Both WTPs were constructed in the 1950's and are in need of refurbishment.</p> <p>The refurbishment of the McDuff WTP and Norwood WTP contains similar work scope/components such as, but not limited to: removal and replacement of the high service pumps, removal and replacement of the motor control centers, installation of variable frequency controllers for the high service pumps, removal and replacement of chlorine analyzers, removal and replacement of flow monitoring devices, and refurbishment of the high service pump building.</p> <p>Advertised on 10/29/2021. Six (6) prime contractors attended the mandatory pre-bid meeting held on 11/10/2021. At Bid opening on 12/14/2021, JEA received three (3) Bids. Sawcross, Inc. is the lowest responsive and responsible Bidder.</p> <p>The award amount of \$11,223,795.00 is approximately 52% higher than the budget estimate. The bid prices were higher than JEA's internal estimates and the engineering consultant's estimates due to high inflationary conditions for electrical and instrumentation and control (I&C) costs. Other factors include an overheated construction market, supply chain uncertainties and bidder's</p>

						<p>risks associated with refurbishing an old water treatment plant.</p> <p>The age of the facilities is a significant factor in the urgency for their refurbishment; this work is needed to ensure reliability and resiliency of service. For example, at McDuff, two of the six pumps have gone down in recent years and have required temporary replacements until refurbishment can be completed. Further delaying this work will impact the ability for JEA to continue to provide quality potable water to the surrounding communities. For these reasons, it is recommended to proceed with these projects to ensure safe drinking water for our customers.</p> <p>After bids were received, it was learned that the interior of underground water storage reservoir at the McDuff WTP has deterioration of the coating system and concrete roof and beams in the vicinity of the aerators. Firms with expertise in repairing these structures are being consulted regarding rehabilitation of the coating and structure. If needed, a change order will be brought for review and approval by the Awards Committee.</p> <p>Request approval to award a contract to Sawcross, Inc. for construction services for the McDuff WTP and Norwood WTP Refurbishment Projects in the amount of \$11,223,795.00.</p>
4	<p>Invitation for Bid (IFB)</p> <p>2 respondents</p>	McElroy	\$298,700.00	\$396,330.00	Duval Ford	<p style="text-align: center;"><u>Acquisition of Six (6) All Electric Trucks</u></p> <p>The purpose of this Invitation for Bid (the "IFB") is to solicit pricing for the purchase of six (6) fully electric vehicles or Battery-Electric Vehicles (BEV) within the light duty vehicle class for JEA's FY23 capital requirements for replacement for the Energy departments expansion needs. .</p> <p>When comparing JEA's past pricing to the proposed winning supplier, we utilized a similar configuration ICE (Internal Combustion Engine) even though this is a fully electric vehicle or Battery-Electric Vehicles (BEV) platform and has a considerably different long term maintenance model given the design. JEA's new pricing will be sixty-four percent (64%) higher, largely based on the differences in technology from a BEV platform to</p>

02-10-2022 Awards Committee

						<p>an ICE. This percentage was determined by taking the last price paid and comparing those prices to the quoted unit prices of this solicitation for FY22 light duty pickup purchases. It is well documented that long term maintenance combined with reduced fuel cost offsets a majority of the higher entry costs of the BEV platform vehicles and JEA has seen this in many of its other BEV platforms. Ford Motor publishes a forty percent (40%) reduction in scheduled maintenance costs over the life of the asset. JEA is looking to expand the electric fleet to this larger platform to allow further electricification and the economic and environmental benefits associated with the expansion.</p> <p>When the bids came back, both proposals were over budget. JEA Procurement reached out to the lowest bidder to clarify exactly what was being proposed and if there was work being proposed above what we required. It was confirmed that the model priced had significantly more features and upgrades than our technical specification required. We believe in lieu of a rescind and rebid, the best interest of JEA is to move forward with award to Duval Ford and allow JEA procurement to continue dialog regarding future change order reductions, and place the order timely to hopefully meet the 2022 model year ordering deadlines. A rescind would not allow the time needed to make that window, and in turn would delay the purchase of these vehicles for another year. We believe a post award change order can be completed and still completely comply with our technical specification. This should yield approximately seventeen percent (17%), or \$66,055.00, reduction in overall costs or alternatively only a thirty-five percent (35%) increase over an ICE unit.</p> <p>It should be noted that Duval Ford was the largest awardee on the FY21 solicitation performed in 2020. Duval Ford has also been a historically well performing vendor for both quality of work and timeliness of capital purchases, and also historically very competitive in past solicitations as well.</p> <p>Request approval to award a contract to Duval Ford for the purchase of six</p>

Formal Bid and Award System

Award #2 February 10, 2022

Type of Award Request: CHANGE ORDER
Requestor Name: Kilgo Veasey, Nancy A. – Dir Special Projects
Requestor Phone: (904) 665-6439
Project Title: Owner’s Representative Services for Technology, Security, and Facilities Systems for New JEA Headquarters (HQ1)
Project Number: 8006820
Project Location: JEA
Funds: Capital
Award Estimate: \$497,772.00

Scope of Work:

JEA retained H. Stephen Jones (HSJ) to provide design, coordination, project management, owner’s representation and construction administration services for the technology, security, and facilities systems associated with the new JEA Headquarters. These services included, but were not limited to, the following:

- Openings, doors, frame and door hardware
- Telecommunications systems
- Electronic safety and security systems
- Building automation systems
- Architectural and MEP coordination for low-voltage technology and security systems supporting Owner’s requirements and building systems
- Coordination of Architectural components, low-voltage, AHJ / UL product verification services, IT product coordination and support, AHJ inspection support and all related AHJ final inspection processes.

Additional information: The original award from April 2020 included much of the security and telecommunications system design and *coordination* for building automation integration. The building automation systems design was added in January 2021. Similarly, the original scope included *coordination* but not design of the audio/visual systems. It also did not include detailed project management and assistance in scoping complex planning for integration of technology services equipment. This addition includes design and specification for the balance of technology services equipment and planning scope for integration services and move management sequencing to be performed by others.

The scope for this additional work is attached and includes:

- Owner requested technology design
- Technology engineering
- Construction administration
- Related move-in project management services related to technology equipment and planning for integration.

JEA’s intent and goal is to provide project continuity and support for additional identified scopes of work as the project has evolved.

Scope of Work:

JEA retained H. Additional information: The original award from April included much of the security and telecommunications system design and *coordination* for building automation integration but did not include building automation system (BAS) design until the need was identified through the overall project design through coordination with Ryan Companies, Inc. (Ryan). Further overall design coordination identified the desire by JEA to oversee this portion of the design in close coordination with Ryan and JEA Tenant Improvement design by RS&H. The BAS integrates HVAC designs for both the building core and shell and for the interior tenant improvements. Integration and coordination between all systems is critical to a functioning BAS.

The scope for this additional work is attached and includes:

HSJ will provide consulting services for the planning, design, coordination and owner's representation for oversight of construction and commissioning of new Building Automation and Controls System for the new HQ1 Office Building and Parking Structure. JEA's intent and goal of this portion of the overall project will provide a single, fully integrated and overarching system for command, control, monitoring, automation and reporting of the multiple building energy systems at the new facility. The BAS will provide one platform providing applicable functionality to downstream systems including safety and security, lighting, energy monitoring, HVAC controls along with various other building and office systems listed herein.

After award, additional reviews were completed and the contract pricing was reduced by \$36,660.00 for a new not-to-exceed amount of \$582,736.00. The intent of this award is to have HSJ oversee an integrated design for building controls as well as the earlier awarded security and technology scope of work. The original award and proposal have been attached as back-up.

Additional review by the JEA Facilities Team indicated that HSJ is responsible for the low voltage package which is a large part of the Building Automation System (BAS). It is in JEA's best interest to add the BAS design to the HSJ scope of work, as breaking this out would significantly impact Tenement Improvement (TI) and slow the project down due to project familiarity and time spent on reviewing current design. This change order is to add BAS design to the contract scope to provide continuity and integration of systems for the HQ1 through project completion. The BAS will be sharing resources with the Security/Fire Systems and Technology systems; these three should be designed and integrated together. HSJ will continue to invoice JEA on a monthly basis, based on the hours devoted to the project. The consultant rates for this change order remained the same and are included in the GSA contract.

Request approval to award a change order to increase the H. Background/Recommendations:

JEA is in the process of designing and constructing of a new corporate downtown headquarters building. This project includes the design, coordination, and installation of numerous advanced security, facilities, and technology services systems. In addition, the project requires the integration of existing JEA systems to ensure the operational functionality and long term supportability by the respective JEA departments.

Based on the types of systems and standards employed by JEA, and the desire to enhance their level of integration in the new facility, JEA requires the services of an owner’s representative that specializes in low-voltage system development, integration, and installation. The use of a specialized owner’s representative will ensure all JEA standards are met, system interoperability is achieved, and all potential cost savings are realized in the project.

H. Stephen Jones & Associates is a Jacksonville based firm with a GSA contract that has established rates for the services identified in this request. The GSA Contract is 47QSWA19D007N and the period covered by Contract is June 12, 2019 - June 11, 2024. In addition, H. Stephen Jones & Associates in particular has been a JEA contractor for facilities and security services for many years with unique knowledge of JEA’s security and infrastructure and protocols making them well positioned to ensure JEA receives their desired outcome in this project.

- The fiscal year expected cash flows are as follows:

- FY20 - \$216,788.00

Award #3 February 10, 2022

Type of Award Request: INVITATION FOR BID (IFB)
Request #: 270
Requestor Name: Willoughby, Mickey
Requestor Phone: (865) 661-7494
Project Title: Construction Services for the McDuff WTP Refurbishment Project and Norwood WTP Refurbishment Project
Project Number: 8003457 (McDuff) and 8004397 (Norwood)
Project Location: JEA
Funds: Capital
Budget Estimate: \$7,383,000.00 (McDuff: \$4,381,000.00, Norwood: \$3,002,000.00)

Scope of Work:

The McDuff Water Treatment Plant (WTP), which is located at 1040 McDuff Ave South, and Norwood WTP, which is located at 1033 Escambia Street, are important components of JEA's potable (i.e., drinking) water treatment and distribution system in JEA's North Grid in Jacksonville, Florida. Both WTPs were constructed in the 1950's and are in need of refurbishment.

The refurbishment of the McDuff WTP and Norwood WTP contains similar work scope/components such as, but not limited to: removal and replacement of the high service pumps, removal and replacement of the motor control centers, installation of variable frequency controllers for the high service pumps, removal and replacement of chlorine analyzers, removal and replacement of flow monitoring devices, and refurbishment of the high service pump building.

WILLIAMS INDUSTRIAL SERVICES, LLC	\$7,195,318.00	\$5,225,090.00	\$12,420,408.00

Background/Recommendations:

Advertised on 10/29/2021. Six (6) prime contractors attended the mandatory pre-bid meeting held on 11/10/2021. At Bid opening on 12/14/2021, JEA received three (3) Bids. Sawcross, Inc. is the lowest responsive and responsible Bidder. A copy of the Bid Form and Workbook are attached as backup.

The award amount of \$11,223,795.00 is approximately 52% higher than the budget estimate. The bid prices were higher than JEA’s internal estimates and the engineering consultant’s estimates due to high inflationary conditions for electrical and instrumentation and control (I&C) costs. Other factors include an overheated construction market, supply chain uncertainties and bidder’s risks associated with refurbishing an old water treatment plant.

The following table presents JEA’s and engineer’s (CDM Smith) estimates for the plants, the bid results from Sawcross for the plants and the percent of JEA and engineer’s estimates. JEA estimating group reviewed the bids and deemed them reasonable compared to current market conditions.

	JEA Estimate (Aug 2021)	CDM Smith Estimate (Sep 2021)	Sawcross, Inc. Bid	% of JEA Estimate	% of CDM Estimate
McDuff WTP	\$4,380,885.00	\$4,485,593.00	\$6,581,300.00	150%	147%
Norwood WTP	\$3,001,983.00	\$3,373,573.00	\$4,642,495.00	155%	138%
Total	\$7,382,868.00	\$7,859,166.00	\$11,223,795.00	152%	143%

The age of the facilities is a significant factor in the urgency for their refurbishment; this work is needed to ensure reliability and resiliency of service. For example, at McDuff, two of the six pumps have gone down in recent years and have required temporary replacements until refurbishment can be completed. Further delaying this work will impact the ability for JEA to continue to provide quality potable water to the surrounding communities. For these reasons, it is recommended to proceed with these projects to ensure safe drinking water for our customers.

After bids were received, it was learned that the interior of underground water storage reservoir at the McDuff WTP has deterioration of the coating system and concrete roof and beams in the vicinity of the aerators. Firms with expertise in repairing these structures are being consulted regarding rehabilitation of the coating and structure. If needed, a change order will be brought for review and approval by the Awards Committee.

BID BOND

STATE OF FLORIDA

COUNTY OF: Duval

KNOW ALL PERSONS BY THESE PRESENTS, That we, Sawcross, Inc. (hereinafter called "Principal"), and Western Surety Company as Surety (hereinafter called "Surety"), are held and firmly bound unto the JEA of the City of Jacksonville, Florida (hereinafter called the "JEA"), in the sum of \$5% of Amt Bid lawful money of the United States of America, for the payment which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents:

WHEREAS, the Principal contemplates submitting or has submitted a Bid to the JEA for:

1410468246: Construction Services for the McDuff WTP Refurbishment Project and Norwood WTP Refurbishment Project

WHEREAS, it was a condition precedent to the submission of said Bid that a certified check or Bid Bond in the amount of 5% of Amt Bid be submitted with said Bid as a guaranty that the Principal would, if awarded the contract, enter into a written contract with the JEA and furnish a Section 255.05 Florida Statutes Contract Bond in an amount equal to 100% of Contract Price for the performance of said contract, within ten consecutive calendar days after written notice being given of acceptance by the JEA.

NOW, THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the Bid of the Principal herein be accepted and said Principal, within ten consecutive calendar days after written notice being given of such acceptance, enters into a written contract with the JEA, and furnishes a Section 255.05, Florida Statutes Contract Bond in an amount equal to 100% of Contract Price satisfactory to the JEA, then this obligation shall be void; otherwise, the sum herein stated shall be due and payable to the JEA, and the Surety herein agrees to pay said sum immediately upon demand of said JEA, in good and lawful money of the United States of America; as liquidated damages for failure thereof of said Principal.

IN WITNESS WHEREOF, the said Principal and the said Surety have duly executed this bond the 14th day of December, 2021.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

Formal Bid and Award System

Award #4 February 10, 2022

Type of Award Request: INVITATION FOR BID (IFB)
Requestor Name: Hightower, Justin
Requestor Phone: (904) 665-8357
Project Title: JEA Light and Medium Duty Vehicle Procurement Acquisition
FY22 Project Numbers: N/A
FY23 Project Numbers: TBD
Project Location: JEA
Funds: Capital
Budget Estimate: \$298,700.00

Scope of Work:

The purpose of this Invitation for Bid (the "IFB") is to solicit pricing for the purchase of six (6) fully electric vehicles or Battery-Electric Vehicles (BEV) within the light duty vehicle class for JEA's FY23 capital requirements for replacement for the Energy departments expansion needs. During the solicitation process, it was determined to be in the best interests for JEA to proceed with an award of the following assets:

- Energy Expansion – 6 Units (211-02E)

JEA IFB/RFP/State/City/GSA#: 1410541446-22
Purchasing Agent: Bustamante, John
Is this a Ratification?: NO

DUVAL FORD	\$396,330.00	1	\$396,330.00	1
GARBER FORD	\$412,626.00	1	\$0.00	1

Background/Recommendations:

Advertised on 01/14/2022. There was pre-response meeting held. At Response opening on 01/25/2022, JEA received two (2) Responses. It should be noted that during the previous similar light duty vehicle bids, the two (2) respondents of the solicitation were also the only respondents on the last two (2) bids. These items were not included in the previous light duty bid given they have a unique ordering window with the OEM (Original Equipment Manufacturer) Ford Motor due to the nature of the vehicle, and that this is the first time being made available to the public for this model. The basis of award is to the contract to the lowest cost Respondent for the bid.

When comparing JEA’s past pricing to the proposed winning supplier, we utilized a similar configuration ICE (Internal Combustion Engine) even though this is a fully electric vehicle or Battery-Electric Vehicles (BEV) platform and has a considerably different long term maintenance model given the design. JEA’s new pricing will be sixty-four percent (64%) higher, largely based on the differences in technology from a BEV platform to an ICE. This percentage was determined by taking the last price paid and comparing those prices to the quoted unit prices of this solicitation for FY22 light duty pickup purchases. It is well documented that long term maintenance combined with reduced fuel cost offsets a majority of the higher entry costs of the BEV platform vehicles and JEA has seen this in many of its other BEV platforms. Ford Motor publishes a forty percent (40%) reduction in scheduled maintenance costs over the life of the asset. JEA is looking to expand the electric fleet to this larger platform to allow further electrification and the economic and environmental benefits associated with the expansion.

When the bids came back, both proposals were over budget. JEA Procurement reached out to the lowest bidder to clarify exactly what was being proposed and if there was work being proposed above what we required. It was confirmed that the model priced had significantly more features and upgrades than our technical specification required. We believe in lieu of a rescind and rebid, the best interest of JEA is to move forward with award to Duval Ford and allow JEA procurement to continue dialog regarding future change order reductions, and place the order timely to hopefully meet the 2022 model year ordering deadlines. A rescind would not allow the time needed to make that window, and in turn would delay the purchase of these vehicles for another year. We believe a post award change order can be completed and still completely comply with our technical specification. This should yield approximately seventeen percent (17%), or \$66,055.00, reduction in overall costs or alternatively only a thirty-five percent (35%) increase over an ICE unit.

It should be noted that Duval Ford was the largest awardee on the FY21 solicitation performed in 2020. Duval Ford has also been a historically well performing vendor for both quality of work and timeliness of capital purchases, and also historically very competitive in past solicitations as well.

Request approval to award a contract to Duval Ford for the purchase of six (6) vehicles for JEA’s FY23 fleet capital requirements in the amount of \$396,330.00, subject to the availability of lawfully appropriated funds.
