinely service 50-55 trucks. Considering the low average mile per month usage of your fleet, and the number of units that park at each of your locations, we should be able to extend that ratio out to 75 trucks per tech. We currently have eight mobile trucks available that meet your standards. These trucks would be deployed full time to the JEA Fleet. This would cover most of the light duty and medium duty fleet needs.

The advantage of the DFS Managed Mobile On-Site Service is that we have the flexibility to add or remove trucks as the JEA fleet needs change!

**Quality Service Plan** -The JEA mobile operations will be managed by Steve Watson. Steve is the most knowledgeable person outside of JEA on your fleet. Combining Steve's eight years of experience with the TRAIT™ (Technology. Reporting. And Information. Tool.) we will provide Real-Time PM and PM Follow-up Reporting. Every PM will be completed on the T.R.A.I.T.™ providing a clean, and legible PM Inspection form that is processed and submitted electronically to the JEA Fleet Team. Through the camera function of our TRAIT™ we will take pictures of any failure items found during the PM. These pictures are uploaded to the PM Inspection Form that will be submitted to the JEA Fleet Team.

- Smart-Way Certification - At Dickinson Fleet Services, we are already taking steps to monitor and reduce our transportation fuel usage. We understand that reducing carbon dioxide pollution protects the health and wellbeing of the communities in which we serve. By doing so, we are contributing toward creating a more sustainable environment and industry. In consuming less fuel, we're also able to help in strengthening our nation's independence and assist in cutting overall costs. DFS was the first Managed On-Site PM & Repair Company to become Smart-Way Certified.
