

**NOTIFICATION OF EXTENSION OF CLOSURE TIMEFRAME
ST. JOHNS RIVER POWER PARK
BYPRODUCT STORAGE AREA B**

The Coal Combustion Residuals (CCR) Rule, 40 Code of Federal Regulations (CFR) Parts 257 and 261, requires the owner or operator to provide a narrative discussion providing the basis for extending the closure construction timeframe specified in the facility Closure Plan and §257.102(f). JEA is providing this notification of extension of the closure timeframe for the existing CCR landfill designated at Byproduct Storage Area B (BSA-B) at the St. Johns River Power Park located at 11202 New Berlin Road, Jacksonville, Florida.

CLOSURE EXTENSION DEMONSTRATION

The Notification of Intent to Initiate Closure of the BSA-B was placed into the operating record on December 11, 2020. JEA will complete closure of BSA-B in accordance with §257.102(d) by leaving CCR in-place. JEA's contractor responsible for the closure construction of BSA-B has encountered additional CCR containing materials during the consolidation of materials within the original Phase I footprint of BSA-B. The additional materials relocation, subsequent redesign of top final cover surface, and coordination with the Florida Department of Environmental Protection to obtain necessary regulatory approvals as well as wet weather have caused delays beyond JEA's control. Consequently, it is not feasible to complete closure within the original six-month construction schedule.

In accordance with CCR Rule, the closure construction timeframe will be extended by the one-year increment as prescribed in §257.102(f)(2)(ii)(c).

Sincerely,

Samuel F. Stafford, PE
Senior Engineer

Donald J. Miller
Principal and Practice Leader
