Add (1): JEA adds the following questions and answers to this Solicitation.

Supplier Inquiry 1: Is each solicitation a win all/win nothing scenario or can one company be awarded a certain part(s) and another company awarded the remaining?

JEA Response: **1.2.3 NUMBER OF CONTRACTS TO BE AWARDED**

Each Participating Agency intends to Award one (1) Contract(s) for the Work to the Successful Bidder. JEA reserves the right to select more than one (1) Successful Bidder based on certain groupings of the Work items, or JEA may exclude certain Work items, if JEA determines that it is in the best interest of the Participating Agencies to do so.

Supplier Inquiry 4: (074-20) In the past, there was a mandatory requirement of OSHA 10-Hour and JEA specific safety training certification, required to work on any JEA facility. Is this still the requirement and if so; where can we have our personnel trained, if awarded the contract?

JEA Response: **1.2.5 SAFETY QUALIFICATION REQUIREMENTS (IFB)**

Bidder shall be approved as JEA Safety Qualified within ten (10) business days of receiving written notice from the JEA Bid Office that it is the lowest responsive and responsible Bidder. If the Bidder fails to obtain JEA approval as a JEA Safety

Qualified Company by 4:00 p.m. Eastern Time on the 10th business day, JEA will reject the Bidder's Bid, and proceed to Award to the next lowest responsive and responsible Bidder.

JEA Safety Qualification information is available online at jea.com. Please note that it may take up to five (5) business days for a Bidder to be approved as JEA Safety Qualified. It is the Bidder's responsibility to ensure it is JEA Safety Qualified. A list of currently Safety Qualified vendors can be found on jea.com. For additional information, contact Jerry Fulop at (904) 665-5810.
